PUNNICHY, Sask,
April 10,1946.

Indian Affairs Branch, Dept, Mines & Resources, Ottawa, Ont.

I enclose herewith requisition for supplies, in triplicate, for material required for repairs to the fence putting bell on top of the school at Day Star reserve.

This school will require re-decorating as nothing was done last year as there was no teacher at the school. The requisition for the material required will be forwarded later when I know if the man who is now teaching at the school, is to remain there permanently.

DEPARTMENT

INDIAN AFFAIRS BRANCH

File #991-312-11A

Regina, May 30th, 1946.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith copy of letter and requisition forms in connection with the erection of a small garage for the use of the day school teacher at the Day Star Day School of the Touchwood Agency, at a cost of $77.65. Included in the requisition is also an amount of $10.00, being the cost of cutting, trimming, and erecting a flag pole on the school grounds.

I would recommend that authority be granted for the flag pole but I do not recommend the erection of the garage at the expense of our Department. It is a small matter but would create a precedent which would result in a request for garages for privately owned cars at most of the other places and I do not think that we should build on school premises the kind of a shack which Mr. Hicks has in mind in asking for this one.

I would recommend that he be given permission to erect a small garage at his own expense and that when he leaves the school he be permitted to dispose of it as he sees fit.

Inspector of Indian Agencies.

With reference to your letter of the 30th ultimo, the Department approves an expenditure of $10.00 covering the cost of securing and erecting a flagpole at the Day Star Indian Day School.

It has not been our practice to erect a garage at an Indian day school, and I agree with the decision that you have made regarding Mr. Hick's request.

J.P.B.Ostrander Esq., Inspector of Indian Agencies, Regina, Sask

I enclose herewith requisition for supplies, in triplicate, for material and labor for repairs and re-decorating the Day Star Indian Day School and residence. Also for storm windows for replacement.

If the Department cannot do all this work this year, possibly half of the work on the house could be left until next year, but the work on the school should be done.

When Mr. Tayler was teacher at the school he had the storm windows left all over the place and some of these got broken. Those requested are to replace these.

With reference to Department letter #121-2-5 (WT1) dated August 28,1946, authorizing an expenditure of $200.00 for a well at the Day Star Day School, I regret that this amount has been exceeded, but the well digger had to go down 68 feet to get water and considerable difficulty was experienced with quick sand.

I also found it necessary to have the old well at the school cleaned out at a cost of $35.00.

R.S.Davis,
Indian Agent.

These wells are also used by the Indians in the vicinity for drinking purposes.

PUNNICHY, Sask,

Indian Affairs Branch, Dept. Mines & Resources, Ottawa, Ont.

I would be glad to receive authority to expend the sum of $100.00 for supplies for mid-day meals at each of the Day Star Day School and Fishing Lake Day School.

In previous years we have been allowed $75.00 for each school, but the cost of living has gone up and no more can be purchased for $100.00 than the $75.00 previously allowed.

Ottawa, 14 November 1946.

Mr. R.S. Davis, Indian Agent,
PUNNICHY, Sask.

With reference to your letter of the 7th instant, we will allow $75.00 for midday meal purposes at the Day Star Day School and the same amount at the Fishing Lake Day School.

These are the same as last year. We feel that in view of the payment of family allowances, children should be better fed at home and there is not the same necessity for extensive midday meals.

Supt. of Welfare & Training.

Day Star Indian Day School.

Superintendent Logie's report on the above Day School has been received here. His comments on the whole are satisfactory and he has the following remarks to make about the teacher:

"The situation may be summed up thus: Mr. Hick has the confidence and affection of his pupils but his teaching methods leave much to be desired.

"Of course it is always a problem in such schools to find someone who combines the qualities which gain the confidence of the Indians together with the best teaching techniques. Further would such a paragon be content to live in isolation in order to teach these children?

"It is my opinion, in the light of these facts, that Mr. Hick is doing a fair job, for he has the primary requisite, a love for and the confidence of the children.

"The children are being instructed much in the same way as Mr. Hick was taught, as far as I could learn. But the test shows that they are learning to read, to write quite neatly, to handle the English language to some extent, both oral and written, and to do simple arithmetic. (The test papers and record sheet are being forwarded under separate cover. (Progressive Achievement Test).

With regard to the condition of the building [redacted] the following comments to make:

"Before another winter storm windows ought to be provided for the main northern exposure windows. With insulation this would make the school much more comfortable. This winter, using wood only, the school was difficult to heat and the temperature was used instead at times.

"I found the classroom floor untidy as was the basement also.

"Sanitary facilities need improving as follows:

(a) Wash stands, instead of makeshift boxes, to encourage the children to keep clean. The girls have a room set apart for them in the teacherage and a few added facilities of this kind would be welcomed. The boys need more encouragement along this line than the girls.

(b) Drinking water. Snow was being used when I visited. It was melted on the teacherage stove. In the summer a large wooden barrel is used and the water is hauled. The barrel is extremely unsanitary and at present is so dried out as to be useless. Some attention to this problem is urgent.

"Six chair desks are used but 20 more are needed. The other desks are in poor condition and do not fit the children."

In conclusion he makes the following remarks:

"In general, there is a happy atmosphere and the children are learning.

"It is my opinion that the situation at this school could be much improved in the following ways:

(1) Insulate school, provide storm windows, better sanitary facilities.

(2) Provide more reading material (children's books)

especially for grade 2, 3 levels. At present there is not much more than the readers.

(3) Provide Mr. Hick with professional books or magazines on improved teaching techniques."

Would you please see that a requisition is submitted for the desks required, being certain to indicate the sizes needed. Desks come in small, medium and large sizes.

We would also like to have your ideas with regard to the improvement of the sanitary facilities and also with regard to the storm windows. If Mr. Hick will requisition for the library books which will be described in the next issue of the Bulletin, he will be able to start a small school library, as recommended.

re Day Star Day School

With reference to your letter 121-2-1 dated April 20, 1948, regarding Inspector's report, we had storm windows for this school but through neglect of the past teacher, they were not taken care of and get broken. I tried to have these repaired last fall, but could not get glass. However, I will get in a requistion before the winter comes.

Regarding the untidiness of the school, Mr. Hick is a bachelor, and gets careless. I have taken this matter up with him and he has promised to do better in future.

(A) Regarding the wash stands, there is very little room in this school to put these in. On my next visit, I will see what can be done and make a recommendation.

(B) The water situation at this school has never been good. We have dug six wells without getting any adequate water supply.

For the past year I have been having the water hauled from a well a mile and a quatternorth west of the school, in a barrel However since your letter I have ordered two large cream cans which should be much more sanitary, and should overcome this problem for the time being. I am also enclosing a requisition for a drinking fountain.

As it will be necessary for us to build a teacherage, as the old building is not worth spending much money on, and has no basement, I would recommend that this school be moved a mile and a quarter north west where we can get water, and a new teacherage built. This should be done next year as do not think Mr.Hick can carry on more than a year or so as his health is not good, and a married couple would be more suitable.
If this suggestion meets with your appreval, pleasd advise me and I will see that the amount for the school is included in the 1949-50 estimates.

The desks in this school that was mentioned in the Inspector's report are the old style and are not much different to the ones used in other schools. While these children are growing out of the desks, it will not be long before a smaller group will come along and fit the desks. However, I will forward a requisition for your consideration.

I have taken the matter of reading material for grades two and three level, and Mr. Hick will be requisitioning for these in due course.

Mr. R.S. Davis, Superintendent,
Indian Agency, Punnichy, Sask.

We have your recent letter with reference to the Day Star Indian day school. The Department approves the purchase of a water cooler.

It will be in order for you to include in your estimates for the fiscal year 1949-50, a teacher's residence. Of course you understand that at the present time I am not in a position to definitely assure you that it will be possible to obtain the funds for the purpose. However, we will keep in mind your recommendation in the matter.

With reference to moving the school, you are in the best position to judge where it should be located, not only to obtain a supply of water, but also for the convenience of the pupils attending it.

121-2-5 DAY STAR - 5

file E1

EXTRACT FROM LETTER FROM REV. F.E.R. BADHAM,
Secretary of Synod and Registrar,
Synod House, Regina, Sask., dated June 24, 1948.

Original on 121-1-1

At the DAY STAR Reserve we found Mr. Hick enjoying his work. He has done much to improve the appearance of the place since he went there and in our opinion he is doing a very good job of work. Although we have not been advised by your Department of the School Inspector's Report on Mr. Hick, we understand that it was a very satisfactory one. I wish to make the following observations. The school is very difficult to heat in the wintertime and Mr. Hick has to take the youngest of the children to his residence because it is too cold for them to play in the school during the noon hour. There are no storm windows on the school despite the fact that this need has been made known to the Department of Indian Affairs for some time. The teacher's residence at Day Star requires a lot of work to be done to it before it can be made warm and comfortable. The interior is badly in need of paint and calsomine and nothing was done to it before Mr. Hick took over the work as teacher. There is no supply of drinking water which has to be hauled to the school during winter and summer.

The Indian Department expects Mr. Hick to provide the twenty-six children with a hot noon-day meal each day. The grant made to him for this work is approximately $8.00 per month, while the actual cost to Mr. Hick for feeding the children is $25.00. Incidentally out of the $8.00 per month, Mr. Hick is expected to provide brooms and soap, etc., for cleaning purposes at the school.

The Reverend Mr. Madham recently visited the above three schools and had many favourable comments to make concerning the work being done. However, he did make a request concerning the painting of the interior and exterior of these schools. He also asks concerning insulation of the building.

He made a comment concerning janitor supplies at the Day Star School. He stated that Mr. Hick was expected to provide brooms and soap for cleaning purposes out of the amount granted monthly for lunch purposes. It is presumed that we will be hearing from you in this regard.

With reference to the second paragraph of my letter of July 22nd, I accompanied Mr. E. Lathi of Lathi Brothers, Contractors, Punnichy, on August 3 to re-examine the damaged cement floor and inside cement wall of the school building and found that there is a danger of the wall collapsing and doing considerable damage to the brick chimney adjacent to it.

Attached hereto if Form 37 listing materials required and an estimate of the labour required to repair the cement work.

Mr. Lathi did not care to submit a tender for labour on this work as it is not possible to determine the extent of damage under the cement floor.

Authority is requested to purchase the repair materials locally at a cost of $37.72 and employ a contractor to do the work at a cost of approximately $56.00

An advance cheque for $16.00 is requested to pay Indian labour hauling gravel and materials to the school site.

Regina, August 14, 1948.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith requisitions for material required together with a copy of Superintendent Simpson's covering letter regarding necessary repairs to the Day Star Indian Day School.

The cost of labour is only an estimate as it is not possible to know how much work will be required until part of the damaged wall is removed. Mr. Luthi is a reliable builder and can usually furnish a very close estimate on the amount of work required but in a case such as this school the work required is not all apparent from exterior examination.

It is very important that repairs be made to save further damage and I would recommend that Mr. Simpson be given authority to make local purchases of the material and have the work carried out as soon as possible.

AIR MAIL

Regina, November 12th, 1948.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith copy of a letter from Superintendent S.H. Simpson, of the Touchwood Agency, and requisition for the amount of $62.07 for necessary material for well cribbing for the well which furnishes the water supply for the Day Star Indian Day School.

The well supplying the water for the school recently caved in, and the matter is urgent. I would recommend that authority be granted at the earliest possible date, and that Mr. Simpson be given permission to make local purchase of the necessary material as indicated in the requisition.

Ottawa.

I regret not having got authority for the expenditure in the attached Voucher No.949, for three storm windows for Day Star Day School. The four storm windows off that school were taken to Punnichy to be repaired, but three of them were so rotten and damaged that they could not be repaired. These are an odd size windows, and would have to be a special order. However, the North American Lumber & Supply happened to have just that size in stock having ordered them for another school and they were not taken. To avoid delay I bought these windows and had them sent to Day Star Day School.

I trust this will meet with your approval and I recommend the voucher be paid.

Answered

Sept 15th 08

My Lord,

I have the honor to acknowledge the receipt of your letter of the 9th instant, in which you state that you will be in Toronto on the 14th inst. and desire to see me on that day. I regret to say, that I shall be busy, if funds are available towards the end of the current fiscal year, in the erection (5) of the dwelling house for the Indian Agent, and cannot therefore leave Ottawa. I will be in Toronto, however, on the 21st inst. and will be glad to see you at the office of the Department at that time.

In regard to Your Lordship's application for a School at Fisher's Landing, I beg to say that, should you be able to secure a teacher by the time specified, the Department will pay his salary at the rate of $300 per annum from the date of the opening of the school, and provision will be made in the Supplementary Estimates for the erection of a school-house, but I regret to say that it will not be possible to furnish any funds for the erection of a dwelling house.

Sir:-

In reply to your letter above referred to relative to opening a Day School on the Fishing Lake Reserve, I would state that I will send a detailed estimate of the cost of a school building by our next mail, but I would ask if the Department has fully considered the advisability of building a day school where the Indians state that they do not want a school, and where they state that if one is built they will not send their children to school; and as these Indians lead a nomadic life they are seldom to be found on their Reserve, except in the winter, and besides there are only about seven families or 50 persons in all, who live on this Reserve.

I would prefer to see some one as a Missionary go and live on the Reserve for a time and then get his views on the advisability

of having a school, and where it should be situated. From what I have seen of the Nut and Fishing Lake Band I firmly believe that for Missionary work it would be the most difficult field in the Territories and would therefore require a first class man.

I understand that the Rev. A.C. Kettle of the Church of England has been nominated by the Bi shop of Qu'Appelle as School teacher and Missionary at Fishing Lake. As he does not understand their language nor habits, being I understand, only a short time in this Country, he has a bigger contract than he anticipates, and there are nine chances out of ten that he will fail, and it might be well to see what can be done before building a school.

It would be impossible to build the school by the first of May next.

Sir:-

With further reference to your letter above mentione and mine of the 6th inst of even number, I now beg to enclose herewith a statement showing the estimated cost of erecting a school house on Fishing Lake Reserve, according to the plan enclosed in your letter.

I did not include an open fireplace, as I think a ventilator shaft 13 x 8 inches, open at the floor would be more beneficial, as the fireplace lets in a lot of cold when there is no fire going, and besides the danger of setting the building on fire from the fireplace.

I would not recommend a thatched roof, as it requires repairing so often, also the danger from fire, but it would be about $15.00. cheaper than a shingle roof.

I would strongly recommend the Department not to rush the building of the school until there was some prospect of getting children for it, and not because some enthusiastic Missionary, who has never been there, desires to open up a field for himself.

My view of the matter is that the only school that will

Sir,

I have the honour to refer to my letter of even number of 1st instant in which it was stated that the Department could not see its way at present to authorise expenditure on building a schoolhouse at the Fishing Lake Reserve;and to inform you that from a communication received from His Lordship the Bishop of Qu'Appelle by the Superintendent General in which he describes arrangements made to send out a teacher,and his disappointment upon receiving a letter from you saying that the Department does not see its way to authorise the expenditure

It occurs to the Department that some confusion may have occurred between provision of grant towards teacher's salary at the rate of $300 a year,to begin as soon after the commencement of current month as the teacher might enter upon his duties and the provision of a school house. The former was an unconditional promise and must be kept,but the latter was contingent on possibility of finding funds,before provision should have been made in supplementary Estimates for 1896-97 and funds so becoming available.

If any such confusion has effected my communication made by you to His Lordship,you will kindly set the matter right.

Re Industrial School in the diocese.

1. Industrial Schools have not been established with relation to particular dioceses, and the Church of England is content if its full share is compared with other communities,---in fact, more than are other according to Roman Catholic.

For the best interests of the pupils it is regarded as unofficial to [illegible] disturbance from [illegible] interests [illegible] ones after in-[illegible] to the reserves, as they are situated [illegible] children [illegible] country, and in numbers [illegible] difficulty in procuring the pupils necessary for their maintenance as part of an educational system which has steadily increased in extent and cost until it has assumed large proportions. Concessions have been made relative to a Boarding School at Qu'Appelle in consideration of there being no Industrial Institution connected with the Anglican Church [illegible] Battleford, which, however, sufficiently meets the necessities of the case.

His Lordship has seen the wisdom of-- as he states---refraining from pressing for this.

2. Funds to complete and maintain Industrial School at Medicine Hat.

His Lordship recently stated that he accepted without complaint the Department's refusal to make provision in the Estimates for maintenance of pupils unless the Church would guarantee the completion of the buildings, which refusal was the result of provision made during several consecutive years, having been urged in consequence of the failure of the Church authorities to mature their plans. The idea of establishing a school at Medicine Hat originated with Rev. Mr. Tilmar, who omitted it was to not inordinately, and selected the point which the Government would have chosen, can be been consulted, and has never been able to view favourably, and it is admitted that a school of Industry and Handicraft, in whose direction Mr. Tilmar is, has never been disposed to commit himself in the undertaking, but proposed for the Institution to similar established at Calgary.

3. Establishment of New Schools at Fishing Lake Reserve.

Despite the well established policy aiming to reduce rather than increase the number of Day Schools when Industrial or Boarding Schools are intended to take the place of as far as possible, and despite the very poor prospects for getting these particular Indians to avail themselves of a school which they say they do not want, the Department having refused applications from other denominations, at His Lordship's

urgent solicitation a promise was made that if by the first of the current month the teacher were provided the Department would pay the usual amount of $300 per annum towards his salary, but little if any hope of being able to provide a school building was held out, before provision should have been made in the Supplementary Estimates.

In fulfilment of this promise provision has been made in Supplementary Estimates for 1896-97 for a schoolhouse and salary grant.

The Department communicated with the Indian Commissioner as to cost of schoolhouse, but said that it did not at present see its way to authorize the expenditure, but said nothing about inability to implement its promise of a salary grant from the opening of the current year, as probably there has arisen some confusion at the Regina Office between the two items, and its attention is being drawn to the matter, so that there is no delay to prevent it proceeding in accordance with the terms of the promise just described.

My dear Lee.

I have just seen Hon'ble H. McDonald on Question of our Indian Schools. I think he sent you my letter. He is writing you himself by this mail and has asked me to write give the details I set before him. (1) The Fishing Lake School. I certainly feel that after Government providing for my appointing as a Chaplain should give me to consider the expense this dual means to it possible that I have a Missionary a Sort. Still I feel that after the agents (Indian) letter regarding the prospects of a School that (as I think Sir John would agree) I really ought to take provide the Schools I have at present. - Mr. Dewdney & Mr. Reed a man who can make himself with the Indians the Fishing Lake Children & for this reason I think the Department might have given me this in the event of it's being.

(2) I put it before Mr. McDonald that this Mission work I feel I have a claim for help in and direction in work & he agreed with me & said he would give it & approval of the Special for purpose &c. Parties it - of the Connection my Captain is that I mean to go with Effort at Fishing Lake if possible & still more

I can be relieved of responsible [illegible]
So I ask that the Department will complete the School at
Red Deer Hill & give such grant that I shall be free
from anxiety as to its support - or better state an at-
Calgary the Department will supply a clergyman &
superintend it & pay his salary & they will contribute
no further pecuniary responsibility - Even as an
Industrial School, though it might be chiefly farming
& this is a detail. For I have always told you, that we
as Church people, feel it is hard [illegible] I have any Industrial
School & that as soon as we children [illegible] they are
taken down we can have no control. It takes the heart
out of the work - I spoke to Miss [illegible] that Sept. some

which is a credit to the Church of any country - I wish that
we may take our part in it as a Church & DV so to have
our Boarding [illegible] Industrial School - Hoping I shall hear
that I have asked V. Dispatch DV -

(1) As to Building of School - Either to complete it according to
necessary conditions & the Govt - at least I think I can answer
for the Govt as to [illegible] which Govt will complete & furnish it -
by Govt 2 years enabling to complete & furnish it -

(2). As to maintenance - either to 'limit' us to given sum

Department could not for the present see its way to authorize the expenditure and it seemed to me that either through some misunderstanding of the Department's meaning by the Indian Commissioner,or by Your Lordship of the Commissioner's communication to yourself,the conclusion had been reached that the Department was not prepared to carry out its promise in the matter. The Commissioner was at once reminded that the promise to give a salary grant at any time after the Ist ultimo was definite,and as he has doubtless by this time corrected any false impression which may have been conveyed, Your Lordship will have learned that the Department has no desire to withdraw from what it undertook to do.

Dear Sir:-

I was appointed school teacher on the Fishing Lake Reserve in May last, and have been in residence there since the end of June. I understand that a grant of $300.00. dollars has been assigned, and should be glad to know when I may expect any portion of the salary.

The school is not yet in operation, partly because the Indians are not yet ready for it, and partly because we have no building at present, but when the grant was promised to the late Bishop Burn of Qu'Appelle, it was on understanding that there would be no actual school teaching for some long time.

Dear Sir

I regret to say that I have just met with a crushing disappointment. My claim for Scrip for land @ Chilkoot where I was at Fort Alexander was thrown out. after my making two trips to Fort Dr'Appelle I had to send my wife on to St James where my parents-in-law living a few miles from Winnipeg - as there was no D. or prospect and wife to attend to her. and I had all along thought & was encouraged to think, that as my home was there at Fort Alexander. Some allowance would be made for this - but as the Com'r would not listen to any explanation being made - but just that the Child was born in Man. he would not hear of it. there has been a great loss to me, machinery & scrip going at a high price. & 30% a more. would have enabled me to pay all my debts nicely - & furnished my table well for the winter. we number 6 in the family and God alone knows how we are to furnish our table even with bread this winter - at times it is enough to drive a man

Ottawa, November 13th, 1909.

Sir,

The Department is in receipt of Mr. Inspector Graham's report on the Fishing Lake Day School, which shows the school to be fairly satisfactory.

The general conditions of the Indians on the reserve is, however, disappointing, and so long as the present situation exists it must to a certain degree nullify the efforts of the Teacher.

Where the Agent and Agency employees have a right conception of their duties and responsibilities to the Indians as well as to the Department pronounced amelioration in the conditions on the reserve is in evidence in their homes and mode of life. The Department is undertaking Indian education in its broadest sense and everything must not be left to the Teacher; all should co-operate to obtain appreciable results.

The Department would like you in the case of this school to use your influence to have all the Indian children attend, and would like you to impress upon the Teacher and the Farmer the necessity for exerting themselves to improve the present unsatisfactory situation above referred to. It is to be hoped that when Mr. Graham next visits this reserve he will be able to report an improvement along these lines.

The remarks just made with reference to the duties of employees are applicable to all reserves and the

DEPARTMENT OF INDIAN AFFAIRS
DEC 13 1909

Referring to your letter of November, 13 1909

No. 121107/1

I have the honor to acknowledge the receipt of your letter of the above date and number regarding the conditions existing on the reserve at Fishing Lake , and especially with reference to the day-school at that point.

I beg to inform the Department that the irregular attendance at that school is not due to the lack of interest in the school on the part of the Farmer or myself. I have taken advantage of every opportunity of impressing these Indians with the importance of sending their children to the School and the present attendance was obtained through my efforts alone.

These remarks apply to the other schools in the Agency as well.

The fact is, that the School was placed at Fishing Lake before the Indians were ready for it. The Indians at that point have so far had to depend upon hunting, trapping and working out for their means of support . These employments have necessarily taken them away from their reserve during the greater part of the year , and as they have no means of leaving their children behind them, the

attendance at the school has been of a very desultory character.

I am making every effort to get these Indians to adopt farming as a means of livelihood and meeting with a fair measure of success so far. They have harvested their first crop this year and as it was a good one it has had the effect of making others wish to start , and as soon as the Indians have employment which will keep them residing continually on their reserve, there will be a possibility of getting all the children of school age to attend.

I have already explained the condition existing to Mr: Graham and the Indian Commissioner.

I recognize the importance of co-operation and have asked the Teacher to visit the Indians in their homes so that the younger children would have an opportunity of becoming used to him and this I think would have a beneficial effect in overcoming their natural aversion.

There is only one man at Fishing Lake who has shown active opposition to the school and who absolutely refuses to send his children , and while I am opposed as a rule to using forcible measures , I think that if the Department will authorize me to take his children and place them in a Boarding School forcibly , it would have a very beneficial effect.

Sir,

127 I have to acknowledge the receipt of your letter of the 7th ultimo in reference to the conditions as they exist on the reserve at Fishing Lake with regard to the day school.

In reply I beg to say that the Department trusts that the efforts which are being made by yourself and others will result in a much better attendance at the school.

In reference to the last paragraph of your letter I beg to say that the Department does not approve of the course suggested by you to forcibly remove the children of an Indian on the reserve to a boarding school. The Department would like to know the cause of this particular Indian's antagonism to the school.

If he can be brought to see the error of his attitude by persuasive means it is considered that it would preferable to using the more forcible measures at the command of the Department.

Referring to your letter of above date and number regarding Maymay an Indian of the Fishing Lake Band who objects to sending his children to school . I beg to inform the Department that I will endeavour to overcome this mans scruples by persuasive means.

Mr: Harding who is in charge of the school at that point as teacher at present has succeeded in gaining the confidence of the Indians to a remarkable extent and we now have seventeen pupils on the role which number practically includes all the children of school age belonging to the Band who are physically capable of attending.

The attendance during the winter has been intermittant owing to the temporary absence of the parents from time to time at hunting, but it is expected that the attendance will be more regular during the summer months.

The teacher reports that the children attend regularly and very punctually when their parents are in residence on the reserve.

I have instructed the Farmer to have a new garden plot plowed for the teacher who will

apportion it amongst the larger pupils who will be supplied with seed .

A start was made in this direction last year in a small way and the children appeared to take a keen interest in their little plots, the produce of which they were allowed to take home.

The Farmer and Teacher are working together in the interests of the school and I hope that marked improvement will be noted when our next inspection takes place.

Mr: Hardinge is not a holder of a teachers' Certificate, but he is very well educated and appears to have the faculty of transmitting knowledge to the Indian children. I am not making a special report on the Fishing Lake Day school, but have the following suggestions to make with regard to it.

As the Indians of this reserve have apparently made up their minds to settle down to work at farming, I believe that a good day school could be worked up. I would point out that the present school is a small log structure, poorly built, cold and cheerless, and now that the Indians are farming in another locality, the school is not conveniently situated.

If the Department could come to some arrangement with the Anglican Church authorities, whereby the school could be run on a public school basis, under a properly qualified male teacher, appointed and paid by the Department, I am sure good results would follow, especially as such a teacher would have the assistance of our energetic farmer in helping the work along. If this change is made I would strongly recommend that a new frame school-house be built near the farm buildings, surrounding which are the Indian farms, where most of the children live. I am satisfied a good school could be built for $1200.

I do not consider that a day school has had a fair trial on this reserve up to now. Aside from a Mr. Harding, who was in charge of it for a few months last Spring, the teachers have all been thoroughly incompetent.

Fishing Lake Reserve.

6 I am not making a special report on the Fishing Lake Day School, but have the following suggestions to make with regard to it.

7 As the Indians of this reserve have apparently made up their minds to settle down to work at farming, I believe that a good day school could be worked up. I would point out that the present school is a small log structure, poorly build, cold and cheerless, and now that the Indians are farming in another locality, the school is not conveniently situated.

8 If the Department could come to some arrangement with the Anglican Church Authorities, whereby the school could be run on a public school basis, under a properly qualified male teacher, appointed and paid by the Department, I am sure good results would follow, especially as such a teacher would have the assistance of our energetic Farmer in helping the work along.

If this

If this change is made I would strongly recommend that a new frame school house be build near the farm buildings, surrounding which are the Indian farms, where most of the children live. I am satisfied a good school could be built for $1200.

9. I do not consider that a Day school has had fair trial on this reserve up to now. Aside from a Mr. Harding, who was in charge of it for a few months last Spring, the teachers have all been thoroughly incompetent. They have all been Englishmen, who have lived only a short time in the country, and as a rule did not know how to take care of themselves, let alone give instruction to Indians.

Sir,

I have to acknowledge the receipt of your letter of the 16th ultimo in reference to the erection of a school building at the Fleming Lake reserve.

In reply I am to say that the Department is very pleased to learn that those Indians are progressing and showing an inclination to take up farming to a greater extent than formerly. It is not prepared to erect a school next summer, but, should these Indians continue to advance, you may bring the matter to the attention of the Department next fall.

Ottawa, November 9, 1911.

Very Reverend Sir,

As you are aware Mr. H. E. Moxon was appointed to succeed Mr. Stevens as teacher of the Fishing Lake Day School. Reports received show that the attendance since Mr. Moxon took charge has been very unsatisfactory and the Indian Agent in a recent report states that the teacher is not making any endeavour to interest the Indian parents on the grounds that he has not an opportunity owing to the demand made upon his time by his studies.

The Department is of opinion that a teacher who can give his whole time to the school work is necessary at this point if the school is to be kept in operation. I would ask you, therefore, to make inquiries with a view to obtaining such a person to take up this work at the earliest possible date in order that Mr. Moxon may be relieved.

I may add for your information that the average attendance for the month of September was only four and for the month of October only three.

Sir,-

I beg to inform the Department that I have just completed an inspection of the Fishing Lake reserve and while there I inspected the Day School.

1. I regret to say that there is absolutely no improvement in this school in the last two years. Instead it has gone back. I found a new teacher, an old bachelor about 60 years of age. School was being taught in one of the waiting rooms in the farm house and there were only five small boys in attendance. They knew little or nothing. You will notice from the returns sent in from time to time that the attendance has been very unsatisfactory. This school has now been in existence for over five years and I regret to say the results obtained do not warrant the small expenditure it has occasioned.

2. The difficulty seems to get a qualified teacher, one who can influence the parents, and if trouble if the home conditions, which are very poor, and any little good that children receive at school is soon counteracted by the home influence. The children were dirty and poorly clad.

3. At one time I was of the opinion that a new school building might help matters somewhat. Now I do not think this would make much difference. So much depends upon the teacher and the farmer, and as Mr. Field has left the service, conditions are far from promising. Practically no results have been obtained during the five years in which school has been open here, and from what I can gather there is not like to be any great improvement.

In view of all this I cannot recommend a new building and I would strongly recommend closing the school and opening up the reserve for resettlement or boarding and industrial schools, of course giving children on the reserve. If this is done the children will receive an education that will be of some value, as it is they are getting little.

Mr. Jones plans to be present tomorrow.

Very Reverend Sir,-

The Department is in receipt of a report from Mr. Inspector Graham on the Fishing Lake Day School. This report shows that conditions on this reserve so far as the school is concerned are far from satisfactory. The attendance has not been very satisfactory and it would appear that matters are not likely to improve while the school is under Mr. Clare's management .

In view of the very small attendance it is considered that it would be in the best interests of the children to close the day school and have those of school age enrolled at one or other of the various boarding and industrial schools. I should be glad to have your views on this matter.

The Secretary Department Indian Affairs,

Dear Sir/-

Last week I visited the Fishing Lake Reserve, and all being well, purpose going to Nut Lake about the first of March.

I had a meeting of the people at Fishing Lake, and they were anxious to have a school teacher sent in there, and I think there are a sufficient number of children to warrent the sending of one in, at least for a while in the summer months, and also at Nut Lake. The one I send to Nut Lake will be superior to the man that was there last year. I was quite disappointed in him. Young men could be sent in for about four or five months in the summer.

Would the Department be willing to make a grant of about Three Hundred Dollars in each case for such services? I would like to know as soon as possible, for I have the offer of two fine young men, students of Wesley College for the summer months. These supplies would give both places a fair trial.

Yours very sincerely,

Dear Mr. Ferrier -

I beg to confirm the following telegram:-

Ottawa, May 15th, 1914.

Rev. T. Ferrier,

Brandon Industrial School,

Brandon, Man.

"Engage teacher summer months Nut Lake. Writing re Fishing Lake."

(Signed) Duncan C. Scott.

You may engage a teacher for the summer months at Nut Lake and the Department will allow the same salary as it did last year, namely, $60.00 per month.

With regard to the Fishing Lake School, I have to inform you that this school was closed two years ago, as the Indians showed absolutely no interest in the school whatever, and in any event it must be remembered that the Church of England conducted this day school on this Reserve for a number of years. His Lordship Bishop Harding when in Ottawa a few days ago made reference to this school and it is the intention of the Department to communicate with His Lordship. I am of opinion that there would be little hope of success even for a summer school.

I trust that you will be able to obtain the services of a thoroughly competent man at Nut Lake in order that a day school may be given a fair trial, ~~so~~ that the question of establishing a permanent school can be taken into consideration.

Yours very truly,

Deputy Superintendent General.

My Lord -

Referring again to your recent interview with the Minister, I understand that the educational matters at Fishing Lake were under consideration. Your Lordship will recollect that this school was closed a couple of years ago, as the Indians showed absolutely no interest in the school whatever, and it was thought that the children might be recruited for the Gordon's Boarding School or Kilborn. There does not appear to have been any success in this respect and I would be glad to have Your Lordship's opinion as to the best means of meeting the situation. If deemed necessary and advisable the regulations might be put into force and the children sent to the residential schools.

I have the honour to be

Your Lordship's obedient servant,

His Lordship Bishop M.N. Harding,

Dear Mr. Graham,-

The question of supplying educational facilities for the Fishing Lake Reserve, Touchwood Agency, has again been brought up in connection with our Indian work. You know we have in former years had a teacher on this Reserve, we were perhaps unfortunate in not having the right stamp of man, but I feel now that if a suitable small building were erected by the Department, we can furnish an experienced man in Indian work who would make a success of the school. We should like very much to be given a chance and the only matter that seems to stand in the way is the need of the building.

I hope you will be able to do something for us in this matter.

Yours truly,

COMMISSIONER'S OFFICE,

MR. REGINA, SASK., June 12, 1920.

Dear Mr. Scott,-

Rev. Archdeacon Dobin has been in to see me on several occasions with reference to school work on theFishing Lake Reserve. You willrecall that several years ago, we had a day school there, but it never was a success. I think this was largely due to the fact that the church did not have the right class of man as teacher and of course indifference on the part of the Indians. The Archdeacon informs me that they can secure the services of Mr. Lowe, who was for a long time teacher of the day school in Keys Reserve and a very successful teacher he was, to take the school at Fishing Lake, should one be established.

I am not prepared to ask you to spend any large sum of money in building an up to date school but I think the Department might spent seven or eight hundred dollars on a small building, which should be situated near the farm house, which is near the Indians' farms. This building could be used as a school and if it should happen that the school was not a success, the Department could find good use for the building as a granary, a warehouse or implement shed.

I may say that the church authorities are quite sure they can make a success of the school and I would like to see them given some encouragement especially in view of the fact that we have been unable to build a new school at Gordons Reserve.

Dear Mr. Graham.

I have your letter of the 12th. instant supporting the application of Rev. Archdeacon Dobie for the reopening of the school on the Fishing Lake reserve. I have looked up the records of this school when in operation, and find them exceedingly unsatisfactory. I have no doubt that the lack of success was in part due to inefficient teachers, but I also note that from the reports received it would appear that the indifference of the parents may have been the chief contributary cause.

Were a building available I would be disposed to give my concurrence, but I hesitate under the circumstances to consent to the capital expenditure necessary to provide accommodation. With the present prices of material and labour I hardly think a suitable building could be erected for $700.00 or $800.00. Your estimate in 1910 was $1200.00 and it is well known that the cost has more than doubled since that time. In the meantime, however, you might let me have a sketch of the building that you think could be erected for the sum mentioned, with information as to how you propose to have the work done.

Yours very truly,

Deputy Superintendent General.

MEMORANDUM

Hon. Mr. Meighen -

In 1912 the day school on the Fishing Lake reserve was closed for lack of attendance, due largely to the indifference of the Indian parents. This lack of interest was no doubt owing to some extent to the inferior class of teacher nominated by the Church authorities.

On June 12th. last, Mr. Commissioner Graham recommended the erection of a small building in a more central situation and the reopening of the school, as a Mr. Lowe, who was for a long time teacher of the day school on the Keys Reserve and who there conducted what Mr. Graham states to have been one of the most successful day schools within his then inspectorate, is now available to take up the work.

In view of the fact that we have not been able to take up the erection of Gordon's boarding school, I am disposed to support Mr. Graham's recommendation. His proposition is to erect a cheap building the cost not to exceed $1,000.00, which, should the school not prove successful, might be used as a granary, warehouse or implement shed in connection with the agency buildings. Mr. Graham would buy the material and get an estimate of the cost of labour and would detail one of the inspectors to supervise the work.

With your approval I shall grant the necessary authority.

Sir,-

In connection with the re-opening of the day school on the Fishing Lake Reserve, the Department will be pleased to hear what salary you consider Rev. Mr. Lowe should be allowed.

In making your recommendation you might keep in mind that teachers in Indian day schools are paid a bonus at the rate of $150.00 a year in addition to their salary.

The Department is in receipt of a requisition for supplies for this school and it is presumed that Mr. Lowe expects to open the school after the holidays.

When possible, the exact date of the re-opening of this school should be furnished.

Sir,-

I beg to inform you that, at the request of the Church of England authorities, it has been decided to re-open the school on the Fishing Lake Reserve, Touchwood Agency, and Mr. Commissioner Graham was authorized to undertake the erection of a suitable building for carrying on the work.

Rev. Mr. Laws, a former teacher in an Indian day school in the Pelly Agency, has been nominated by the Church authorities as teacher and the Department is allowing him a salary at the rate of $750.00 per annum, together with the bonus at the rate of $150.00 per annum during the time it is continued to teachers in Indian day schools.

It is hoped when this school is open that there will be a good and regular attendance and that the parents will show more interest in the education of their children than they did when the former school was in operation.

COPY OF REPORT.

for the quarter ending Sept. 30th, 1920.

FISHING LAKE RESERVE.

I was sent here by Commissioner Graham to re-open the Day School which had been closed for some years.

The old building previously used as a school is no longer habitable, but a new one is to be erected shortly.

The last three months I have been organizing the work here, for two months, lessons were given in a large tent kindly provided by our Agent, but I have now secured an Indian house, which can be heated, until a permanent building is ready.

On this Reserve there are 23 children of school age, the majority of them can speak no English at all, but the few I have been able to induce to attend school seem very intelligent and eager to learn, with the exception of one or two.

The Indians are anxious for their children to receive an education, and I feel confident that as soon as the children begin to speak English, the interest of the Parents will be aroused, of course it will need great patience and perseverance to conduct a school here, and I fear that for some time the attendance will be small.

I hope the Indians will eventually appreciate the school by sending their children regularly.

Ottawa, November 29, 1921.

Reverend Sir:

I have the honour to draw your attention to a matter that arises out of the report of the Indian Agent at Punnichy, Sask. on the Indian Day School of the Fishing Lake reserve. I might state that Mr. Hardinge is known to me, personally, and is a fair-minded gentleman. I regret that in my last tour of inspection I was unable to visit the Fishing Lake reserve, due to its remote situation.

Permit me, Reverend Sir, to quote from our Agent's report which is to hand:

> "I visited this school on October 4th, and found a good attendance, the progress is fair. Mr. Lawes has the good will of both parents and children and the attendance is uniformly good. The only fault I have to find is that he is too familiar with the Indians. On the occasion of my visit I found his house full of Indians with the reactionary element most in evidence, sitting on his chairs and bed everywhere. This does not appear to me the best educational advantages."

The Rev. A. J. Lawes is paid the sum of $750.00 per annum, together with a bonus at the rate of $150.00, while teacher at the Fishing Lake Indian Day School. The agent of the Department of Indian Affairs criticises the teacher at this point, and it is only fair that I communicate with you, with a view to having you address a letter to the Rev. Mr. Lawes, asking him to be careful in the matter of his relations with the band at Fishing Lake. I am convinced that he is doing good work, but neither this Department nor your Church would be pleased to see him drift if a kindly word of admonition would bolster him up at this time.

I am sure, Reverend Sir, that you will not mistake the attitude of the Department in this matter and that you will accept this information in the spirit in which it is sent.

Duncan Campbell Scott.

The Reverend A. J. Lewes,
St. Mary's Indian Mission,
FISHING LAKE, Sask.

My dear Mr. Lewes:-

I have received a long letter from the Superintendent of Indian Education, in which he draws attention to a matter that arises out of the report of the Indian Agent.

The Agent, in reporting to the Superintendent of Indian Education, refers to the good attendance and the progress as being fair. He also says that you have the good will of both the parents and the children, and that the attendance is uniformly good.

He however, thinks that you are too familiar with the Indians, and calls attention to the reactionary element which was most in evidence, as on the occasion of his visit he found the house full of Indians, with them sitting on the chairs and beds everywhere, and he does not think this to be the best of educational advantages to the Indians.

The Superintendent of Indian Education writes very kindly about the matter, and is convinced that you are doing a good work, but he is anxious concerning the possibility of your drifting into too familiar ways with the Indians.

I know perfectly well how deeply interested you are in the Indians and their children, and also how highly they regard you as teacher and missionary, but I hope you will be very careful to guard against too much familiarity. You will not I am sure, wish to bring down upon yourself and your work, criticism of this nature.

Will you please write me here fully concerning this matter.

My dear Doctor Westgate:-

The Reverend A. J. Lawes is a devoted Indian Missionary, and I can only put the best of interpretations upon his treatment of the Indians.

However, I have written him the enclosed letter, and wish to thank you and the Superintendent of Indian Education for calling attention to the matter.

I hope you are feeling stronger.

With sincerest regard, believe me to be,

Very truly yours,

Sir,

I am in receipt of a letter from Mr. J. B. Hardinge, Indian Agent at Punnichy, advising me that the Rev. A. J. Lawes, the Teacher of the Fishing Lake Day School, has requested permission to close the school from the 20th. to the 26th. inst. in order to enable him to proceed to Regina for ordination. I only received the above mentioned letter this morning, and as Mr. Lawes desires to proceed to Regina on the 20th. inst., I have taken it upon myself to instruct Mr. Hardinge to advise him that he may have the leave of absence requested, which action I trust will meet with the approval of the Department.

MEMORANDUM

Mr. Scott.

With reference to your memorandum relative to the Fishing Lake Indian Day School, in which His Lordship the Bishop of Qu'Appelle is interested, I have to inform you that three years' ago a small day school was created and two years' ago we built a small teacher's residence.

I am sympathetic to His Lordship's request for a larger school and residence, but there are I believe more pressing needs of this kind, and it was not my intention to ask that provision be made for a new building for next year. Mr. Indian Commissioner Graham reports that he agrees with the Public School Inspector concerning the need for a larger school house, and he hopes that this will come in time.

All the officers who have visited the Fishing Lake Indian Day School during the present year report very favourably regarding the work that is done, and I believe that we should soon give favourable consideration to enlarging the accommodation.

Dear Mr. Graham:-

I beg to submit the following report on the schools of the Touchwood Agency:-

ST. MARY'S DAY SCHOOL, FISHING LAKE RESERVE.

I visited this school on March 5th, and found a good attendance. The roll calls for 21 pupils, 10 girls and 11 boys. The register was marked up to date, and apparently the children attend well.

The grades are as follows:-

Grade	I	-	13 pupils
"	II	-	4 "
"	III	-	4 "

Their reading was very poor, with little expression. In fact, it could scarcely be heard. However, in the other subjects the pupils appeared well along. The discipline was good, and the children were clean and tidy.

I found the school and other buildings in good repair, and I believe Mr. Lawes takes excellent care of all Government property.

121-3-1 The roll calls for 30 pupils, and I found 21 present, boys 11 and girls 10. The grades are arranged as follows;-

Grade 1 - 24
" 2 - 4
" 3 -

The children are very shy and backward. Many in grade one do not yet understand simple English sentences. Grade 2 and 3 appear to understand, but it is very difficult to get any response.

The children were fairly well clothed. I noticed however that several had very untidy hair and I doubt if it had been combed for days.

A noon meal is served prepared by Mrs. Lawes.

The buildings are in good repair and the yards tidy.

Mr. Lawes appears interested in his work and I believe tries to render good service.

WITH CHEQUES.

Sir,-

I have your letter of the 23rd instant, returning the cheques which you received for salary and bonus due as teacher of the Fishing Lake Indian Day School for the June quarter last.

In reply I beg to say that all salaries due teachers of Indian day schools are now paid on a basis of ten teaching months in the year. You taught during the months of May and June, last, the school having been closed for holidays during the month of April instead of the month of July. Payment of salary and bonus due for the June quarter was, therefore, only allowed for the two months the school was open. If you teach during the present month of July payment will be made for that month.

The cheques which you forwarded are returned herewith and you should have them cashed as soon as possible.

When your return for the quarter ending September 30th is received, full payment of salary and bonus on a monthly basis for the period you teach during that time will be made.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Ottawa, April 16th, 1926.

Sir,-

The Department is in receipt of the March quarter return of the Fishing Lake Day School. The teacher states on the return that the school was closed for twenty-five days during the quarter, owing to the absence of children and that no holidays will be given in the summer.

We are allowing the teacher salary for two months only and if the school is open during one of the months during which holidays are usually taken, salary will be allowed at that time.

DEPT. OF INDIAN AFFAIRS

Dear Sir;-

I have the honor to enclose return for September quarter from the teacher of the Day School at Fishing Lake.

It will be noticed that the teacher taught school during August and asks for permission to close it in November; he did not ask for permission to keep the school open in August but I recommend that he be allowed to substitute August for November.

I inspected this place on the 3rd inst and found 23 on the register, with six boys and seven ~~girls~~ girls present, the school ~~inspector~~ had been at the school on the 1st inst. The place is tidy, children healthy, and a lot of vegetables put away for school use. The pupils get a noon luncheon.

They had all been promoted to new classes a few days before my visit, I will see later on if they advance any in their work.

Your obedient servant,

Indian Agent.

A lazy man who will not work to get food for his family and to get a good place for them to live is sure to see his children sick.

A good house should be big enough for two families, but only one family ought to live in it.

The sun is a great friend. He cannot get in unless you put a big window in your new house. Sickness is sure to visit people who live in dark houses.

Two windows are better than one. One window should be open a little all the time. You can tack a piece of cloth over the hole to keep out the wind.

An open fireplace is a good thing. When many people stay in a house the air gets bad and the fireplace carries this bad air off.

Dear Sir:-

Re cheque No 7087 $12.00 for Fishing Lake Reheat Deadstuff. I made an error in the items of 50 lbs beans @ 8¢ - 2.00 & shoes have been $4.00

I figured it at 25 lbs, & there were also 25 lbs of the wrong size and $2.00

Would you kindly send me a cheque for the $2.00

I thank you very much, and am sorry I have made the error

Yours truly

Dear Sir;-

In reference to your letter #121-3-5 of the 4th inst regards voucher #504 in favor of Mr. W.L.Rankin, Kylemore for goods supplied to Fishing Lake school, and to copy of letter from Mr. Rankin, in which he claims he only charged $2.00 for the 50 lbs of beans, while he should have charged $4.00.

I have the original account here.

50 lbs beans	$3.50	
25 lbs peas	2.00	
25 lbs R.Oats	1.15	
25 lbs sugar	1.65	
5 lbs tea	2.50	
10 lbs lard	2.00.	total $12.80

The list of goods is as I ordered, and the price is just and fair. I cannot see why Mr. Rankin is asking for an extra $2.00, and therefore do not submit any additional voucher.

Punnichy, August 1st.

Unofficial.

Dear Mr. Phelan;-

I was with the Deputy yesterday at Fishing Lake Day School and I noticed him making a note about the lack of paint on the buildings so he may be asking you about it on his return home. The following few details will get you up to date in case he asks anything.

At the school is a dwelling, one story, in good shape, painted about ten years ago. Also a small 16 x 18 building once used as a school now a warehouse. Also the school building. The places are all lumber construction.

In 1932-33 estimates an item of 60.00 was in on page 16 for painting the school but funds were not available.

.....

The boss went with me to Gordon and Muscowequan Schools, they were in apple pie order and probably the best he has seen on his trip. Then we went to Day Star Day School and found this place ready for any sort of an inspection, dandy garden and place a treat to look at. Then to Fishing Lake where everything was also in best of shape except for need of paint. I think he went away in good houmour (some spelling).

Give my best regards to Mr. Southerland I hope he will soon be back again signing the old letters again. Not that I wish you any come down at all, I know you run the office as a good will partnership as far as employees are concerned.

Sincerely,
W. Woodd

Sir:

I have your letter of the 22nd instant, regarding the request of the teacher of the Fishing Lake Indian Day School, with reference to the renovating of the inside of the school building.

In reply I have to say the Department will approve of an expenditure of $25.00 for material and labour for the purpose of renovating the interior of this building. I would request that you arrange for the purchase of any materials required and also for the labour in having the work carried out. The above mentioned amount should not be exceeded. After the work has been completed to your satisfaction, you should forward accounts, in triplicate, properly certified, covering the expenditure incurred. It is considered that this work should be performed during the coming summer holidays.

Your obedient servant,

A. F. Mackenzie,
Secretary.

Dear Sir;-

In reference to letter 121-2-5 of April 15th authorising expenditure of $12.60 for repairs at Day Star Day School, I beg to advise the Department that through a slip on my part I gave the wrong school in my first letter, I need the repairs at Fishing Lake Day School and would be obliged if the Department will let me transfer the appropriation to that point, it is for the teachers house there.

The teacher at Fishing Lake Day School asks for repairs to the school proper as follows,
Lock set
Two window screens, and the following equipment,
Two garden hoes,
One pot for cooking cocoa.

The total of this lot would be about $7.00 which would be in addition to the $12.60 noted above.

Dear Sir,

I am writing to ask you if a more adaquate sum could be granted to feed the twenty-six school children on Fishing Lake Reserve. At present I receive $25.00 for that purpose, and every year I have to buy food out of my own pocket to have sufficient for them. We give them an excellent dinner each day in winter, which is really the only decent meal they get. As we have no basement at the school, the food is prepared in our own kitchen by Mrs Lawes assisted by two school girls. We think that if the children are properly fed, it will help them to keep well, and to combat T.B. Good food is far more necessary to them than medicine, which is frequently wasted. We have been here over seventeen years, and not a single request for food has ever been refused at the Mission for the sick and aged, as every Indian on the Reserve can testify. If any food is left over after the school children have had sufficient it is sent home for the sick aged, and young children, and is appreciated by them, as often the food

Dear Sir;-

I beg to submit attached letter from Mr. Lawes re allowance for midday meals.

There is no need of my stressing the importance, I might say vital necessity, of a good midday meal for our day school children during the full school term.

The allowance of $25.00 for 26 children is totally inadequate and simply means that the children are not receiving enough food to be of any benefit or the teacher is paying for it.

I would recommend that an allowance of $8.50 per month for the full 10 months be authorized for midday meals in this school.

The Department is in receipt of your letter of October 21st enclosing letter received by you from the teacher of the Fishing Lake Day School. It has been decided to allow an amount of $60.00 towards the purchase of the articles required to serve a mid-day meal at this school during the current academic year.

If land is available, the teacher should be encouraged to have a school garden next year and the vegetables grown could be used the following winter for meal purposes.

Dear Sir;-

I am in receipt of a letter from Mr. J. W. Waddy, Touchwood Agency, in which he states that the day school buildings at Fishing Lake are in need of some repairs, that nothing has been spent on them for quite a while and the teacher has been asking if we will try and assist this year.

50 The sitting room is very small and he would like the wall moved in 3 feet and take this space off the kitchen. This would require some plastering work afterwards and the cost, including lavor and material, would be about $50.00. The lean-to back kitchen is a flat roof and this could be corrected by fixing the foundation and cutting down rafters. 35 The place leaks as the pitch is not sufficient to let the rain run off. This would cost approximately $35.00.

35 The plat form in the school should be rebuilt and the verandah roof repaired, the total cost of which would be approximately $35.00.

$120 Pur. $100 in Estimates

Mr. Waddy states the carpenter who does the work in this district is Mr. J.R.F.Best of Wadena.

There is an amount of $100.00 for painting the dwelling and the warehouse of the Fishing Lake Day School in the 1938-39 estimates. I would recommend that this amount be used for the purpose named above in place of painting.

121-3-5

Ottawa,
April 5, 1938.

Dear Sir:

I am in receipt of your letter of the 30th ultimo with reference to repairs that are required at the Fishing Lake Indian Day School.

The total expenditure requested in your letter is $120.00 but in preparing our appropriation for the current fiscal year it was only found possible to provide an amount of $100.00 for repairs at this school.

If the cost of the material that is required for the repairs exceeds $50.00 it will be necessary for you to forward me full details of the articles necessary in order that purchase may be made by our Purchasing Branch.

If, however, the cost of materials does not exceed $50.00 you may arrange for their purchase.

As mentioned above the total cost of materials and labour must not exceed $100.00.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

INDIAN AGENT

Punnichy, Sask.
April 2 1938.

Dear Sir;-

I beg to advise the Department that the teacher of the Fishing Lake Day School has asked for the following food to be provided for school luncheons during this fiscal year.

Beef	24.00
Bread	30.00
Butter	24.00
Sugar	3.50
Cocoa	2.00
Canned milk	4.80
Rice	4.00
Eggs	5.70
Soap	2.00 for washing etc.
	100.00

This teacher looks after the pupils very well, and if possible I think he should be provided with the above.

Your obedient servant,

Indian Agent.

Ottawa,
April 6, 1938.

Dear Sir:

With reference to your letter of the 2nd instant you may purchase soap at a cost of $2.00 for use at the Fishing Lake Day School.

In official letter of October 29, 1937 you were authorized to expend an amount of $60.00 in the purchase of articles for midday meal purposes at this school for the academic year 1937-38. As that academic year is not finished until June 30, 1938, there is no necessity for giving further authority at the present time.

About the first of September you should apply to the Department for authority to purchase midday meal supplies for the academic year 1938-39.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Sir:

With reference to your letter of the 19th instant, the Department has already ordered 550 lbs. biscuits for the Fishing Lake School, and 450 lbs. biscuits for the Day Star Indian Day School.

The Department wishes to be as generous as possible regarding the mid-day meals, but at the same time, our funds are limited, and under these circumstances we cannot allow as large an amount as requested by the teachers of these two schools. Last year we allowed $60 at Fishing Lake, and the same amount will be available this year.

At Day Star School we only allowed $40.00, last year, and the same amount can be expended this year.

Yours very truly,

Punnichy, Sask.
Sept 7 1938.

Dear Sir;- I beg to refer to your letter 121-3-5 of July 23rd last stating you had ordered 550 lbs biscuits for Fishing Lake School and 450 lbs same for Day Star Indian Day School, these should have been shipped as follows.
Fishing Lake to Kylemore, Sask.
Day Star to Punnichy, Sask.

On August 31st the Independent Biscuit Co. Ltd. Calgary, Alta., shipped to Kylemore Sask 1450 lbs of these school biscuits, I have their account here for them to amount of 155.15. The account will be held pending your instructions. It is probable that the Purchasing Agent ordered the biscuits though I have no instructions from him re the shipment.

I have had delivered to Fishing Lake School 750 lbs of these biscuits.

The balance of 700 lbs in 28 cases I shipped here from Kylemore on C.N.Ry for Day Star School and I have issued requisition for freight collect here to sum of 4.97, the requisition being #F.316 payable to C.N.Ry.

I can use the total amount of the shipment though the amount received is different than your advice in letter of July 23rd last.

Please advise if I can clear the voucher for total sum of $155.15. If your shipping instructions to the biscuit people show some to be shipped to Punnichy I should deduct the amount of freight I paid out.

Your obedient servant,

Indian Agent.

Dear Sir:

I am in receipt of your letter of the 7th instant with reference to the biscuits for the Fishing Lake and Day Star Indian Day Schools. I regret that a larger quantity of biscuits than was originally intended was ordered. I note that you have sent 750 lbs. to Fishing Lake School and 700 lbs. to Day Star School. It is hoped that none of these will be wasted.

You may forward a voucher for $155.15 covering the cost of the biscuits that have been supplied.

June 5 1939.

Dear Sir;-

I have the honor to report that the teacher at the Fishing Lake Day School has asked if the Department will consider putting a window in the wall of one of the rooms in his dwelling, the cost would be $8.10 for material and $10.00 for labor.

If any funds are available I would beg to recommend that this be allowed.

Dear Sir:

I desire to acknowledge receipt of your letter of the 5th instant and to state that you are authorized to make arrangements for the construction of an additional window in the teacher's residence at the Fishing Lake Indian day school. It is noted that the cost of this window will not exceed $18.00. It is scarcely necessary to add that if at all possible Indian labour should be employed.

Yours truly,

Mr. [illegible],
[illegible].

Dear Mr. [illegible]:

[illegible]

[illegible] to paint the roofs on the [illegible] buildings on the Reserve. Going by this fact we fully believe that it will take approximately 12 gallons of paint for the walls and trimmings. Of course if it would take less it would cost less. That is priced at $4.20 a gallon.

It will take approximately 25 gallons of roof paint to do the two roofs and approximately $50.00 for labor. The roof paint is $2.50 a gallon.

Now if you desire to [illegible] have a painter that would do the work and we would be pleased to supply the material for the same.

Thanking you in advance,

Yours truly,

H. Fransen.

Dear Sir,

If the cottage and storeroom are finished, would you mind if the doors and trimmings were done in leather brown, which is a much more serviceable color than white. I would also suggest for the walls, Barns of roses a color a few shades deeper than is on the school which will not fade out so quickly.

The school doors etc (painted light) are appalling dirty, and I intend with your permission to paint them leather brown if the finishings on the cottage and storeroom are done in that shade.

I am,

Yours faithfully.

Dear Sir:

I beg to attach a requisition for Touchwood Agency for painting the teacher's residence and shed at Fishing Lake. Mr. Waddy states that these buildings have not been painted for ten years.

Mr. Waddy states that the only firm on his list in McKenzie is the Newman and Franklin firm of Wadena. He, also, states that an Indian could be employed in this job.

This requisition is for the balance of the job not completed in 1938. If the funds are available, I would recommend that this work be done and Indian labor employed, and that Mr. Waddy be sent an accountable cheque to cover the labor.

Yours truly,

Dear Sir:

With reference to your letter of the 3rd instant the Department will allow an amount of $40.00 for the purchase of materials required for serving a midday lunch at the Day Star Indian Day School. As our funds this year have been drastically reduced this is the total amount that can be allowed for this purpose during the academic year 1940-41. The amount should be sufficient to supply midday lunch for the winter months only.

What has been said above regarding Day Star applies also to Fishing Lake at which school an amount of $40.00 will also be allowed for the purchase of midday meal supplies during the academic year 1940-41.

Yours truly,

H.A. Hoey,

Dear Sir:

The Department finds it necessary to return the attached voucher issued in favour of Mr. Lawes, teacher of the Fishing Lake School, due to the fact that he is the teacher of the school and consequently does not carry a supply of flag poles, cement and twist. Before payment of the account can be made to Mr. Lawes it will be necessary to attach receipts from the person from whom these articles were secured.

Dear Sir,-

I have the honor to enclose resolution from the Fishing Lake Band to spend up to $50.00 of their trust funds from account 271 to purchase teaf for the pupils of the Fishing Lake Day School this winter. There is an appropriation made to this school for school luncheons from v tel Dominion Govt funds but the Indians think their children would get more food and they wish to pay for it.

If this is approved the leaf can be obtained locally as required.

Dear Sir:

I wish to bring to your attention that the Venerable Archdeacon J. K. Irwin of the Diocese of Qu'Appelle was in the office and had quite a long conference with me in connection with the Indian work.

The Archdeacon and two of the laymen that are on the Committee visited the different points in the Diocese where our Indian schools are located and there are a lot of things that this Committee is not satisfied with. I shall take them up with you just as soon as I have the time, but the only matter that is real urgent is the kalsomining and doing a little painting at the Fishing Lake Day school. The Archdeacon informs me that this has not been touched for 8 years and is very dark and dingy. This should be kalsomined before the school opens on the 1st of October. I presume we will have to get some one at Wadena to do the work and we will also be able to buy the kalsomine and what little paint is required.

He also pointed out that the fence around the School and premises would have to be renewed because the posts were all rotten and that it would take 160 tamarack posts to do this. There is however no hurry in doing this. I expect to visit this school when there is a change of Agents at the end of the month and the fence could be left in abeyance.

I hope, however, that you will give me authority to get some one to do the kalsomining at the school and authority to purchase the kalsomine immediately. As I stated before, the other matters will be taken up as soon as we get through with the Estimates.

Yours truly,

M. Christianson,
General Superintendent of Indian Agencies.

Dear Sir:

Some time ago I advised you that the Indian Committee of the Diocese of Qu'Appelle, Anglican Church, interviewed me in connection with certain matters pertaining to the Indian work. The only thing that was urgent at that time was the kalsomining of the interior of the school at Fishing Lake. This I took up with you, authority has been received and the Farming Instructor at Fishing Lake has this in hand. Also the posts around the school being rotten, this will be looked after by myself when I am there on the first of the month.

The next item to be dealt with is the school curriculum. They were of the opinion that more manual training should be taught at these institutions. I quite agree with them and informed them that as far as I knew Mr. Doucet had this matter in hand.

The Water supply at the Gordon school: They claimed this had never been satisfactory and they want us to send an engineer to make a thorough examination of this immediately. Since then I have been talking to Mr. Frayling, the Principal, and when I am up at Touchwood next, which will be the end of the month, I think that I can get all the information that is necessary and shall advise the Department.

The mid-day meal: This affects Fishing Lake, Day Star and Key Reserves. At the present time the policy of our Branch is to give the teacher from $40.00 to $60.00 a year to provide a mid-day meal for the children. The Indian Committee, after visiting these schools, claim this is inadequate and that instead of allowing the amounts mentioned they should allow the teacher $100.00. They were quite emphatic in this connection and gave me instances at these schools where the teacher's wife had told them that she had to provide food out of her own larder; in other words, to take food from her family to give to the Indian children when they were hungry. In this matter I agree

with them 100%. It is astonishing how our Branch has always been very liberal with the boarding schools but God help the Day schools. I know that I shall receive a letter advising me that there are no funds, as usual, to increase the mid-day meal, but it is more or less of a joke to ask a teacher to supply a mid-day meal for 20 to 25 children out of $40.00 a year.

Will you give this matter consideration? Because if you do not take any steps to increase this I am going to see the Fishing Lake Band if they will not vote enough money to give the children a fair mid-day meal the next time I am there.

Awaiting your reply, I remain,

Yours truly,

Dear Sir:

Re: Proposals submitted by representatives of the Diocese of Qu'Appelle Anglican Church

This will acknowledge receipt of your letter of September 21, in which you submit for Departmental consideration a number of proposals submitted by the Anglican Indian Committee of the Diocese of Qu'Appelle.

School Curriculum -- Indian day and residential school teachers were instructed, in a circular letter dated January 15, 1937, that at least one third of the regular instruction period should be devoted to vocational courses of study. The response to these instructions has been, on the whole, somewhat encouraging. An officer of the Department is devoting the whole of his time to the organization of these courses. A number of worth-while courses have been prepared at considerable expense and are now available for distribution to our schools. In this connection there is an old saying that it is comparatively easy to provide a horse with water, but it is somewhat difficult to compel him to drink. This saying applies to a limited number of our schools, particularly our day schools, insofar as the promotion or organization of vocational instruction is concerned.

Water Supply at Gordon's School -- It is noted that you have discussed this matter with the Principal of the school and that it is your intention to visit the school and secure additional information in the immediate future.

The Midday Meal -- You will be interested to learn that a great deal of consideration has been given during the last year to the best ways and means of providing the Indian population of the Dominion with a well-balanced diet. A nutritional survey has been made in northern Manitoba and several conferences have been held with a number of nutritional experts. Dr. Kruse, who is at this time nutritional adviser to the United States Armed Forces, visited this Department last week with the object of discussing with the Acting Superintendent of Medical Services the results of certain experiments that have been undertaken amongst groups of under-nourished people in a number of states of the Union. The programme the Department has in mind cannot be adopted overnight, but will, we are convinced, prove of great advantage to our Indians in the course of time. In the meantime certain initial steps have been taken. This year we purchased fifteen tons of a special biscuit prepared under the direction of the Dominion Cerealist. These biscuits have been distributed to schools in the northern sections of the Dominion. The distribution, however, has been confined to areas where vegetables have not been produced in

quantity until now. I am enclosing the formula of this biscuit for your information. It is just possible that a much wider distribution of this biscuit will be made next year. A great deal will depend upon the funds available. The cost of this biscuit is more than double the cost of biscuits purchased at any time in the past by this Department.

A number of Indian agents have, in co-operation with a great many of our day school teachers, succeeded in organizing worth-while gardens and placed the vegetables from these gardens at the disposal of the teachers for midday meals. In addition to this, a large number of root houses have been constructed during the summer months. It has been estimated by the officials that more root houses have been constructed during the present season than have been constructed at any time in the history of the Department. A great many of these root houses are designed to meet the needs of all the Indians in the band and are proving very helpful in that they ensure a constant supply of vegetables, not only for the adult Indians but for the Indians in attendance at day schools, throughout the winter months. Goat herds have also been established at a large number of our reserves. Doctors with whom this matter has been discussed are of the opinion that it is almost impossible to provide a well-balanced diet for Indians, lacking as they do an adequate milk supply. Our experience in the establishment of goat herds has been, on the whole, encouraging and satisfactory. In this connection the Department communicated with Indian Agent Davis a few weeks ago in respect to the multiplication of a number of goat herds in his agency. The receipt of this letter has not been acknowledged.

In the case of the Indian day schools referred to in the second-last paragraph of your communication, may I suggest that the teachers concerned submit to you through the agent or to the Department a list of the supplies which, in their judgment, are necessary to provide a fairly nutritious meal during the academic year. If the cost of these supplies exceeds $50.00, they will be submitted to the Purchasing Division in due course with a recommendation that the supplies requested be purchased, or that authority be granted to the agents or teachers to make such purchases. The utmost care, however, should be exercised if the purchase of tea or sugar is recommended. These purchases must be in strict conformity with existing regulations. These supplies, however, should be looked upon by the teachers and agents as a temporary expedient. All our field officials should look forward to a time when the supply of vegetables and an adequate supply of milk will enable the Indians, including Indian pupils, to enjoy a diet sufficiently well balanced to encourage physical development and maintain health.

Regina, September 10, 1943.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I wish to bring to your attention that during the early part of the Summer I visited the Fishing Lake Indian Day School in the Touchwood Agency, and the matter of mid-day meals for the children was discussed.

Last year you allowed us $75.00 for the Fishing Lake School and I would ask the same consideration for this year. I would also ask that Agent Davis be advised accordingly.

Mr. R.S. Davis, Indian Agent, Punnichy, Sask.

With reference to your letter of the 2nd instant, the Department will allow an amount of $75 for the purchase of materials for the midday meal at the Fishing Lake-Day School during the current academic year. The same amount will be allowed at the Day Star School. This is the same expenditure as was allowed in previous years and, as we are also supplying biscuits to each of these schools, it is felt that the amount mentioned above should be sufficient.

QUARTERLY REPORT ENDING JUNE 30th, 1945, ON TOUCHWOOD AGENCY

FISHING LAKE SCHOOL

The teacher, Mr. Lawes, has had a very poor attendance this last quarter as the parents go off the reserve and take their children with them. This will be remedied next year as the Family Allowances will compel them to stay at home.
Mr. Lawes keeps a very neat place and is a good example to the Indians.
Some repairs will have to be done to the school.

Regina, July 25th, 1945.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith requisition for materials and labour for repairing the interior of the day school at the Fishing Lake Reserve, also for the purchase of an oil stove at a cost of approximately $100.00, for the same school.

The present stove in use at the school is an old box stove and it is of no further use. Wood is expensive and hard to secure, consequently an oil stove would be more useful and more efficient.

When funds are available in a year or two a full sized basement should be completed under this school and a furnace installed. This would make the room much more comfortable and allow a considerably larger floor space for more desks which will be needed with the improved attendance expected with the Family Allowances.

J.P.B. Ostrander,
Inspector of Indian Agencies.

Ottawa, July 31st, 1945.

Mr. R.S. Davis, Indian Agent, Punnichy, Sask.,

Inspector J.P.E. Ostrander has forwarded to this office your requisition of July 17th for material to repair the Fishing Lake School. The purchase of an oil stove is also recommended by the Inspector.

As you are aware a purchase over $50.00 has to be made through our Purchasing Branch and I would therefore, appreciate it if you would let me know from whom you secured the prices for the plaster board, lumber, shavings and nails.

The cost of the oil stove is estimated at $100.00. You should let me have complete information regarding the type of stove required and if possible you should state the catalogue number in order to assist our Purchasing Branch.

With reference to your letter No. 121-3-5 dated July 31, 1945 regarding material for repairs to Fishing Lake Day School, I would advise that I obtained the prices for plaster board, lumber, shavings and nails from the North American Lumber and Supply Co. Ltd., Punnichy, and estimated the cost of labor myself.

Mr. J.E.Hicks of Wadena gave me a price of $97.75 on a number 575 Duo-Thern Heater, capacity 2300.

He also has a good two burner Enterprize Heater#40, which he used in his house last winter. This is in good condition. The original cost was $130.00 but he is willing to sell for $100.00. This has a greater heating capacity than the Duo-Thern, and I think would be a better buy.

Will you please advise me by return airmail if authority is given for this work, as it should be completed before the school re-opens this fall, and workmen are hard to get.

R.S.Davis,
Indian Agent.

Memorandum

Re oil stove or heater for Fishing Lake
Indian Day School - I.A.B. file 121-3-5
P.O. 5101

Mr. J.E. Hicks, Wadena, Sask., recently returned P.O. 5101 with their advice that the used #40 two-burner Enterprise heater had been sold. He quoted prices on a Duo-Therm heater, but could give no definite promise of delivery, as this type of heater is in short supply at present.

Likewise we were unable to secure quotations or promise of delivery on Duo Therm or similar oil heaters from our usual Western sources of supply.

Under the circumstances, I would suggest that Mr. Ostrander or the Indian Agent be authorized to make the best possible arrangements for local purchase of suitable heating equipment for above school.

FIGHTING LAKE SCHOOL

Nothing has been done to this school owing to the failure of the teacher getting his requisition for material etc, in to us. I believe a change of schools would be a wonderful help to Mr. Laws as I think it a big mistake to leave these men too long in one place, where a man gets more or less rusty or bushed. While he may have done good work in the past, I would like to see something moving in the future.

PLEASE QUOTE
FILE 89-11 A

PUNNICHY, Sask,
July 15, 1947.

Indian Affairs Branch, Dept, Mines & Resources, Ottawa, Ont.

I enclose herewith requisition in triplicate for material for a coal shed and for material for r e-decorating the Fishing Lake Indian Day School.

There is no coal shed at this place and one is required before the coal ordered for the school is delivered.

The lumber can be supplied from our stock at Nut Lake at the rate of about $42.00 per thousand.

I would be glad if authority is granted for these expenditures.

Ottawa, February 25, 1948.

Reverend Sir:

Inspector's Reports -
Key, Fishing Lake and Day Star
Indian Day Schools.

I have for answer your letter of February 19th and as requested am attaching hereto a copy of the last Inspector's report upon the Reverend Mr. Lawes' work at the Fishing Lake Indian Day School.

The last Inspector's report upon Mr. Hick at the Day Star Indian Day School is also attached. You will note that it is dated June 29, 1946. We have, therefore, asked the Provincial Department of Education to make certain that this school is inspected again this year.

The last report upon the Key Indian Day School is dated November 2, 1945 and was submitted upon Mr. Walter Browne. We have also asked the Provincial Department of Education to submit an Inspector's report upon Dr. Mansbridge who is now teaching there.

With regard to the question which you have raised concerning janitor work at the schools, I would suggest that this be taken up through the Indian Agent's office so that they can make a definite recommendation in each case. I will expect to hear further from you concerning these matters.

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education.

Dear Sirs:-

In your letter of June 18th, 1947 you advised me that you had not received a Provincial School Inspector's Report upon the work of Dr. Mansbridge at Key Indian Day School, but that you would forward a copy of such report when it became available. To date we have not received any Inspector's Report and I am wondering if this is because no inspection has been made. We are anxious to also have copies of the Provincial School Inspector's Report upon the work of the Rev. A.J. Lawes of Fishing Lake Reserve and Mr. Robert Hick of Day Star Reserve as well as a report from your Department on the work of these gentlemen.

We would like to know if it is possible for the Department of Indian Affairs to remunerate our Day School Teachers for the janitor work they have to do at their schools, also for providing the mid-day meals for the children. I may say that in the white schools of our Province any teacher who is required to do janitor work receives an allowance for doing so, and it is felt that this should also apply to the teachers in Indian Day Schools.

I will be pleased to hear from you regarding these matters, especially the first mentioned as if it is considered necessary that we should replace any of our teachers, it is advisable to soon advertise for others.

Thanking you in anticipation.

Yours truly,

F. E. R. Badham

EXTRACT FROM LETTER FROM REV. F.E.R. BADHAM,
Secretary of Synod and Registrat, Synod House,
Regina, Sask., dated June 24, 1948.

Original on 121-1-1

At FISHING LAKE we met the Reverend and Mrs. Lawes, who have agreed to continue their work for another year. I wish you could see the condition of the property and grounds. Everywhere is so neat and tidy and attractive. Here again we heard of the inadequacy of the amount allowed these good people by the Indian Department for the purpose of providing the children with a noon day meal.

He made a comment concerning janitor supplies at the Day Star School. He stated that Mr. Mick was expected to provide kresmo and soap for cleaning purposes out of the amount granted monthly for lunch purposes. It is presumed that we will be hearing from you in this regard.

J.P.B. Ostrander, Esq., Regional Supervisor of Indian Agencies, Regina, Sask.

Re your letter #1346-300-11A July 12, 1948
[illegible]

On sheet #3 Schools, Estimates 1948-49, will be found items for extention to school, digging basement, labour cement work, painting of school and residence, totalling $2600.00. Attached hereto is form 37 listing materials and labour to build a 6' X 22' extention to the present building, enlargge the school room by removing the cloak room partitions, insulating the building, digging basement, construction of a cement basement, removing and rebuilding chimney, and moving the building onto the new basement.

Mr R.L. Brooks of Wadena has offered to supply all labour in this connection including shavings for insulation at a cost of $2020.00, it being understood that if the walls of the building have not been constructed with headers the cost of insulation will be $90.00 less than the price quoted on Form 37, namely $220.00.

Mr Ed Ward of Wadena offered to do this work less the moving of the building on to the new site for the sum of $2700.00. An offer was also made by Mr. F.A. Hokansson, Wadena, to move the building from the present site onto the basement for the sum of $300.00.

The offer submitted by R.L. Brooks is reasonable and I would recommend that favourable consideration be given to this offer.

Also attached hereto is Form #37 listing the materials and labour required for exterior and interior decorating of the school house, teacher's residence, storehouse, and outside toilets. The labour includes two coats of outside painting, tightening all nails, and minor repair work, also two coats of paint to the interior of the teacherage and school amounting to $709.30. Mr. Gordon W. Russel, Wadena has offered to do this work for the sum of $300.00, spray and brush to be used. Messrs. Fred H. and Ben Olson have offered to do it for the sum of $325.00, all work to be done by brush. It is not considered advisable to do a paint jon on the school house until it has been enlarged and moved onto the basement. Due to the moving of the building it might result in damage to the plastered ceiling and inside walls and could result in making an unnecessary expenditure.

I would recommend that the school be moved this year if at all possible even though it may result in having the class rooms closed for the month of September. It is estimated that about seven weeks will be required to move the school and put it in shape for use.

In the event this work is done a furnace will be required which will mean an added expenditure of approximately $370.00

I recommend that consideration be given to have the painting done by brush. I understand that brush work is proving more satisfactory than spray work.

Reg'n July 24th, 1948.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith copy of a letter from Superintendent S.H. Simpson, of the Touchwood Agency, and Requisition Form 37 for digging a new basement, concrete work on the same, moving the present classroom building on to the basement, enlarging the same, and insulation of the whole, also construction of a new chimney for theFishing Lake Indian Day School, at a total cost of $3,103.59, the work to be performed, and the material supplied, by Mr. R.L. Brooks, of Wadena, Saskatchewan.

It will be noted that a furnace will also be necessary. Mr. Simpson has not enclosed a requisition for the furnace, but has given the cost thereof as $370.00. I am asking him to forward the requisition direct to the Department for the furnace. This will make a total cost of $3,473.59 without painting. On reference to the Touchwood Agency Estimates for the current fiscal year it will be noted that there is a total of $2,975.00 in the Estimates, as originally submitted, for this work, including painting inside and out of the school and residence. The moving and reconstruction necessary for the Fishing Lake Day School is much more important at the present time than the painting, and I would recommend that Mr. Simpson be instructed to proceed at once with the work outlined to be performed by Mr. R.L. Brooks, of Wadena, in order to have the school ready for occupation as near as possible to the 1st of September.

I would also recommend that he be given authority to make immediate purchase of the furnace as soon as that requisition is forwarded to Ottawa by him.

It has been so difficult to get any work of this kind performed that I am anxious that we do not miss the opportunity to get this particular job done this year. If funds are available for painting in addition to the construction work in connection with this building, further requisitions will be submitted.

I am in receipt of a letter dated July 24 from Mr. J.P.B. Ostrander, Regional Supervisor of Indian Agencies for Saskatchewan, in which he stated he was advising the Department that I would be submitting direct a requisition for a furnace to be installed in the Fishing Lake Day School after it had been enlarged and placed over a cement basement.

Attached hereto is Form 37 listing the furnace, air registers and materials required, also cost of labour and extras that might be needed which have been submitted by Messrs. Miller and McKinnon, Wadena, Sask.

I also contacted Mr Martin of the Wyngard Heating and Electric Firm, Wyngard to tender on this work. He advised that he did not care to do so as he considered his form have contracted to do as much of this type of work as they can handle this year.

DEPUTY MINISTER

Re: Fishing Lake Indian Day School, Touchwood Indian Agency, Province of Saskatchewan, Electoral District of Mackenzie.

Regional Supervisor Ostrander and Superintendent S.H. Simpson have forwarded a requisition for digging a new basement and concrete work on same at the Fishing Lake Day School, move the present class room onto the basement, insulate the whole building and provide a new chimney. Mr. Ostrander has obtained a quotation of $3,103.59 for supplying materials required and doing the necessary labour, from Mr. R.K. Brooks, Wadena, Sask.

Mr. Ostrander comments as follows:

> "It has been so difficult to get any work of this kind performed that I am anxious that we do not miss the opportunity of getting this particular job done this year."

I would appreciate it if the Minister would approve acceptance of the offer of R.K. Brooks of Wadena, Sask., for materials and labour for the work outlined above, at a cost of $3,103.59. Funds for the purpose are available in the current year's appropriation.

Re Department letter 121-3-5 (E) dated August 24, 1948
Fishing Lake Indian Day School

I have now been in contact with Mr. R.L. Brooks, Wadena, Sask. He will be moving his excavation equipment to the school site to-day and will commence digging the new basement on Monday, September 6th.

Mr. Brooks has requested that while engaged in the work he has contracted to do in this connection that he be provided with $1000.00 to pay his men engaged in this work. An advance cheque for this amount is requested from which to make payment on account by Agency cheque to Mr. Brooks as the work progresses.

Authority is also requested to purchase cement, lumber, hardware etc. as listed on Form 37 attached to my letter dated July 22 from the North West Lumber and Supply Co., Wadena, Sask. who have agreed to supply the materials mentioned at the prices listed on the Form 37 just referred to.

Re: Repairs to, and constructing cement basement, Fishing Lake Indian Day School.Department file 121-3-5(E1)

While at Fishing Lake Reserve on October 6th. Mr. R.L. Brooks, contractor, asked if it was possible to receive final payment direct from this office on completing his contract.As soon as the work is done he is leaving with his building equipment for British Columbia,and requires funds for this purpose.

He has completed th cement basement walls, and moved the school into position thereon, has also removed the partitions to enlarge the class room. He expects to have work completed by Oct. 3oth.

An advance of $1000.00 has already been received by this office, of which $700.00 has been expended.

A further advance of $1020.00 is requested to complete this work, including insulating the building.

Re:Repairing and enlarging Fishing Lake Indian Day School.

When authority was received to proceed with this work I contacted the Manager of the North American Lumber & Supply Co. at Wadena, who informed me that he had the materials required, on hand. On receipt of this information I instructed Mr. Brooks, Contractor, to proceed with the work. On September 17th. Mr. Brooks sent word that the Company had no cement and he and his work crew were delayed on that account. As there was cement on hand here and some from the construction of the school at Poorman Reserve I had it trucked to Fishing Lake.

In the meantime I had advised the Company at Wadena that the 250 sax of cement listed on Purchase Order 34234 Sept 22nd. would not be required for this project. It had not yet arrived when I was in Wadena on October 7th.

Attached hereto is Voucher No.972--$63.00 cost of the trucking.

January 3, 1949.

Mr. S. H. Simpson,
Superintendent, Indian Agency,
Punnichy, Saskatchewan.

With reference to your 791-89-11(121) of December 10, 1948, please forward immediately your voucher No. 972 for trucking in connection with the repairs at the Fishing Lake School.

The total of the accounts listed in your letter exceeds the amount of purchase order 3423¼ and consequently we have had to obtain new purchase orders. Therefore, we wish all accounts so that we can submit the whole thing to the Purchasing Agent. Your prompt attention to forwarding voucher 972 would be appreciated.

It is presumed from the contents of your letter that there will be no further expenditure in connection with the repairs at the Fishing Lake School.

Bernard F. Neary,
Superintendent of Education.

Re: Voucher 1212

This Voucher has to be charged against Purchase Order 34234.

However, we are advised by the Superintendent that the cement which was included on this Purchase Order for an amount of $312.50, and also some other articles, were not supplied. Consequently, the only charge against Purchase Order 34234 is Voucher 1212 and the balance of $319.76 should be released.

Fishing Lake Indian Day School
Ref. Your [illegible] of June 1

Mr. Gray visited this office yesterday and discussed at some length his teaching duties at the Fishing Lake School.

He will be attending summer school in Toronto [illegible] will, I think, be a very satisfactory teacher. We assisted him in the completion of a long requisition so that he would be able to begin the September term with as few delays as possible.

Mr. Gray is very interested in the teaching of handicrafts, and we are prepared to authorize an expenditure of $25.00 for the purchase of such items as he will require.

I am sending this letter to you in duplicate so that a copy can be sent to the Indian Superintendent at Punnichy.

I am enclosing herewith requisitions submitted by Mr. Nixon for a stock pump complete and the necessary piping for the well at Fishing Lake Day School.

The water has been taken out of the well with a pail and rope, but this is not a very satisfactory way to handle drinking water apart from the danger of having a well stay opened at the top.

I would recommend that this pump be purchased and installed in the well before school opens for the fall term.

Fishing Lake Indian Day School

Replying to Department letter 606-5 (E.1) of August 3, 1949.

Several requisitions were sent from this office at the same time requesting paint for various buildings at Fishing Lake Indian Day School. The material for each building was put on a separate requisition and a separate covering letter written with each requisition, but they should all be considered as one unit as these buildings are all on the same yard at Fishing Lake Indian Day School. There is no point whatever in painting the store-house unless the other buildings are painted too.

I am taking no action regards purchase of paint for the store-house at Fishing Lake Indian Day School, until I hear further from you on the matter.

August 4, 1913.

The Secretary

Dept. of Indian Affairs.

443013

Dear Sir,-

I address this letter to you as instructed, and I ask your assistance and advice towards obtaining my request. It is a matter of such importance that I would ask you to bring it before the Minister of Indian Affairs at the earliest possible opportunity, and also to see that the matter is not dropped after it has been opened up.

My work and the work of my missionaries among our Indians gives us opportunity of learning their state, their needs, their desires, in a way that you will rarely learn from your Indian agents and Instructors. I beg therefore, to press upon your Department the pressing need of day schools as follows: (among others perhaps not mentioned) I am sure the Indian Department knows of the non-existence of such schools and of the desire of the Indians to have them, and perhaps the I.D. has been considering the matter. But I would press for the building and maintaining of these schools almost immediately.

(1) The Indians are retrograding and suffering for the lack (2) It does not seem in accordance with "Treaty" to leave them without (3) They desire and ask for them. I cannot be sure of correct names, but I think what I write is sufficient to point them out correctly.

1,- Frog Lake, Nos. 121 and 122, but especially Oonoepowhao (121) We have worked here for years but there has been no school. They sent a few children to Onion Lake boarding school. They will no longer do so as they want the day school system. I have sent a Cree teacher there, Ch. Quinaly, an intelligent, educated man (half breed I think)

to open school as best he can in his own house, or in the Indian houses. I have to build a house for him. This is not fair to the Church funds which are not meant for schools. I beg to apply (1) for his salary, (2) for purchase of the residence for him,(3) for a school to be built ~~for him~~ (4) for an improved day school to be maintained.

N.B., I would recommend the closing of Onion Lake School. as Boarding school and opening it as improved day school.

2.- Island Lake Band, Nos. 161 and 161A.

We visit them and hold service there. They belong to our church more than to any other. They come in at times to Onion Lake Church. They should have a school and we are prepared to undertake it on the usual terms.

3,- Thunderchild Band, South from Bright Sand Lake

It is really a shame that the I.D. has (I believe) given them no school or teacher since they were moved to this location. My Missionary visits them, but only too rarely, since they were moved so far away from his other bands. They should have a good improved day school. The Church of England should be intrusted with its management.

4,- Nut Lake Band, No. 90.

Nothing in this lake has ever been done for them. Settlers are now closing in round them, and they need and desire a day school. This ought to be given them without delay. The Church of England is will to try to manage it for the I.D. if the funds are forthcoming. I believe I could get an experienced man and wife (teacher and farm instructors, etc. on U.S.A. Indian reserves) if house and decent salary is forthcoming.

5.- Kinistino Band.

5,- Kinistino Band, No. 91. Nothing has ever been done by Church or State for this band. They are heathen still. I understand they now desire the school, etc., which formerly they refused. The I.D. ought to give them one.

6,- Stanley Falls
7,- Pelican Narrows } I have already written for these, if not to you, then to Duncan Scott, Esq., Superintendent of Indian Education. They should have, each, a day school for the little ones. They would form capital feeders for the Lac la Ronge and the Pas (when we get it) Boarding Schools.

I could be glad to learn what the I.D. will do and what I, or my missionaries, can do to hasten matters.

I beg to remain

Yours faithfully

Ottawa, August 26, 1913.

Right Reverend Sir,-

Referring to that portion of Your Lordship's communication of the 4th instant regarding the establishment of a school at Frog Lake I beg to say that it is noted that you have sent in a teacher.

In this connection I would draw Your Lordship's attention to the fact that there are only on these reserves, according to the last census, twelve children of school age, hence the probability of conducting a successful day school must be very small. However, if the man Your Lordship has sent in reports that he has a building in which he can conduct a school, the Department will be prepared to allow a reasonable salary if any success attends the venture. In the meantime the Indian Agent is being communicated with. I shall be pleased to hear further from Your Lordship in regard to this matter when you have had communication with Mr. Quinsly.

Sir,—

I have the honour to inform the Department that the C. of E. Mission of this place has engaged one, Charles Quinney, to reside on Frog Lake reserve for missionary work among the Indians there.

I must explain that Charles Quinney was formerly a member of Sweetgrass band, attached to Seekaskootch band 119. The man and his children were discharged from treaty in 1911; his wife is still in treaty and draws on the original ticket, No.16.

A two roomed pole-and-mud shack has been put up this fall; so far only one room is habitable. It is intended to hold school in this house, in fact three children are already enrolled and have attended. I called there on Monday the 10th. instant, but found only Mrs. Quinney and the children at home.

On my return to Onion Lake I called on Mr. Matheson, principal of the C. of E. Boarding School here, to find out about Charles Quinney's position, and understood from him that it was solely his own (Mr. Matheson's) undertaking.

SCHOOLS BRANCH

Dear Mr. Scott:

You may remember that a long time ago I applied for a grant from the I.D. for a teacher at Frog Lake. I think the reply was that thouth the I.D. was not prepared to start in in the usual way, that if I would go ahead and put a teacher there, the I.D. would be ready to receive a report of the work done, and then to consider the matter of payment. I beg to report briefly what has been done. Mr. Charles Quinney began teaching school about the first of July last. He had to build his own house and then gather the children together and start teaching with such little outfit as we were able to give him. I give you the following notes from a report I have received from our clergyman there.

(1) We have built two (2) shacks each 16'x18'.
(2) There are sixteen children of school age on the reserve.
(3) The attendance was small because most of the children are barely of school age and are scattered over the reserve. The few that go have attended regularly and made good progress.
(4) Inspector Chisholm visited the teacher, but not during school hours, looked at the work on the slates, and expressed satisfaction with what he saw. He promised to recommend the I.D. to help in the work.
(5) If the I.D. takes up the work regularly, it would be advisable by next winter to have arrangements made for driving the children to school.
(6) The Indians desire a school on the reserve as they do not wish to send their children to the boarding schools at Onion Lake.

Charles Quinney has received from us about $250 for the twelve months work. It is not sufficient. He has had to scrape along in the best way he could, and we have helped him in other little ways. Besides that there is the money that we have spent on the two shacks for his house and the school. I am not sure what this amounts to, but my point is this, that we have done this work for the I.D. in order to show them that the work was worth while and possible. We cannot afford to do this and I think that the I.D. should repay us our outlay on salary and houses, and make definite arrangements to pay the teacher direct from this out. I think that if you write to Mr. Sibbald, your agent there, he will endorse what I have said. There are some Roman Catholics there, and the new chief is one, and they may make a move to have the school entrusted to them, but we are the first in the field, we have begun the education of the children, and I think we have the majority of the Indians. These things ought to be in our favour. Will you do what you can in this matter? First to repay us what we are out of pocket and cannot afford to donate, and second to have the school put on the usual footing, that is to build and equip, and to furnish the salary. Whatever school material there is now, either the teacher or the Church provided at their own

expense. There should be a proper schoolhouse, also a house for the teacher, with at least two rooms for his family and another room for the mid-day meal. I do not ask an expensive building, only sufficient to carry on the work.

If this request and report is not sufficiently definite, will you tell me just what you want, and will you communicate with Mr. Sibbald?

Report of Inspector W.J.Chisholm on the Onion Lake Agency.

------ Frog Lake Reserve.----------

Day School required.

17. There appears to be a demand here for a fully equipped and up-to-date day school, as few of the children belonging to the band are at present being educated.

Charles Quinney, who for some years conducted the Indian Day school on the reserve at Cumberland, has recently built a small schoolhouse and dwelling combined on this reserve with the assistance and under the pay, apparently, of Rev.J.R.Matheson, C. of E. missionary at Onion Lake. At the time of my visit but three children besides his own had attended but he thought there was a prospect of a larger attendance when spring opened. His school, however, under present conditions will not engage the interest of the Indians to any great extent.

Sir,-

The Department is in receipt of a communication from the Bishop of Saskatchewan in reference to the establishment of a school at Frog Lake in your agency. His Lordship states that a school has been in operation since the first of July, 1913, under Mr. Charles Quinney and that the church has gone to the expense of putting up buildings and has assumed the cost of the teacher's salary.

The Department would like you to report on the situation there, stating the number of children of school age on the reserve and the prospect of having a sufficient number in attendance to justify the Department in assuming the cost of maintaining a school there. The Department would like to have this report at your earliest convenience.

Mr. Scott,-

The Bishop of Saskatchewan wrote to the Department during your absence in the west in reference to the establishment of a day school at Frog Lake. His Lordship stated that a school had been in operation since the first of July, 1913, under Mr. Charles Quinney and that the church had gone to some expense in connection with the bu ildings and had assumed the cost of the teacher's salary.

Mr. Agent Sibbald has been asked for a report as to the number of children of school age on the reserve and the possibility of having a sufficient number in attendance to justify the Department in carrying on the school, but no reply has been received from him as yet.

In the meantime Mr. Inspector Chisholm's report on the Frog Lake Agency has come hand, in which he says that there appears to be a demand here for a fully equipped and up-to-date school, as few of the children belonging to the band are at present being educated. He refers to the school

school being conducted by Mr. Quinney and says that, under present conditions, his school will not engage the interest of the Indians to any great extent.

The Bishop was informed that the matter would be submitted to you on your return to Ottawa. I think that more information should be had and I would suggest that Mr. Sibbald be again written to for a report.

Sir,—

I have the honour to acknowledge the receipt of your letters No.443013 respectively dated July 10th. and Sept. 14th. last, with regard to the prospect of establishing a day school on the Frog Lake reserve.

SCHOOLS BRANCH
OCT 6 1914

During one of my very recent visits to the Frog Lake reserve, I made a list of the children of school age. There are 9 boys and 10 girls, of whom 1 boy and 3 girls are enrolled as pupils at the C. of E. Boarding School, and 2 girls at the R. C. Boarding School; both at Onion Lake.

With regard to the school buildings referred to in your letter of July 10th., I beg to say that they consist of one two-roomed shack that was put up by Chas. Quinney at a cost of about $22.00 and the value of his labour for one month. The school opened in September 1913 and was kept open until Christmas; after that it was open irregularly on account of sickness on the reserve.

The building is not in a convenient place on the reserve to secure a good attendance, but the teacher, Chas. Quinney, has now hired a house from one of the Indians in which to live and hold school. This house is situated more conveniently and it remains to be seen how it will succeed when school is re-opened. It has not been open since June.

The families are very much scattered on this reserve and it is impossible to find a site that would be convenient for all. Before deciding anything I would recommend waiting until it is seen how the present arrangement succeeds.

Dear Mr. Scott,

I would plead for what seems to me only justice & honesty to a very deserving servant as follows, & I would ask you to do your best to get the I.D. to make whatever liberal allowance they can.

You will remember that Charles Twinney taught school at Frog Lake near Onion Lake for a year or more partly at our expense & partly at his own. Then the I.D. recognized the value of his work, & the need of a school there, & granted him a small salary (& 300, I think) - I understood (it may have been my mistake) that the I.D. also considered the need of a school-building, & would take it up with the Agent at Onion Lake. However, this is what I learn now. In July 1913, he built two shacks at his own expense, one to live in, & the other for a class room. In Spring of 1914 he rented a house that was more central for the children, paying the rent out of his meagre salary. He also added a lean-to to the house, & has taught there ever since. He has been out of pocket for (1) two shacks (2) a lean-to & (3) rent. The Indians were so pleased with the progress of their children that they agreed to take out logs for a school, & the Chief &

councils gave a site for it & for Teacher's house. Mr Sibbald, the Agent, promised to write to the Dep^t to ask what help would be given towards the building. Nothing has been heard from him about it. Duinney started to build a house for himself on the given site with the help of the Indians, but the Agent said he could not do so without the permission of the Dep^t, so he stopped, discouraged —
Now here is a case where Teacher, pupils, & Indians are all willing & eager to do their best, & more than their share. The work has been commended. The teacher is studying with the ultimate to become more proficient. The School & the house are both needed by August. I would ask (1) that a generous recompense be paid to Duinney for the use of his buildings for two years past (2) that the grant of the site by Chief & Council be approved (3) that the willingness of the people be met half-way by a suitable grant towards the expense of building a School & a small residence, & (4) that Mr Sibbald be instructed to pay Mr Duinney for the past, & to meet the Indians' desire, & to help in the buildings without delay. With best regards to yourself,

I remain

Dear Bishop Newnham -

I have your communication of the 10th instant, in reference to the Frog Lake School. I find upon an examination of the returns that the enrolment and attendance have been very small during the first three quarters that the school was in operation. The return for the June quarter is not yet to hand, but I regret very much to state that unless there is a decided improvement the Department would not be justified in incurring the expenditure necessary to erect a new building. It is our wish to deal fairly with Mr. Quinney, and the Department will pay the rent for the building which he has been using, and the agent will be instructed to submit a voucher.

With regard to payment for the buildings he erected in the first place, unless they can be used for school purposes, the Department could not purchase them. I understand that there was but a very small

small sum of cash paid by Mr. Quinney in connection with the construction of these buildings. I shall, however, have further enquiries made.

REPORT OF INSPECTON CROMBIE ON THE FROG LAKE BAY SCHOOL.

Age of pupils is from 7 to 10 years.

Regularity of attendance----not at all satisfactory.

General Remarks.

While a desire is shown by the Indians on this reserve for the establishment of a day school, yet owing to the scattered situation of their dwellings, the question as to whether a good attendance will be got without establishing transport is doubtful.

Report dated,- March 6th, 1916.

SEPTEMBER REPORT OF AGENT SIEBALD ON THE FROG LAKE DAY SCHOOL.

I visited this school on the 11th but it was after regular hours. An examination of the register showed 3.6 average since reopening of the school on August 30th. A number of the Indians are at present absent ##### with their families.

I called again on the 21st but only one pupil was there. The parents are away to get work among the settlers and have taken their families with them.

Ottawa, October 15, 1917.

Right Reverend Sir,-

The Department is in receipt of Mr. Agent Gibbald's report on the Frog Lake Day school for the month of September, last, in which he states that he visited this school on the 11th of the month, after school hours, and that an examination of the register showed an average attendance of 3.6 since the re-opening of the School on August 30th. He also states that he visited the school on the 21st ultimo and that only one pupil was present. He says that the parents are away to get work among the settlers and have taken their families with them.

I may say that the highest enrolment at this school since it was opened in September, 1914, has been ten, the highest average five, and the mean average only 4.3.

In view of the poor attendance at this school the Department does not consider that it would be justified in keeping it open after the end of the current quarter. I have to request, therefore, that Your Lordship will be good enough to inform the teacher, Mr. Quinney, that his services will not be required after the 31st of December, next.

I have the honour to be, Right Reverend Sir,
Your obedient servant,

for Asst. Deputy and Secretary.

Sir,—

I have the honour to acknowledge the receipt of your letter of 15th inst. No 443013/1 informing me that His Lordship the Bishop of Saskatchewan was being informed that the Department does not feel justified in keeping the Frog Lake school open in view of the poor attendance recorded.

In reply I beg to say that I regret very much that the Department desires to close this school. I hope that any reference in my report to only one being present on Oct 21st has not led the Department to its decision. I would explain that at the time nearly all the families were absent from the reserve. I was on my return journey from the north and on my way going north on the 11th I had spoken to the Indians about the good wages to be earned among the Settlers and with the Americans Gangs moving about the Country and found on my return that a number of them had moved out to look for work on my advice and had taken their families with them. It is true the attendance is poor and it is only recently I have spoken with the

Indians and with the teacher about it. The general impression is that if the a building could be had in a more central position that there would be a better attendance. There are several children at the north end of the lake that would attend if the the School was near them and it was suggested that I would try to get a building more convenient. The Indians I know had a building in their mind which it was probable I could get, a house belonging to Joseph Delaro which he has not been living in for some months I however at the time did not encourage the idea telling them that I expected that when the war was over and times grew better the Department would consider the advisability of building a proper School which would be placed in the most advantageous position I did not at the time however anticipate that the department proposed closing the school. The teacher said if he could still have the use of the house that he is now living in which belongs to the Dept & 14.00 per month, that he would be willing to travel between the two places forenoon and evening, a distance of about 14 miles if Joseph Delaro house could be procured, I don't know if he is going to live on it this winter or not but if he is not I think the house could be rented at about $5.00 per month

Outside Inst Chas Rummey duties as a School Teacher he interests himself in many ways in the welfare of the Indians. He attends their meetings and gives them Good advice, the Indians in return respect him & have come to look to him for advice. He is at times of considerable help to me and if he is moved I would miss him very much. One thing in particular I would mention about him he was helpful in keeping the Indians from having a Third Dance last June which they were very persistant in trying to hold. Should the Department entertain the idea of trying how the school would succeed by holding it in Delmos house I would suggest doing so rather than recommending the closing of the school altogether.

I hope the Department will accept this letter in the spirit in which it is meant & reconsider its decision in respect to the School

Sir,-

I have to acknowledge the receipt of your letter of the 25th ultimo in regard to the closing of the Frog Lake Indian Day School.

In reply I beg to say that, in view of your remarks in regard to this matter, the Department has decided to continue this school for the present. You may make arrangements for securing Joseph Delver's house, to which you refer, for school purposes and the Department will allow him $5.00 a month rent for this building while it is used for this purpose.

I may inform you, however, that unless there is a decided improvement in the attendance at this school during the remainder of the school year the Department will be forced to close it.

Ottawa, November 6, 1917.

Right Reverend Sir,-

In reference to official letter of the 15th ultimo, in which Your Lordship was informed that the Department has decided to close the Frog Lake Indian school at the end of the current quarter, I beg to say that a communication has been received from Mr. Agent Sibbald, in which he recommends that this school be kept open. He suggests that a house belonging to Joseph Delver, which is more convenient for the Indians, be secured for school purposes.

In view of Mr. Sibbald's remarks he has been informed that the Department has decided to continue this school for the present and he has been instructed to make arrangements for securing Joseph Delver's house for school purposes. He has also been informed that, unless there is a decided improvement in the attendance at this school during the remainder of the school year, the Department will be forced to close it.

Dear Mr. Scott,

I received your letter lately(of Oct.15th., No.445013/1) from your department, saying that in consequence of the lack of pupils the Frog Lake School would be closed after Dec. 31st. I was much distressed as I knew that the teacher was doing faithful work, & it is the only Day School in that large Indian district, while the Onion Lake Boarding School is already as full as the I.D. grant allows.

I have just received a letter from Rev.E. Ahenakew, my missionary there, lamenting the proposal to close the school. He says that Mr.Sibbald, Indian Agent strongly recommends that it be kept open because (1) It is ~~dis~~ doing good work, (2) the teacher, Charles Quinney has a good influence on the Indians. Mr.Sibbald says that the fault of the lack of attendance in summer is largely his own, that he advised the Indians to go across the river & help the farmers with the harvest. They will be more at the Reserve now. I hope therefore that you will reconsider the closing of the school, & be guided by Mr.Sibbald's recommendation to keep it open.

I beg to remain

yours faithfully,

Ottawa, February 16th, 1918.

Sir,-

Inspector Trimble in reporting on the Frog lake school states that the attendance is small and irregular. He suggest that the school be closed unless the average attendance shows considerable increase.

On December 11th, 1917, you were authorised to rent Delver's house and there should be good accomodation. On the first opportunity you have of visiting this reserve, you should point out to the Indians the necessity of a large and regular attendance.

The Department will expect to receive a full report from you in regard to the future prospects of this school.

Dear Sir

I am today writing the Indian Agent of Fort Simpson, the Hay River Indian school, Dunlop, and would like to know if there is a chance of getting money from him. I brought my Indian family here and on account of the Hay River not being open since Aug. 1st has not had any of their usual fall supplies, and as you know, it is impossible for them to get any until the fall freight gets in. I would like you might be able to get part of his salary until it was all paid. His account with me is $177.12

Please let me have a reply on this by return mail and if this is not the place to write to, could you advise me better.

Thanking you in advance I am

Sir,-

I have to acknowledge the receipt of your letter of the 27th ultimo, in which you request that the Department retain an amount from the salary due Charles Quinney, teacher of the Frog Lake Indian Day School, to pay the amount of his indebtedness to yourself.

In reply I beg to say that the Department has no authority to collect the money due you. If Mr. Quinney forwards a power of attorney, made out on the proper form for that purpose, a form for which is enclosed herewith, the Department would then be able to comply with your request.

Your obedient servant,

Asst. Deputy and Secretary.

MEMORANDUM:

MR. SCOTT.

Regarding the application of H. Bowtell of Frog Lake, addressed to W. J. Blair, M.P., for an increase in salary to Charles Quinney, Teacher, Indian Day School, Frog Lake, I beg to say that this school was first opened on September 1st, 1914, and Mr. Quinney was appointed teacher, at a salary of $300.00 per annum. During the past three years he has also received bonus at the rate of $150.00 per annum.

Previous to teaching in this school, Mr. Quinney taught five or six years in Indian Schools.

He has no professional qualifications, having only passed the high school entrance for the Province of Saskatchewan.

There is an enrollment of 23 pupils, with an average attendance of only seven.

The late Inspector Crombie, who made the last inspection of this school, remarks regarding the work "he appears only to be able to get his pupils to a certain point, which does not extend beyond elementary subjects. The discipline is good". The pupils are mostly in the first and second standard.

Mr. Quinney is an Indian, and received his education in Emmanuel College, Prince Albert, which was one of our boarding schools.

Except for the bonus, Mr. Quinney has had no increase in salary since he began work at this school, and in view of his long service, which meets the requirements at this school, we might allow him an increase of $100.00 from the first of the present fiscal year.

MEMORANDUM

Mr. Caldwell -

With reference to attached letter from Mr. Blair, M.P., covering communication addressed to him by Mr. H. Bowtell, of Frog Lake, recommending an increase in salary to Mr. Charles Quinney, Indian teacher on the Frog Lake Reservation, I would state that I have looked up his record and I propose to allow him an increase in his salary of $100.00 per annum, making it $400.00 with bonus. I could not possibly consider making his salary equivalent to that of qualified teachers in the white schools of the Province. Mr. Quinney has very little education but I consider I would be justified in making him the increase above referred to, which will take effect from the 1st. April.

With regard to the Frog Lake Day School, you will note from the report that the average attendance is only five, and that when the Nurse visited the school there were only two children in attendance. Do you think it wise to keep a place of this description open? It seems to me to be rather an expensive operation, and that we are obtaining little or no result for the expenditure incurred.

I have to acknowledge receipt of your letter of the 29th ultimo, informing the Department that owing to the illness of Mr. Chas. Quinney, teacher of the Frog Lake Indian Day School, he was unable to teach and the school has been closed for several weeks.

In reply I beg to say that the September quarter return shows that Mr. Quinney taught ten days, as stated by you, during the month of September. In view of the fact that the school was closed through illness, salary and bonus for the full month will be paid.

We note that Mr. Quinney is recovering, and that it is expected that he will be able to re-open the school in about two weeks from the date of your letter. He should state, when he is preparing his return for the current quarter, the dates on which the school was closed on account of his illness, and salary will be allowed him for the period the school was so closed.

Sir,

With reference to my letter of the 29th, ultimo. I sincerely regret to report the death of Mr. Charles Quinney, teacher at the Indian Day School, Frog Lake reserve, from typhoid fever on Friday the 12th, instant.

As reported in my letter above quoted, Mr. Quinney appeared to be making a good recovery, but a few days ago he had a sudden relapse from which he never recovered.

The Rev. E. Ahenakew, of the Onion Lake Anglican Mission has informed me that he is taking up the matter of a successor to Mr. Quinney, as teacher, with Archdeacon McKay, and that he will later, communicate with me in regard to it.

Mrs. Quinney, the widow, is left in very straightened circumstances and if the Department can see its way to help her by granting her a gratuity it would be greatly appreciated.

Sir:

I have to acknowledge receipt of your letter of the 15th instant, informing the Department of the death, on the 12th instant, of Mr. Charles Quinney, late teacher of the Frog Lake Indian Day School. In reply I beg to say that the death of Mr. Quinney is much regretted.

Cheques which were drawn in his favour for the salary and bonus due for the quarter ending September 30th, last, were sent on the 12th instant. It may be that when these cheques arrive, Mrs. Quinney will be unable to have them cashed. If so, they should be returned to the Department, and new cheques will be issued in her favour. It will be necessary to give the christian name of Mrs. Quinney.

We have no funds provided from which a gratuity can be paid the widow. We will, however, continue salary and bonus until such time as the Church authorities appoint a teacher and he takes up duties, provided such appointment is made within a reasonable length of time. It will, however, not be possible to continue payment of salary to Mrs. Quinney after the teacher who is appointed takes up duties. In order to continue payment in favour of Mrs. Quinney, she will be classed as substitute teacher.

We note that the Church authorities are taking up the matter of a successor to Mr. Quinney. The name, qualifications and experience of the teacher nominated for this school should be submitted for the approval of the Department.

Dear Sir.

I received a letter from the Bishop in which he said: "you will have the added responsibility of looking after the filling of day schools ..... in the Western part of the diocese.

Acting on this I would submit, for your consideration, the appointment of Mr Alex. Peterson of Frog Lake, to the Frog Lake Indian Day School.

His qualifications will prove to be satisfactory to the Department, as, I am sure they will be true. He has a 2nd Class Teacher's Certificate and his previous record, judged by Inspectors reports, is very good.

Apart from this his home is within a mile and a half of the School, and in the event of his appointment, there will be no necessity of having to worry over the housing of the teacher

January 14th, 1924

Sir,—

With reference to my letter of October 15th, last, reporting the death of Mr. Charles Quinney, teacher at the Indian Day School at Frog Lake, I beg to report that Mr. Alex: Peterson of Frog Lake has made application for the vacancy.

On December 18th, last, accompanied by the Rev. E. Ahenakew, of the Onion Lake Anglican Mission, I called upon Mr. Peterson at his home with reference to his application. He is a young married man, about 25 years of age, and his home is situated about 1½ miles from the Frog Lake Indian schoolhouse on the edge of the Frog Lake reserve. He is in possession of a second(2nd) class Teacher's certificate for Alberta, and I enclose herewith his last inspection report. With respect to salary he told us that he would be willing to accept the appointment at a rate of $800.00 per annum, plus bonus and the allowance of $50.00 made to the late teacher for dispensing simple medicines to the Indians of the Frog Lake reserve.

Both Mr. Ahenakew and myself were favourably impressed with Mr. Peterson and we left the matter for Mr. Ahenakew to write to Bishop Lloyd recommending Mr. Peterson, and to afterwards let me know the Bishop's reply, the substance of which I would transmit to the Department. However, it now appears that the responsibility of nominating teachers for Anglican Indian Schools in this diocese, has devolved upon Mr. Ahenakew, since the death of Archdeacon McKay. Mr. Ahenakew told me this yesterday and requested me to write the Department recommending Mr. Peterson, and I asked him to give m me a letter to that effect. This he did and I enclose it herewith.

Kindly return the Report of Inspector of Schools on teacher.

Sir:

I have to acknowledge receipt of your letter of the 14th instant, with reference to the application of Mr. Alex. Peterson for the position of teacher of the Frog Lake Indian Day School and enclosing a communication from Rev. E. Ahenakew, recommending his appointment, together with a report from the Public School Inspector as to the success which he has met in white schools.

In reply I beg to say that the Department will approve of the appointment of Mr. Peterson, to begin duties at as early a date as possible. The salary allowed him will be at the rate of $800 per annum, on a basis of ten teaching months in the year. He will also be entitled to the bonus provided by law, which during the present fiscal year is at the rate of $15 per teaching month. Besides the salary and bonus allowed as teacher, he will be granted an allowance of $50 for the dispensing of medicines to the Indians of the Frog Lake Reserve. You will be good enough to inform Mr. Peterson of his appointment and arrange with him to take up duties at the earliest convenient date. Kindly inform the Department as to whether he accepts the position and the date on which he begins duties.

As you were informed in official letter of October 24th, last, salary and bonus will be continued to Mrs. Quinney, wife of the former teacher, until such time as the new incumbent begins duties. As soon as we have the information as to the date Mr. Peterson commences work, we will pay Mrs. Quinney the balance of salary and bonus due to that time. I shall be pleased if you will give Mr. Peterson every assistance you can on taking up his duties at the Frog Lake School.

Dear Sir,-

Kindly permit me to draw to your attention that in addition to my duties as teacher of the Frog Lake Indian Day School, I perform for the Indians innumerable services for which I receive no remuneration. In fact my extra duties to the Indians almost equal that of a Farm Instructor. Let me mention a few things I do under direction and authority of the Indian Agent: Issuing permits, coyote bounties, orders, rations and clothing to needy Indians, garden seeds, etc. I also measure hay and otherwise help the Indians with their many problems. My wife assist the sick Indians that may ask for help and also prepares the mid-day meal for the school children.

Sir,—

I have the honour to acknowledge the receipt of your letter of the 31 ultimo, No.115-4-1, enclosing copy of one received from Mr. A. E. Perterson, teacher at the Indian school at Frog Lake reserve in this Agency.

What Mr. Peterson states in his letter is quite true. There is no Farming Instructor at Frog Lake reserve, and when Mr. Peterson first started to teach the Indian School there, he commenced doing little extra jobs, in connection with the Indians, voluntarily. In the course of the four years that he has been living on the reserve this little extra work has so grown, that now the Indians of the band look upon him as one whose duty it is to attend to them. I, also, have become accustomed to rely upon Mr. Peterson for information in connection with the reserve, such as the reporting of cases of sick Indians, etc.

Mr. Peterson is a very willing man and has never made the slightest objection to doing anything that I have requested him to do. Mrs. Peterson is also very willing and at times has been a great help to the Indian women of the band. In my annual estimates for 1927/8 and 1928/9 I placed an item of $150.00 for remuneration for Mrs. Peterson's service not entirely because I considered she should be paid, but, also, because I felt that Mr. Peterson would look upon the granting of this to his wife, as some small recognition of his extra services.

In connection with this matter I would refer the Department to my letter of March 28th., 1927, No.99-1, and its reply dated April 7th., No.11-115. If the Department can see its way to either pay Mrs. Peterson the amount of $150 per annum placed in the estimates for her services, or to increase Mr. Peterson's salary by a like amount, I feel sure they would both be satisfied. Besides being an excellent teacher, Mr. Peterson is a great help to the Department in many other ways.

I have your letter of the 7th instant, relative to the request of Mr. A. E. Peterson, teacher of the Frog Lake Indian Day School, that an increased remuneration be allowed for the extra services being performed by Mrs. Peterson and himself.

In reply I beg to say that the Department will allow an increase in Mr. Peterson's salary as teacher from the 1st of April, next, the beginning of the next fiscal year, of $10 per teaching month. This will make the salary allowed him from that date at the rate of $105 per teaching month. This increase in salary is granted because of the special services mentioned above which he and his wife are giving. Please inform Mr. Peterson of the increase that will be allowed him from the above mentioned date.

Sir,

On January 31st. last the Department wrote me, enclosing copy of a letter which it had received from Mr. A. E. Peterson, teacher at the Frog Lake Indian Day School, in which he applied for an increase of salary. To this letter I replied on February 7th., and, on February 16th. the Department informed me that it had been decided to increase Mr. Peterson's salary $ 100 per annum.

Mr. Peterson is still not quite satisfied with his salary, but, I feel sure, would be if the Department could see its way to give him a further increase of $ 100 per annum. He is, in my opinion, the best of our Indian Day School teachers, and I would respectfully recommend that he be given the increase asked for. I should add that, besides being the school teacher, he acts as an overseer to the Frog Lake band, there being no Farming Instructor, or other official in the pay of the Department, on the Frog Lake reserve.

I have your 99-1 of the 25th ultimo, urging the Department to increase the salary of Mr. A. E. Peterson, teacher of the Frog Lake Indian Day School. In view of your report, concerning this teacher's satisfactory services, the Department has given favourable consideration. He is at present in receipt of $1050 for the 10 teaching months and an additional $50 as dispenser. Rather than increase his salary as teacher, the Department has decided to give him the maximum salary for dispensers, viz., $120 per annum.

FROG LAKE DAY SCHOOL.

I called at this school on October 11th. There are 6 boys and 3 girls enrolled. They have the same difficulty at this school as at Cold Lake with regard to getting an attendance. Mr. A. Petersen, the teacher, appears to be bright and anxious to make his school a success, but the conditions are rather against him.

I noted the school was whitewashed and the floors oiled. A stone foundation has been placed under the teacher's residence and a frame lean-to kitchen added. Provision has been made in the Estimates for finishing this residence inside and making it more comfortable.

The foregoing report is respectfully submitted.

FROG LAKE DAY SCHOOL (C. of E.)

I visited this school on March 3rd, and found 5 boys and 2 girls present out of an enrolment of 12. There are 5 pupils who attend very regularly. The school room was tidy, and the children appeared warmly clad. They are provided with a bowl of soup at mid-day with meat and rice.

Mr. Alex Peterson, the teacher, is well qualified, and appears to have a good influence on the reserve.

DR. SCOTT.

Mr. A. E. Peterson, teacher of the Indian Day School at Frog Lake, Alberta, was appointed in January, 1924, at a salary of $95 per teaching month and a grant of $50 per annum as dispenser of medicines. He was nominated by Bishop Lloyd, of Prince Albert. No reference is made to the Civil Service Commission in connection with appointments at Indian day schools. At the present time, Mr. Peterson receives a salary of $1050 for the ten teaching months and $120 per annum as dispenser. All inspecting officers speak very highly of Mr. Peterson's work.

MEMORANDUM

C.

Nov. 4th, 1932.

Dr. McGill.

Representations have been made to the Minister on behalf of Mrs. Peterson, wife of the teacher at the Indian Day School at Frog Lake, Alberta. It is claimed that Mrs. Peterson prepares the mid-day meal for the pupils, and also instructs them in knitting and sewing, for which she receives no remuneration whatever, whereas it is claimed that the wives of teachers at other Day Schools are in receipt of a regular salary. Mrs. Hebert, wife of the teacher at Le Goff, is cited as an instance where $50.00 per month is paid.

The Minister would like a memorandum dealing with the duties of Mrs. Petersen, and also the duties of the wives of other teachers, who are in receipt of a regular salary or allowance.

HONOURABLE THOMAS G. MURPHY

With reference to your memorandum of the 4th instant, regarding Mrs. Peterson, wife of the teacher of the Frog Lake Indian Day School, I submit the following information:-

Mr. Peterson, teacher of the Indian Day School at Frog Lake, was appointed in January, 1924, at a salary of $95 a teaching month and a grant of $60 a year as dispenser of medicines. He was nominated by Bishop Lloyd, of Prince Albert. In February, 1928, the Indian agent reported that Mrs. Peterson had been a great help to the Indian women of the Band and suggested that she be allowed remuneration for her services at the rate of $150 a year. Instead of allowing a salary to Mrs. Peterson, the Department increased Mr. Peterson's salary by $10 a teaching month and also allowed him an increase in his salary as dispenser. At the present time, Mr. Peterson is paid $105 a teaching month, plus a grant of $120 a year as dispenser. Both these are subject to a deduction of 10% during the current fiscal year. The enrolment at the Frog Lake School during the fiscal year ended March 31, 1932, was 15 and the average attendance, 6.

You will note, from the above, that Mr. Peterson's salary was increased due to the work his wife was doing on the reserve. No specific duties have been assigned to her. Any services she is performing are being done without formal instructions from the Department.

When Mr. and Mrs. Hebert were appointed at the Cold Lake School, in 1928, instructions were issued by the Department that Mrs. Hebert would not only assist in the preparation of the pupils' midday meal, instruct the girls in sewing, mending, knitting and cooking, but would also visit the Indian homes on the reserve. With reference to her, you will note that she was appointed at the same time as her husband and definite duties assigned to her. Her salary, at the present time, is $60 a teaching month, less 10% during the current fiscal year.

Sir:

I wish to refer to your 309-11 of the 4th ultimo, forwarding the report of the Public School Inspector on his inspection of the Frog Lake Indian Day School. It is noted that the attendance at this school has fallen off considerably and that the daily average, during the September quarter, last, has been between 2 and 9 pupils, out of an enrolment of 13. It is further noted that the absence of the children from school is due, principally, to insufficient interest on the part of the parents, who are constantly on the move from place to place.

In view of the attendance and the lack of the parents' interest, it is considered that it would be advisable to close this school at the end of the present school year, viz.: June 30, 1933.

Those children on the Frog Lake reserve who are of school age and in good health could be recruited to residential schools of the denomination to which they belong.

I shall be pleased to have your opinion as to whether you concur in the closing of this school at the time mentioned.

Mr. A. E. Peterson, the Teacher, is earnest and conscientious in the discharge of his duties. He is a qualified teacher, holding a Second Class Interim Certificate for the Province of Alberta. There are fourteen pupils enrolled, five boys and nine girls. The average attendance is about 50% of the enrollment. This varies at different periods of the year, owing to the fact that the Indians follow hunting and trapping as a means of livelihood and this occupation takes them from their homes from time to time during the year for extended periods. I may say that, as this Reserve is situated about thirty miles from the Agency headquarters and there is no farming instructor in charge, Mr. Peterson is of great value to the Agent in connection with the supervision of the Reserve. He dispenses the medicines and rations to the old and sick and keeps a general oversight over the Band. He is always ready to give his time towards helping out the work on the Reserve, and this, coupled with his duties as teacher, would justify keeping the school in operation. Until these Indians settle down to farming seriously and reside more regularly on the Reserve, we cannot look for very satisfactory attendance at the school.

I am today writing the Indian Agent asking him to have a meeting with the parents and members of the Frog Lake Band and place before them the Department's decision and give them the reason for it. I would suggest that the matter of closing the school be given further consideration and that the decision be held in abeyance until it is seen whether the efforts of the Agent will result in a satisfactory average attendance of the enrollment for the March and June quarters of 1933. My reason in suggesting this is that there is no farming instructor on this Reserve, which is situated about thirty-five miles from the Agency, and the teacher, Mr. Alex. Peterson, has been of great assistance to the Indian Agent in connection with the supervision of this Band of Indians. He has issued the rations to the old and destitute, dispensed the medicines, and kept in close touch with the activities on the Reserve, and, as I said before, has been of great assistance to the Agent.

Original on 118-1-1.

The Frog Lake Day School, in my opinion, should not be closed. It has an enrolment of twelve with a highly qualified, capable teacher, who, in addition to his teaching duties, does much of the work done by farm instructors elsewhere in the way of rationing the old people, distributing relief and looking after things generally. There is no farm instructor at this point and the closing of this school would deprive us of the services of the teacher, Mr. A. E. Peterson.

Sir:-

I beg to forward herewith Provincial School Inspector J. L. Gibault's report of an inspection which he made of the Frog Lake Indian Day School in the Onion Lake Agency on the 29th ultimo.

The report in so far as the ability of the teacher is concerned is quite satisfactory. I am quite familiar with Mr. Peterson and his attention to his duties and may say apart from the work he is performing as teacher, he is of great assistance to the Indian Agent as he issues rations and medicines to destitutes and sick on the Reserve and keeps the Agent informed regarding matters and conditions on the Reserve. This Reserve is situated thirty-five miles from the Agency headquarters and, as there is no farming instructor, Mr. Peterson performs the duties of overseer as well as those of teacher.

The attendance at this school is very irregular. This is due to the fact that a large percentage of the Indians obtain their livelihood from hunting and trapping, working out for white settlers scrubbing land, and occupations which take them away from their Reserve. As they have no facilities for leaving their children at the school, they have to take them along and consequently the attendance at the school suffers. Until such time as these Indians take up farming and stock raising seriously as a source of livelihood, it cannot be expected that the attendance at the day school will be satisfactory.

Sir:

I have your 309-11 of the 25th ultimo, enclosing the Provincial School Inspector's report on his recent inspection of the Frog Lake Indian Day School in the Onion Lake Agency. It is noted that on the day of the Inspector's visit only one pupil was present.

In view of the irregular attendance of the Indian children and the lack of interest on the part of the parents, it is considered that, unless there is a decided improvement in the attendance after the holidays, it would be a waste of money to continue this school in operation. The children would be better off if placed in a residential school. You might discuss this matter with Mr. Agent Hill and advise later whether you would recommend that the school be continued in operation or not.

I have noted the satisfactory services which Mr. Peterson, the teacher, is performing, both in his work in the classroom and in the assistance he gives to the Indian Agent in the issuing of medicines and rations to destitutes and sick on the Reserve.

EXTRACT FROM REPORT OF MR. W. MURISON, INSPECTOR OF INDIAN AGENCIES, DATED AUGUST 1st, 1936, REGARDING VISIT OF INSPECTOR J. L. GIBAULT TO THE FROG LAKE INDIAN DAY SCHOOL ON MAY 18th, 1936.

Original on No. 115-4-6.

A perusal of this report does not disclose a very satisfactory condition of affairs and I am so informing the Indian Agent. Insofar as the usefulness of this school is concerned, it would appear to me that the Indians do not appreciate having a school on their Reserve as shown by the attendance. It only serves as an excuse to keep them from sending their children to the residential schools. We have two residential schools at Onion Lake, thirty-five miles distant from the Reserve, and in my opinion it would be more in the interest of the children if this school were closed and the children compelled to attend the residential schools. The chief reason for carrying on this school in the past has been that the teacher, Mr. A. E. Peterson, has been of material assistance to the Indian Agent in supervising the Indians and acting as dispenser of medicines and rations to them. There is no farming instructor on the Reserve. In my opinion it would be much better to appoint a farming instructor rather than carry on under present conditions.

Dear Sir:

The Department is in receipt of Inspector Gibault's report regarding his inspection of the Frog Lake Indian Day School on May 15th, last.

The Inspector was not very well satisfied with the work that is being done.

The Department would appreciate if you would give this school your special attention during the coming academic year and encourage the teacher to put forth a better effort. Unless decided progress is shown before the end of June, next, it will be necessary to consider closing the school and dispensing with Mr. Peterson's services.

Sir,

I have the honour to acknowledge receipt of your 115-4-1, of the 13th instant, with reference to Inspector Gibault's report on the Frog Lake Indian Day School. The Department's comment has been fully noted.

Mr. Peterson, the teacher, and I have been doing all we can to make the school justify its existance but have only partially succeeded. In order to get a better attendance we have been using moral suasion with the parents and in some instances compulsion, but we find it difficult to compete with our Residential Schools where they have so much more to offer. Twenty-four children from this reserve are in residence at the Onion Lake Boarding Schools - Four at the C. of E., and twenty at the R. C., while the enrolment at the Day School on the reserve is but twelve. The children in the Residential Schools are properly clothed and well nourished and do not have to expose themselves in severe weather to get to their class rooms, whereas the average child attending the Day School is insufficiently clad, is exposed to all kinds of weather getting to and from school, which in many instances is a considerable distance, and gets one mid-day meal for five months only. The Indians have a decided preference for the Day School, and I like it because I think it serves their requirements better than any other, but, in my opinion, it will never be the success it should be unless put on a better and more generous basis. I would respectfully recommend that the mid-day meal be made continuous throughout the teaching year, and that each pupil enrolled be given a complete outfit of suitable clothing, consisting of a tweed suit, overcoat, cap, mitts, boots or moccasins, two pairs of socks or stockings, and two shirts and two suits of underwear. In addition, the matter of transportation to and from school for the winter months should be considered. We have four Indian Day Schools in the Agency with a total enrolment of seventy, distributed as follows, Frog Lake 12, Long Lake 12, Island Lake 14, and Wiehead's 32. The probable cost of clothing would depend largely on the quality, but a per capita allowance of approximately $ 15.00 should procure a suitable equipment. The cost of the mid-day meal for an additional five months would just be double the amount expended for that purpose at present, and transportation for the four winter months could be approximately $10.00 per month for each school.

Schools from reserves where there are Day Schools should cease excepting under special circumstances, where a child is orphaned or living too remote from a Day School to attend regularly.

I fully realize that if these recommendations are put into effect they will result in a substantial increase in the cost of operating Indian Day Schools, but I feel sure that the results will justify the expenditure, and the total cost of educating a child in the Day School would still be considerably less than one half the amount required for maintenance in the Residential School, and it is my considered opinion that the ex-pupil from a good Day School is just as well or perhaps better equipped to take up his position in the reserve as his brother from the Residential School.

Ottawa, September 10, 1936.

Dear Sir:

The Department is in receipt of your letter of the 28th ultimo, with reference to the Frog Lake Indian Day School.

If clothing was furnished to all pupils of Indian day schools in the manner you suggest it is doubtful if $15 a year would be sufficient. At any rate, if such action was favourable considered, it would be a matter of relief and not an expenditure from the Appropriation for Indian Education.

It is also doubtful if transportation could be arranged at $10 a month. In some other places where transportation has been provided the cost has been much higher. In many cases it has been found difficult to secure the children, as those residing at some distance from the school did not arise early enought in the morning to permit the driver to reach the school for nine o'clock.

The Department agrees with you that Indian parents residing on a reserve where a day school is located, and who are in a position to support their children, should not be allowed to send their children to a residential school. This is a matter, however, that would have to be decided by yourself in co-operation with the principals of the residential schools who recruit on those reserves where Indian day schools are located. Orphan or neglected children living on such reserves should receive the preference at residential schools.

Yours truly,

A. F. MacKenzie,

I would ask that in preparing the Estimates for the coming fiscal year you would give consideration to letter hereunder from Dr. Hill with regard to day schools.

I think that there is considerable merit in some of the suggestions made by Dr. Hill, especially in respect to furnishing clothing and in improving the mid day meal and extending the period during which it is supplied.

I also think that his views in respect to recruiting for residential schools on reserves where adequate day schools are afforded, are deserving of consideration.

The matter of furnishing transportation to the children for the winter months is not so clear and I am not sure that it is necessary or feasible.

Re: - Frog Lake Indian Day School

Dear Sir:

I have for acknowledgment your letter of the 7th instant and also the Inspector's report on the Frog Lake Indian Day School, attached thereto.

I note with interest that in your letter to the Indian Agent dated January 7 you point out that the attendance at present does not justify the operation of this school.

I have made a study of the Inspectors' reports covering a period of years, and it would appear from these reports that at no time during the last ten or twelve years has the attendance at this school been at all satisfactory. However, the Department has been assured from time to time that Mr. Peterson, the teacher, is rendering valuable service on the reserve, apart from his teaching duties. It is noted also that he is a dispenser of medicine to the Indians. Insofar as his actual teaching ability is concerned the reports appear to be uniformly good.

If you are convinced that a married man can be secured for this school, whose services would increase the actual attendance and contribute to the welfare of the Indian population on the reserve, I can see no reason why you should not discuss the matter personally with the Anglican Bishop responsible for the nomination of the teacher. Mr. Peterson, who is a married man, was appointed to this position by Bishop Lloyd, who was then Bishop of

Prince Albert, in the year 1924. It is just possible that Mr. Peterson could be transferred to another reserve, where the teaching duties would occupy all of his time.

Apart from anything the Agent may recommend, I should like to have an expression of opinion from you, after you have had an interview with the Bishop, with respect to:

(a) Closing this school and transferring the pupils now in attendance to residential schools, or,

(b) changing the teacher and putting in a man better trained and equipped to give instruction to the Indians in farming, etc., or,

(c) a whole-hearted attempt to increase the attendance under the present teacher.

It is not necessary that you should interview the Bishop immediately, but I would like to have a recommendation from you prior to the close of the present academic year.

Dear Mr. Robertson:

At a Convention of the Independant Political Association of Alexandra held at Marwayne, I was recently nominated a candidate to contest the next Provincial Election. I accepted this nomination somewhat reluctantly, knowing that it would interfere with my duties here on the Reserve, and that I would probably be forced to resign.

I never sought this nomination nor did any campaigning on my behalf; but the majority of the 63 delegates present decided it was up to me to stand and having been a resident of this district for 28 years and interested in the welfare and good Government of this Province I could not very well refuse. The Association I now represent is comprised of the Liberal and Conservative parties and others interested in the defeat of the Social Credit Govt. I feel that with an Independant Govt in power at Edmonton, much more assistance and cooperation could be given the Federal Govt in the prosecution of the war and other matters, than is possible under the present regime.

held this spring or early summer, and it will then be necessary for me to give my whole time to the campaign and would need leave of absence from my duties. The wife will of course be home to carry on with the Homemakers' Club etc but would necessitate another teacher taking my place in the school.

I have talked this matter over with Dr. Hill and he suggests, that possibly, I could engage a teacher to act for me while I be away. Should I be defeated in the election my wish is of course, to continue here tho I have no other home or job to go to. If successful other arrangements would have to be made.

I am leaving this matter entirely up to you Mr. Robertson to decide. If you wish that I resign I will of course have to do so.

Dear Sir:

Re: Frog Lake School, Onion Lake Agency.

I am attaching a letter from Mr. A. E. Peterson, Teacher at the above referred to school. You will note from this letter that Mr. Peterson has accepted nomination to contest that seat in the next Provincial election; that his nomination would not interfere with his work before the first of April, at which time he would like to get leave of absence and engage another teacher to take his place; that should he be defeated, he would like to return to the school and carry on, but if elected would resign.

As you are aware, we have no Farming Instructor or other representative on the Frog Lake Reserve with the exception of the School Teacher. Up until last spring I was very much dissatisfied with conditions on that Reserve. The school attendance was very poor and practically nothing was being done in the way of gardening or agriculture. Last spring I took this matter up with the Agent and Mr. Peterson and got Mr. Peterson to start a Community Garden and do some outside work in encouraging the Indians to do a little more in agriculture, also got Mrs. Peterson to start a Homemakers' Club.

The Community Garden went over very well but was not located as well as it might have been and the results were not what we expected. They have, however, another piece of land prepared for next season. The Homemakers' Club has gone over well. The women are taking a great interest and the Indians have put up a building for the use of the Club. The Agent, Dr. Hill, advises that the school attendance has also improved. They have nowan enrolment of 23 and

there were 17 present at his last visit. He also states that the children are all outfitted with good suits and dresses made by the Homemakers' Club and that Mrs. Peterson is doing excellent work.

This is a case where we have a Reserve with some of the best agricultural land in the Agency; where we have Indians who are doing much less in agriculture than they were a number of years ago. The Indians themselves express the desire to take up agriculture, but the amount of agriculture being done at the present time would not warrant the appointment of a Farming Instructor. It is a case where I am satisfied a Teacher in the dual position of Teacher and Overseer could carry on additional work and at the same time, within the next two or three years, get the Indians started in agriculture sufficiently to warrant the employment of an Instructor, and it is the only way that I can see in which we can get these people started.

I think I am safe in saying that this last year, through Mr. Peterson's outside work and the Homemakers' Club, we have done more to bring these people along than had been done in the previous five years. It is unfortunate that Peterson is asking leave on the 1st of April, as that means he would be away at the very time he is most needed to carry on the outside work, Community Gardening, etc. While I feel that the interests of both the Indians and the Department demand, in a case of this kind, that the Teacher act in a dual capacity, and under those conditions I would hesitate to recommend that Mr. Peterson be given leave, in view of the intimation contained in one of your recent letters that the Department objects to our Teachers being used for anything but classroom work, I am of the opinion that his wish could be granted, as no doubt he could secure a teacher who would carry on the classroom work efficiently during his absence, and the Community Garden and Homemakers' work could be abandoned, as would in any case have to be done if our teachers are to be used exclusively for classroom work.

Re: Frog Lake Indian Day School,
Onion Lake Agency, Saskatchewan.

Dear Sir:

I have for acknowledgment your letter of the 19th instant and also a letter received by you from Mr. A. E. Peterson, teacher at the above noted school, enclosed therewith. May I refer you to departmental letter dated January 16, 1939, and particularly to clauses (a), (b), and (c) in the last paragraph of that communication. There is nothing on file here to indicate that the Department has received at any time a reply to that letter.

Section 55 of the Civil Service Act reads as follows:-

"No deputy head, officer, clerk or employee in the civil service shall be debarred from voting at any Dominion or provincial election if, under the laws governing the said election, he has the right to vote; but no such deputy head, officer clerk or employee shall engage in partisan work in connection with any such election, or contribute, receive or in any way deal with any money for any party funds.

"2. Any person violating any of the provisions of this section shall be dismissed from the civil service. 1918, c 12, s. 22."

In view of this statutory provision, Civil Servants are prohibited from taking an active part in political campaigns or in the promotion of political organizations. It would appear, therefore, that when Mr. Peterson is officially nominated as candidate for the Provincial Legislature he will be subject to dismissal by this Department. I should state perhaps quite frankly that the officials here have never had before them a case exactly similar to the one presented to us in your letter. It might be argued that distinction should be drawn between Provincial and Dominion politics. I am personally of the opinion, however, that Mr. Peterson by becoming a candidate, regardless of whether he was elected or defeated, would place himself in a very unenviable position. This branch, as you know, works in very close

co-operation -

co-operation with the provincial departments of Education. Provincial public school inspectors inspect all Indian schools in the Dominion, with the exception of Indian schools in the provinces of British Columbia and New Brunswick. The Premier of the province of Alberta is also Minister of Education and the school inspectors work under his direction. I need not pursue this course of reasoning: you can readily reach your own conclusions. Mr. Peterson, in my humble judgment, should either continue as teacher at the Frog Lake school or resign almost at once. Any recommendation from you, after you have discussed the matter with the church authorities, in respect to the man that should take his place, will be acceptable to the Department.

Dear Sir:

On the 24th ultimo the Department received a letter from Inspector Robertson stating that Mr. A. E. Peterson, teacher of the Frog Lake Indian Day School, has accepted nomination to contest a seat in the next Provincial election in the Province of Alberta.

The Department replied to Dr. Robertson by quoting Section 55 of the Civil Service Act which reads as follows:

"2. Any person violating any of the provisions of this section shall be dismissed from the civil service. 1918, c 12, s. 33."

I am now in receipt of a letter from Dr. Robertson's office in which I am advised that he will be absent from duty for some weeks owing to illness.

Please advise Mr. Peterson at once that as soon as he accepts official nomination his employment as teacher of the Frog Lake School will automatically cease and he will be expected to immediately vacate the school property. Possibly Mr. Peterson has already

We received a letter today from Dr. Hill, Agent, Onion Lake, who advises that Mr. Peterson has been spending part of his time among the electors of the constituency, and has Miss Mabel Kinch, an experienced teacher with a first-class certificate, to substitute for him in the class room. Dr. Hill visited the school on February 7th ~~when~~ Miss Kinch was in charge. He states that she appears to be quite capable and apparently good in her teaching activities. He further states that Mr. Peterson will probably be on the road continually from now until the election is over on March 21st. Mrs. Peterson is issuing the old people's rations and is conducting the Homemakers' Club with meetings every two weeks.

Dr. Hill thinks that the work will not suffer, but at the same time, Mr. Peterson is doing this without any authority.

I have the honour to acknowledge receipt of your 115-4-1, of the 13th instant, regarding Mr. A. E. Peterson, Frog Lake Indian Day School teacher.

Upon receipt of your letter I visited Frog Lake, interviewed Mr. Peterson and conveyed your instructions. On January 12th I reported his nomination to Inspector Robertson, and on February 9th made a further report (copy enclosed) to him, to the effect that Mr. Peterson was spending a portion of his time among the electors of his constituency, and had a Miss Kinch, teacher, substituting for him in the class room.

The election will be held on March 21st, and official nominations on March 14th. Mr. Peterson was informed by me that in the event of his accepting the official nomination, that his employment as teacher would automatically cease. Miss Kinch as substitute teacher has been carrying on since February 7th, and Peterson has been absent since that date. She is capable, has a good attendance (an average of almost twenty) and is apparently doing good work. The school is still running as I have taken no action pending instructions from the Inspector or Department.

I have the honour to be,
Sir,
Your obedient servant,

J. T. Hill,
Indian Agent.

Dear Sir:

I am in receipt of your letter of the 20th instant and note that without the approval of this Branch Mr. Peterson, the teacher of the Frog Lake Indian Day School, has absented himself from the school since February 7 last. Before receipt of your letter the salary cheque of Mr. Peterson for the month of February had gone forward but you should immediately inform him that no further salary will be paid to him and that the school should be closed immediately.

I wrote to Dr. Robertson, Inspector of Indian Agencies, on the 13th instant and requested him to get in touch with the authorities of the Church of England with a view to having them nominate a teacher to take charge of this school in the event of Mr. Peterson's leaving. I have not yet heard from Dr. Robertson in this regard but I am writing to him again today.

Dear Sir:-

I have taken this matter up in the securing of a Teacher for the Frog Lake Indian Day School with the Bishop of Edmonton, and am advised today that the Bishop has been ill and confined to the house, and that his Secretary has been able to see him for only a short time.

The Bishop has recommended a party by the name of Mr. Edgar J. Elson, B.A., and the Secretary states that he has to interview the Bishop once more, in order to send us full correspondence regarding the nomination of this man.

The Secretary in his letter wishes us to advise him what salary is paid in this School, and also what is the present status of Mr. Petersen. I note that Mr. Petersen has been getting $1,050.00 per annum, but I would like to have the Department's instructions regarding the salary and upon receipt of same will advise the Bishop.

I regret that this matter has been delayed, but, I believe, tais was due to the fact that the Bishop has been ill for some time.

DIOCESE OF EDMONTON
Bishop
Rt. Rev. Arthur Edward Burgett , M.A., D.D.

Edmonton, April 1, 1940.

Thomas Robertson, Esq.,
Indian Agent,
Regina, Sask.

Dear Sir: Your File No. 309-11.

I sent you a tentative communication on March 29 re Frog Lake school teacher. The next day, March 30, I received a letter from Rev. Canon W. Leversedge, who is Rural Dean of that area, and an enclosure from Dr. J. T. Hill, Indian Agent at Onion Lake. Particulars of Dr. Hill's letter read as follows:

"The man, in addition to his ordinary duties in the class room, is required to teach gardening, vocational and manual training, and his wife to give instruction in domestic science, cooking, sewing and knitting etc., to the girls.

"The Petersons were doing this to our complete satisfaction I am sure Mr. Peterson is available now.....

"I do not know what the Department's attitude would be, but for the good of the Indians on the reserve, I would like very much to see him re-instated, and I think it may be possible."

Rev. Canon Leversedge writes:
"Since I understand that Mr. Peterson consulted the Bishop with reference to his Candidture for a seat in the Legislative Assembly, it would appear to me to be fair that he should be recommended for reappointment, if he is still acceptable to the Department."

These letters put a rather different light on the matter, and I consulted the Bishop again and he says that he is quite willing that Mr. Peterson should resume his duties as he was satisfactory to us. I, therefore, submit his name, with the Bishop's approval to you. It seems to me to carry the immediate advantage of his being immediatley available.

In the meantime, as I said, I was waiting for a little further information re Mr. Elson, and will await you reply to us.

Yours sincerely,

(Signed) G. F. Tackaberry

Secretary-Treasurer.

P.S. I would like to know if Mr. Peterson is still acceptable to you.

Dear Sir:

In view of the necessity of myself and wife remaining on the Reserve during the greater part of the summer holidays, to help and care for the Indians, I am respectfully asking that the Frog Lake Day School open September 1st instead of October 1st. This would to a certain extent compensate me for the extra work performed.

Needless to say, I desire to contribute to the war effort to the limit of my resources, but it should not be expected nor is it fair that I work three months without some remuneration. If the school would open September 1st, as in the past, I would not complain.

This year we have 5½ acres in gardens and 75 acres in crop which needs constant attention and supervision.

Dear Sir:

I am in receipt of your letter of the 6th instant, requesting that the Frog Lake School be operated for a 10 month period during the academic year 1940-41.

Due to conditions at present confronting the country, it was only found possible to provide funds in the current year's appropriation for a 9 month period at each of the Indian day schools throughout Canada. Consequently, you will realize that no exception could be made in the case of the Frog Lake School, and the same conditions prevail at all other Indian day schools. Therefore the school will be in operation only from October 1, 1940, to June 30, 1941.

Dear Sir:

I wish to acknowledge receipt of your letter No. 115-4-1 of the 12th instant advising me that the resignation of Mr. A.E. Peterson, the teacher of the Frog Lake Indian Day School has been accepted.

I have now received a communication from the Church of England Authorities addressed to Mr. Cameron, Clerk in Charge, Onion Lake, which is herewith attached. You will note that they recommend Mrs. Alfred Blower, Onion Lake and it is evidently their intention to have Mr. Blower take over the Church Work which was formerly carried on by Mr. Peterson.

I am also in receipt of a letter from Miss Mabel Kinch of Frog Lake, applying for the position. In her letter she states as follows:

> " I saw Canon Leversedge, at Vermilion, concerning the school and he said he would recommend me to the Bishop".

When I received Miss Kinch's letter I referred her to the Church of England Authorities but I have not as yet heard from them, although I wrote to the Rt. Rev. A.E. Burgett, M.A. D.D., Bishop of Edmonton on September 16th. I am, however, again writing the Bishop today.

The above mentioned applications are the only ones that have been received at this Office and both are herewith attached.

Yours truly,

M. Christianson,
General Superintendent of Agencies.

AIR MAIL

Dear Sir:

I am in receipt of your letter of the 26th ultimo with reference to the teaching services at the Frog Lake Indian Day School.

Present regulations provide that a married woman whose husband is able to support her cannot be employed as teacher of an Indian day school. Under these circumstances the Department is not prepared to approve the appointment of Mrs. Alfred Blower.

Miss Mabel Kinch appears to have the necessary qualifications but her appointment has not been recommended by the Church authorities.

You should again communicate with the Church authorities with a view to ascertaining their wishes in view of the fact that Mrs. Blower cannot be accepted.

Yours truly,

Extract from report of R. Racette, following his inspection of the FROG LAKE Indian Day School, dated June 25, 1943.

Original on 115-4 -6

In the absence of Mr. Hunt, who has been bedridden for the last month, Mrs. Hunt is replacing him and will do so until the end of this term. My inspection was also made difficult by the non-attendance of so many pupils who are reported to be helping their parents. Under the circumstances, I have examined the written work of these six pupils and have observed a few lessons in reading, oral language and number work. It is my intention to visit this school again next October.

My examination of the school register reveals the fact that during the first Quarter of this year only six pupils out of 28 enrolled attended 50% of the days the school operated and about ten reached this percentage during the quarter expiring in March. As a result of this poor attendance and the lack of suitable classroom material the progress of these Indian children is very slow. They speak in mere whispers, are too oftem daydreaming. I consider that until authorities have adopted a special definite curriculum for the Indian schools, have equipped the class-rooms with necessary primary material and above all have enforced compulsory attendance, the results will remain negligible in academic accomplishments. Mrs. Hunt reports that the pupils have cp-operated lately in the making of a garden. The girls also take sewing lessons with the adults.

Ottawa, July 14, 1943.

Mr. Donald H. Cameron, Indian Agent, Onion Lake, Sask.

I have recently received the report of Inspector Racette regarding his inspection of the Frog Lake Indian Day School on June 25th. Apparently, Mr. Hunt was still absent from the school, although I was under the impression, from your letter of May 17, that he would resume duties about May 24. Please let me know his present condition and advise if he will be able to re-open the school on September first.

In reporting on the school, the Inspector writes in part as follows:-

"My examination of the school register reveals the fact that during the first quarter of this year only 8 pupils out of 28 enrolled attended 50% of the days the school operated and about 10 reached this percentage during the quarter ending March 31."

This attendance is very unsatisfactory and suggests that it might be as well to close the school. I would appreciate receiving your comments immediately and if you consider the school should remain open, you should state what steps will be taken to secure a larger and more regular attendance.

Supt. of Welfare & Training.

Regina, August 27, 1943.

REPORT ON FROG LAKE INDIAN DAY SCHOOL

I wish to inform you that while on the Frog Lake Reserve the week before last I visited Mr. and Mrs. O.R. Hunt and had quite a chat with them. Mr. Hunt is the teacher of the Day School on this Reserve and Mrs. Hunt does a great deal to assist him.

This couple, I believe, are doing splendid work on this reservation. Mr. Hunt, as you know, has been ill lately but he was progressing favourably at the time of my visit so I think he will be in shape to open the school on September 1st. However, Dr. Miller of Elk Point was going to Frog Lake to examine him again the week following my visit.

Mid-Day Meal

I was advised by Mr. Hunt that there are from fifteen to twenty-two children attending this school and at the present time they are receiving only $36.00 a year to supply the mid-day meal for these children. He further informed me they often have to take food from their own supply to feed the children. I asked him how much money he required and he stated $10.00 a month. This would be about right. However, we compromised and I said for the present I would recommend $75.00 for the school year, therefore I would ask that this amount be available for the school.

Gardens

As you are probably aware, this band of Indians are very backward and they are still more or less in the primitive state. Mr. and Mrs. Hunt are the first people to come to Frog Lake who are really interested in the work and doing their best not only in the way of teaching but on the reserve in general where they more or less act as farming instructors. There are eighteen gardens on the reserve this year and this is entirely due to their efforts. There is also a community garden at the school which belongs to the Indian women who are members of the Homemakers' Club there. During my visit they were canning the vegetables. I noted in my general report on this Agency that some of the women who would not help with the garden in the Spring were now anxious to get in on the vegetables. Probably next Spring they will show more interest in the Homemakers' club garden.

Home-Makers' Club

They have a good Homemakers' Club on this reserve and a great deal of the military clothing we send them is made into clothing for the children at the school, etc. Personally I cannot speak too highly of the work Mr. and Mrs. Hunt are doing. Besides this, they are good Canadians raised in the Melfort district where their people farm. Mr. Hunt is thirty-seven years of age and Mrs. Hunt is probably around thirty-five. They have four children of their own who attend a white school just outside of the reserve. Mr. and Mrs. Hunt like their work and are very much interested in it. These are the kind of people we want to encourage and make it worth their while to stay in this work.

Milk for Children

Mr. and Mrs. Hunt asked for a cow and if the cow is supplied they will use the milk for the children attending the school and give whatever is over to anyone who is sick on the reserve. You, of course, will realize that just at the present time cows are cows and we will probably have to pay $125.00 for one. Then, of course, there is the feed for the Winter. Mr. Hunt has a stable so there will be no extra expense for this and the cow and feed will cost around $150.00.

Repairs

The well at the school needs cleaning out but this will not be a costly job. A tank is required and also some boards for eavestroughing but I have asked the Agent to send in a requisition for this so our Branch will receive that later.

General

As I mentioned above in this report, Mr. and Mrs. Hunt are doing splendid work but if we are going to keep them at Frog Lake we must encourage them and should the former teacher, Mr. Peterson, who I presume is away on military leave although I have no record to this effect here, want to get back into the Department after the War I do not think he should be sent back to Frog Lake. I am just giving you this as a hint.

I wish to acknowledge receipt of your letter No. 115-4-1, of August 2nd.,past, with reference to the Frog Lake Indian Day School.

On the 28th., of September, I visited this school and found Mr O.R. Hunt teaching. He had resumed duty on Monday the 27th., Mrs Hunt had re-opened the school on September 1st., and substituted for her husband until the 27th.,

There were 18 on the roll and five present at the time of my visit, but the absence of several families away threshing accounted for the low attendance. Every effort will be made to get these children into school as soon as possible, but the Indian always seems to have to take his family with him when he leaves the reserve to work at the harvest.

Frog Lake;

From Onion Lake I went to Frong Lake. As you know, there is not very much farming on this reservation, only 77 acres seeded to Wheat and 9 acres to gardens. The teacher and his wife, Mr. and Mrs. O.R. Hunt, have a splendid community garden with all kinds of vegetables and potatoes. This is looked after by the Indian women and Mr. and Mrs. Hunt deserve a great deal of credit for the effort they have put forth. Mrs. Hunt also carries on a Homemakers' Club and she has the Indians canning vegetables, putting down fruit, making over discharged military clothing, etc. that we furnish to them. In all this lady is carrying on mighty fine work amongst the Indian women.

Education:-

I visited the Onion Lake R.C. Indian Residential School on January 25, February 27 and March 27, Frog Lake Indian Day School on January12 and March 9, and Long Lake Day School on March 7, The building to be used as a class room for the proposed Day School on Onion Lake Reserve, is being re a'red and will be in readiness for school to open May 15th or when the teacher gets here. The C.E. Residential School Farm will be operated by P. Waskawitch, an Indian, this year, who will sow all tillable land to barley and keep the fences in repair. This is considered the best program possible to con'rol the weeds this year. The whole of the cultivated land must be summer fallowed next year. The work this summer will be done with a tractor as P. Waskawitch has just recently acquired one.

General Administration

In the Onion Lake Agency there has been no clerk during the quarter with the exception of Mr. H.C. Hamer for a few days when transferred from the Duck Lake Agency, shortly thereafter being transferred to the Lesser Slave Lake Agency. Mr. F.W. Hunt, the day school teacher at Frog Lake, assisted the Agent with the annuity payments. The vacancy of Clerk is about to be filled by a returned soldier who has the necessary qualifications. Mr. A. Lockhart, Farming Instructor, Onion Lake Reserve, was absent from duty for a considerable time with a broken wrist and is still not able to do any heavy work. The fracture was badly set and he will have to undergo further treatment.

Re: Frog Lake Indian Day School.

I am in receipt of the January report of school attendance at this school and it is noted that for the month, out of an enrolment of 22, only 9 were present for more than 9 days. Six children enrolled did not attend at all; the others were present for less than 6 days.

In practically all cases the reason for absence is given as illness. Do you consider that this is a bona fide excuse? Certainly, no effective work could have been done at this school during the month with such irregular attendance. I would appreciate having your views in the matter.

Under separate cover a letter will probably be written to you concerning the action you have taken in regard to Family Allowances.

I submit the following report on the affairs of this Agency, for the quarter ending June 30th.1946.

Education:- I visited the Onion Lake Residential School regularly during the quarter. This is a good school and well conducted. There are four Indian Day Schools in this Agency-Onion Lake C.E.,Frog Lake C.E. Long Lake R.C. and Big Lake Island R.C..I visited the Onion Lake and Frog Lake Schools every month. Long Lake School was visited in May and in June. Big Island Lake is more remote. However, I visited this school April 9th, May 9th and May 17th. The opening of the "Ministikwan Indian Day School" is under consideration by the Department, and, provided a good teacher is secured, this should be an improvement over present conditions on that Reserve.

Ottawa, April 14, 1924.

[redacted]

Sir,-

The March quarter return of the Frog Lake Indian Day School has been received.

As you are aware, the Department agreed some time ago to allow Mrs. Quinney salary until a new teacher was appointed for this school.

It is noted that Mr. Peterson began duties February 25th, last, and he is being allowed salary, therefore, for one week in February and the month of March at the rate of $800.00 per annum. The amount, therefore, due him is $100.00.

We are allowing Mrs. Quinney payment for the month of January and three weeks in February at the rate of $400.00 per annum. The amount, therefore, due her is $70.00.

The bonus is being paid for the same period; the amount due being $26.25 for Mrs. Quinney and $18.75 for Mr. Peterson. The bonus cheques are enclosed herewith and you should hand them to the respective parties.

The cheques for the salaries will be forwarded to you under separate cover.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Ottawa, February 16, 1928.

Sir:

I have your letter of the 7th instant, relative to the request of Mr. A. E. Peterson, teacher of the Frog Lake Indian Day School, that an increased remuneration be allowed for the extra services being performed by Mrs. Peterson and himself.

In reply I beg to say that the Department will allow an increase in Mr. Peterson's salary as teacher from the 1st of April, next, the beginning of the next fiscal year, of $10 per teaching month. This will make the salary allowed him from that date at the rate of $105 per teaching month. This increase in salary is granted because of the special services mentioned above which he and his wife are giving. Please inform Mr. Peterson of the increase that will be allowed him from the above mentioned date.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Ottawa, February 8, 1933.

Sir:

With reference to official letter dated December 10, 1932, regarding the question of closing the Frog Lake Indian Day School as from June 30th, next, I have now to inform you that a report has been received from Mr. J. T. Hill, Acting Indian Agent, Onion Lake, Sask. He states that there is an enrolment of 12 pupils, with a qualified, capable teacher, who, in addition to teaching duties, performs certain work as farm instructor, distributes relief and attends to other matters in connection with the reserve. He therefore recommends that the school be continued in operation. He is being informed that, in view of his recommendation, the Department will approve of the continuing of school activities there during the coming fiscal year at least, as funds have been provided in our Estimates for teacher's salary and other expenses.

I may add, however, that the Department is considering the closing of the Long Lake Indian Day School, and in this connection you will be further advised.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Dear Sir:-

I note on my salary check for April that the ten per cent increase granted to employees receiving one thousand dollars or less per year has not been included. My salary as teacher of the Frog Lake Indian Day school is $945. per year.

Will you kindly let me know if I come under the increase recently granted to civil servants. I am,

Sir:

With reference to your letter of the 14th instant, I beg to say that the 10% deduction concerns those whose total compensation does not exceed $1,000. In your case, your salary as teacher is at the rate of $1050 a year, and, in addition, you receive $120 a year as dispenser, or a total of $1,170. Under these circumstances, the 10% has to be deducted from your salary.

INDIAN AGENT'S OFFICE,

Onion Lake Sask.

Dec 21st 1914

IN YOUR REPLY REFER TO
No. 49

TO DATE OF THIS LETTER.

Sir,—

I beg to inform you that when I was last at Frog Lake Reserve I called at the little day school that has recently been opened there by the Co[n]f[ederation] mission at Onion Lake with Mrs. Chas Quinney as teacher.

You are aware that this school is being held in a house belonging to one of the Indians and that the institution is not to build a school-house until it is seen how the undertaking, in its present form succeeds.

It was a cold windy day when I called at the school, there were only two children present besides two of the teacher's own children. The only school material in the place was a few torn slates and a primer that was ~~somewhat~~ the worse for ~~child~~ almost used up. There was also a small blackboard that would serve the purpose fairly well but there was no chalk. I told Mrs Quinney to send me a requisition for such things as is required and I now enclose the list received from her. I would recommend that she be authorized to purchase such of these articles as the Department is not in the habit of sending by express or otherwise, with the exception of the blackboard, duster & soap, & there are some old slates at the Co[n]f[ederation] school here which I think can be made good enough to do on the present at Frog Lake, & do not think it would be advisable to buy new slates until it is decided to

build a regular school house. The boats I can safely from Agency about R. With regard to Nisconto I would ask that enough be sent for at least 10 pupils.

The reason of there only being two children at the school on the occasion of my visit was the cold weather. Six were the number then on the roll. two of these live some distance from the school and in order to help us much as possible the teacher has been keeping them with his own family giving them board and lodging from Monday morning until Friday evening and he knows of two children more that would attend on same conditions. The teacher asks that he may be allowed some flour, bacon and tea for these children and he will be quite willing to keep them. I told him that no doubt that could be arranged & I would therefore ask to be authorized to allow him 30 lbs. flour 8 lbs. bacon & 1 lbs. tea per head per month. This arrangement would suit the conditions and ensure a more regular attendance than by engaging an Indian to drive round and gather the children to the school and take them home again.

I enclose the teachers return for the part of the past quarter in which he was teaching in the present house. Hence the reason for the days present and days absent do not give the total of the number of school days.

I am Sir,
Your obedient servant.

Ottawa, January 5, 1915.

Sir,-

99 I have to acknowledge the receipt of your letter of the 21st ultimo in reference to the day sch ool that has been opened at Frog Lake in charge of Mr. Quinney.

In reply I beg to say that you may purchase the axe, broom, chair, combs, looking glass, pail, towelling, wash basin, biscuits and slates asked for. You may have the old desks at the Onion Lake (C.E.) Boarding School referred to in your letter removed to Frog Lake and you may supply the soap from the agency stock. The school material asked for will be ordered from the Government Stationery Office, with the exception of the map of Canada, which will be sent from the Department.

You are also authorized to supply Mr. Quinney with thirty pounds of flour, eight pounds of bacon and one pound of tea per month for each child he keeps in residence.

Your obedient servant,

J. D. McLEAN

Sir,—

With reference to the temporary Day School at Frog Lake reserve, I beg to report as follows:-

During one of my recent visits to the reserve the Indians informed me that they had selected a site for a Day School, and were cutting logs with a view to having a permanent school built.

I told them that when the Department had settled upon establishing a permanent school, a properly planned building would be erected, which would probably be a frame one, but that it was not likely that it would be built in the near future; but that as they had commenced to cut the logs they could continue the work and haul them to the site, and that perhaps the Department would render them some assistance in putting up a building that would be more suitable for a schoolhouse than the one at present in use, but that even it would only be temporary.

The present building is a leanto connected with a good Indian house, which the teacher, Charles Quinney, has rented from Daniel Stanley, one of the Frog Lake Indians. This leanto serves the purpose just at present, but, as Stanley will require it next fall, a temporary building could be put up in the meantime, out of the logs the Indians are providing. There are only eight children on the roll and the attendance has not

been very regular, so that I do not think that there is yet sufficient encouragement to induce the Department to incur the expense of establishing an improved Day School. However; the encouragement is certainly sufficient to warrant a continuation of the present system, and I would like to know if the Department would be willing to defray the expense of completing a log building, i.e. roof, floor, windows, doors, etc., if the Indians put up the walls voluntarily. I estimate that the cost of completing the building would be about $250.00.

Dear Sir -

Referring to your communication of March 25th, last, which was inadvertently overlooked, regarding the school at Frog Lake, I beg to say that the Department has had a communication from His Lordship the Bishop of Saskatchewan, asking that Mr. Charles Quinney be reimbursed for the sums expended by him in the erection of the buildings first occupied for school purposes; secondly, for the lean-to erected by him in connection with the house that he rented; and, thirdly, payment of the rent.

The Department is disposed to pay the rent on the buildings if moderate, and I have to ask you to be good enough to submit vouchers covering the time that it has been in use certified if they meet with your approval. You will also be good enough to advise the Department of the approximate cost of the original buildings and the lean-to in each to Mr. Quinney.

The school returns as they have come to hand are hardly such as to justify the expenditure that would be involved in the erection of a new building. The

the Department would like to have a further report from you dealing with the probable success of the school. Judging by the attendance it would not appear that a day school can be very successfully operated.

TO DATE OF THIS LETTER.

Sir,—

I have the honour to acknowledge the receipt of your letter of 14th July post No. 443.013-1 authorizing me to submit vouchers for the cost of the building at present in use for school purposes at Frog Lake also to advise the Department of the approximate cost of the building and the opening of the school.

With regard to the building at present in use I have to report that the teacher Mr. Charles Quinney agreed with one Cardinal Daniels Standing to pay him $25.00 for the use of his house for one year from Sept 1st 1914 and to this house Mr. Quinney put up a room to which was built of the logs that formed the main part of the original school building. The cost of the altering and repairing of this building is estimated at 6 days work at $1.50 per day. The remaining part of the house the Quinney family occupy as dwelling house, the room is the school room, both serve the purpose very well considering the outlay. Under the circumstances I have included in the vouchers for the year's rent of the house the $9.00 Estimated cost of five days labour and use of team

Invoice and counting the Counts. Full particulars are given on Voucher No. 79 for $34.00 which accompanies this letter.

With regard to the cost of the original buildings I give them to you in the form of a Second Voucher No. 78 amounting to ~~$33.50~~ $33.50. I submit them in this way in case the Department might see fit to reimburse Mr. Lunney for his expenditure.

In my letter of March 25th of last number, I mentioned that the Lease at present rented from Daniel Stanley would be required this fall. However as there is no other building in which to continue the school I have taken the liberty of retaining the House for another year — but $3.00 per month, payable quarterly which action I trust will be satisfactory to the Department.

I do not see any immediate prospect of improved attendance but as other matters are more promising in this reserve than they have been for sometime I hope school matters will follow the same course. Mr Lunney is very anxious to make a success of the school.

The school room is a log addition to Mr.Quinney's dwelling, built of logs with pole and sod roof. Has two windows. Is heated by a box stove and is fairly clean.

The building is altogether [redacted] unsuitable for school purposes. Sufficient logs were got out for a new school house during the winter of 1914-15 but no move has been made toward the erection of a building.

Sir,—

I have the honour to enclose herewith Vouchers No. 82 for $60.00 rent of Cold Lake schoolhouse; No.83 for $81.25 salary of Field Matron at Cold Lake and No.84 for ~~xxxx~~ $27.00 rent of buildings at Frog Lake and Long Lake used for school purposes.

With regard to the building used as a schoolhouse at Frog Lake reserve, the Department is aware that this is the building that is was the intention to purchase from the Indian owner for the sum of $200, before the re-opening of the school, in August last, after the summer holidays; but, owing to delay in getting the band to set apart for school purposes, a plot of land upon which the building is situated, the owner has not yet received payment. My reason in mentioning this is that there is a possibility that the owner of the building, Joseph Delver, may claim rent for the past quarter. The rental previously paid him was $10.00 per month.

Extract from Inspector's Report on the FROG LAKE School. November 24, 1923.

Toilet needs attention.

The building used as a school is in fair repair. Light comes from the south and east. The interior could be made more attractive if plaster were repaired, and painted.

If a school garden could be supplied the pupils could be taught the principals of agriculture more easily.

Ottawa, April 3rd, 1923.

Sir: -

The report of the Public School Inspector who visited the Frog Lake Indian Day School last fall has just been received. In his report he draws attention to the condition of the closet, and also recommends that the plaster be repaired and the interior painted in order to make the classroom more attractive.

I have, therefore, to request that you will arrange to have the closet put in good repair and thoroughly cleaned. Any repairs required to the plaster of the school room should also be attended to, and the interior either painted or kalsomined. No undue expenditure should be incurred in having this work carried out. If the materials were supplied, it might be possible that the teacher would arrange to have the work performed. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred.

The Inspector further recommends that a small school garden should be conducted at the school, in order that the pupils would be taught the principles of agriculture. I shall be pleased if you will furnish a report regarding the suggestion of the Inspector, stating what would be required to put a small plot of ground in condition for gardening purposes, the seeds that would be required, and whether the teacher would undertake the giving of the necessary instruction to the pupils, and the oversight of the work, and the cost involved.

Your early reply will be appreciated, in order that, if it is decided to authorize the work, gardening operations can be commenced as soon as weather conditions permit.

Sir,

I have the honour to acknowledge the receipt of your letters of the 3rd. instant, Nos. 115-3-5 and 115-4-5 in connection with the reports of the Public School Inspector on the Indian Day Schools at Cold Lake and Frog Lake, respectively.

I have just returned from visiting the outlying reserves and whilst at the above mentioned reserves attended to the matters contained in your letters. At Frog Lake Day School I arranged with the teacher, Mr. Chas. Quinney, to have the walls of the interior of the schoolhouse whitewashed, and the doors and windows, etc. painted; and also to put the closet in good repair and condition. It will be necessary to pull down the present closet and build another, using as much as possible of the material of the old one. Mr. Quinney will do the work.

With respect to the school gardens recommended by the Inspector. As these schools are a considerable distance from the Agency and difficult to communicate with; and as, also, no time should be lost if school gardens are to be put in this year with any hope of success; I have arranged that plots be ploughed and harrowed at each school, and have promised to supply the teachers with the necessary vegetable seeds. The teachers at each place are not only willing to give the pupils the necessary instruction, but are enthusiastic about the project.

Feeling that the Department would like the Indian Day School at Long Lake also to have a little school garden, I arranged to have a plot prepared there, also. The work of putting the ground in condition for gardening can be done at very little expense, and the seeds will cost about $5.00 each for Frog Lake and Long Lake, and for Cold Lake $7.00. At Frog Lake and Long Lake a garden can be made within the present school enclosure, but at Cold Lake it will be necessary to build a fence which will cost, approximately, $ 30.00

I estimate that gardens can be made ready and seeded at each school at the following cost :-

Frog Lake -	Ploughing, harrowing & raking	$ 4.00	
	Seeds	5.00	$ 9.00
Long Lake -	Ploughing, harrowing & raking	$ 4.00	
	Seeds	5.00	9.00
Cold Lake -	Ploughing, harrowing & raking	$ 8.00	
	Seeds	7.00	
	Fencing	30.00	45.00

About one-quarter acre gardens would be made at Frog Lake and Long Lake, and half an acre at Cold Lake.

Trusting the Department will approve of my action and authorise the expenditure for this purpose.

I have the honour to be

Sir:

I have to acknowledge receipt of your letter of the 24th ultimo, reporting on your recent visit to the Frog Lake, Long Lake and Cold Lake Indian Day Schools, and informing the Department of the action taken by you in having gardens conducted at each of these schools.

In reply I beg to say that the Department approves of the instructions which you gave to have the necessary ploughing and harrowing done at each of these schools and to have the teachers supplied with vegetable seeds. It is noted that about one quarter acre will be placed in garden at Frog Lake and Long Lake and one half acre at Cold Lake. You should forward properly certified vouchers, in duplicate, for each of these schools, separately, covering the cost of the ploughing, harrowing and seeds.

It is noted that you have authorised fencing at Cold Lake. Accounts should be forwarded covering the expenditure incurred for this purpose, also covering any material supplied the teacher at Frog Lake for painting and whitewashing the interior of the school and for putting the closet in good repair and condition. We hope that the teachers and pupils will meet with success in their gardening operations during the coming summer.

Extract from Inspector's Report on the FROG LAKE SCHOOL? September 4, 1923.

Water supply is not good and it is doubtful if it is sanitary. A well should be dug.

The desks in this school are poor and an additional number are needed. This school is not supplied with the ordinary school necessities supplied in other schools. A large sponge should be supplied and its use enforced for slate cleaning.

There is no teacher's desk and the general arrangement of school furniture should be changed. The latter recommendation was made to the teacher direct.

Sir:

The Public School Inspector, in a report on his recent inspection of the Frog Lake Indian Day School, recommends that a well be dug. He states that the present water supply is not good, and it is doubtful if it is sanitary. He also recommends that an additional number of desks be supplied, as the ones at present in use are in poor condition, and that a teacher's desk and chair be supplied.

I have to request that you will furnish a report regarding the water supply, and whether you would recommend that a well be dug. If so, you should state how the work should be carried out, and the approximate cost of the same, and, if possible, state the depth required in order to obtain a good supply of water.

Regarding the desks, please state the kind at present in the school, whether double or single, and the name of the manufacturer. If you recommend that new desks be supplied, you should state the size and number of each size required, also whether you would advise that a teacher's desk and chair be purchased. Full shipping directions should be given if desks are necessary.

Sir,—

I have the honour to refer to your letter of October 19 last, No.115-4-5, and to inform the Department that the matters referred to therein would have been dealt with long ere this but for the illness, and death, of the late teacher at the Frog Lake Indian Day School, and the consequent closing of that school until quite recently.

The seating and desk equipment at this school is very poor. There are four very old double desks, of what make I cannot ascertain, but they are somewhat similar to the "Preston" desks; they were discarded by the Onion Lake (C/E) Residential School two years ago; and two tables and four forms all about six feet long. These comprise the total seating and desk equipment. I would recommend that this school be supplied with six new double desks, three medium and three large size. If these are supplied and the four old ones are painted (this I have asked the teacher and he has consented to do) this school will have ample desk accommodation.

With respect to the water supply. This is taken from a body of water close to the school, which can only be described as a large slough. I would ask for authority to have a well dug and cribbed, and feel sure that a plentiful supply of water can be secured at a depth of not more than 20 feet. The cost would be, approximately, as follows :-

Labour, digging well, making cribbing and installing pump.	$ 30.00
Lumber for cribbing	10.00
Pump and piping	35.00
Total	$ 75.00

This work cannot be done for probably two months, owing to the ground being frozen. In the meantime I would ask for authority to purchase a 4 gallon stone water filter for both Frog Lake and Long Lake Indian Day schools. These can be purchased from "Christie's" at Brandon, Man., or The Western School Supply Co., Regina, Sask. at $16.50 each. The supply and use of a filter would, I believe, eliminate a lot of the danger to the pupils from drinking impure water.

Ottawa, March 24th, 1924.

Sir:

I have to acknowledge receipt of your letter of the 14th instant, regarding the seating equipment and the well required at the Frog Lake Indian Day School.

With reference to the desks, I beg to say that you may arrange for the purchase and delivery of 6 double school desks of the sizes required. It will be necessary for you to obtain competitive prices, and you should ask for quotations from the following firms, in addition to any others you may wish, viz: -

Western School Supply Co,	
140½ Rose St.,	Regina, Sask.,
Christie School Supply Co.,	Brandon, Man.,
E. N. Moyer Co. Ltd.,	Edmonton, Alta.,
Western Seating Co.,	
179 Bannatyne Ave., E.,	Winnipeg, Man.

You should request the above firms to quote a price F.O.B. the nearest railway station to the school, and you should place the order with the firm quoting the lowest price. Accounts, in duplicate, should be obtained from the firm supplying the desks, which you should certify and send to the Department for payment. The old desks in the school should be painted. It is noted that the teacher has consented to do this work.

Regarding the water supply, I beg to say that you may arrange, when conditions permit, to have a well dug and cribbed. It is hoped that the cost of this work will not exceed your estimate of approximately $75 for the labour and material required. You should arrange to have the work done at the lowest possible cost, having in view the obtaining of a good and regular supply of water.

You may arrange for the purchase and delivery of a 4 gallon stone water filter for both the Frog Lake and Long Lake Indian Day Schools. You should obtain competitive prices for the delivery of the filters from the same firms and at the same time as you are asking for quotations for the desks.

COMMISSIONER'S OFFICE,
REGINA, SASK., July 10th, 1924.

R

Sir:-

I beg to forward herewith a report of the Provincial School Inspector, Crispo, on the Frog Lake Day School in the Onion Lake Agency.

You will note that since the installation of the new teacher, Mr. A. E. Peterson, the attendance at the school has improved, the methods of Mr. Peterson having resulted in interesting his pupils, an evidence of the success which can be achieved by the use of proper methods.

The Inspector refers to the necessity of painting, both the exterior and interior of the building, and providing for better lighting. I note that the Agent made provision for painting in his estimates, and I am communicating with him to ascertain if the amount which he asked for will be sufficient, and asking him to offer his suggestions in regard to securing better lighting.

Sir:

I have your No. 309-11 of the 10th instant, enclosing the report of the Provincial School Inspector on his inspection of the Frog Lake Indian Day School. The Department is pleased to note that there is a marked improvement at this school, both in attendance and in the results achieved in the classroom under the charge of the new teacher, Mr. A. E. Peterson.

Regarding the painting of the interior and exterior of the building and providing for better lighting, I have to say that we will await the report which you have requested the agent to furnish, relative to the cost of the painting and his suggestions in regard to securing better lighting. As soon as this information is received, consideration will be given to having the painting, etc., authorized.

R

Sir,—

I have the honour to report that the Rev: E. Ahenakew, Church of England Missionary at this Agency, came to see me this morning with reference to the Frog Lake Indian Day School, which is conducted under the auspices of the Church of England.

I should explain that a new log church is being erected by Mr. Ahenakew on the Frog Lake Indian reserve, and is nearly completed. The object of Mr. Ahenakew's visit to me was to point out that the building now used as a Day School at Frog Lake is not large enough to accommodate all the pupils now attending and to offer the use of the new church for that purpose.

The size of the present school building is about 18'x 18'. The size of the new church is about 20'x 24'. This latter, however, can easily be enlarged by lengthening the building with logs to 32'x 24'. This could be done for about $100.00, which amount I placed in estimates to paint and repair the present schoolhouse; this amount could be diverted to the new project. In addition to this it would be necessary to build two outhouses at a cost of about $15.00 each, and also to dig and crib a well, which could be done at a cost of about $40.00. We have a pump and piping on hand which was purchased for the present school but not yet installed; this could be used for the new well if necessary.

If the present good attendance at the Day School continues it will be necessary to provide more accommodation. The average for last quarter was 15.19, and on the occasion of one of my visits to the school 22 pupils were present.

I feel that the history of the attendance at this school during the past few years has not been such as to justify me in recommending a change to larger quarters with any great degree of enthusiasm, but as the change would not cause the Department any great expense, and as also I believe the site of the new church to be a better one for the school children than the present one, I would recommend that the offer of Revt. E. Ahenakew be accepted.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

Sir:

I have your letter of the 14th instant, with reference to the request made by the Anglican Missionary on the Frog Lake Reserve, to utilise for school purposes the new log church building which is being erected, by building an addition. In reply I have to say that the Department does not feel disposed to carry out this arrangement. We cannot undertake to incur any expenditure on a building which is not the property of the Government. If the present good attendance is maintained during the coming school year, the question of erecting a suitable building for school purposes will receive consideration.

Regarding the painting of the interior and exterior of the present school building, I may say that the Public School Inspector, in a report on his inspection of this school, drew attention to the need of having this painting done and to the need of providing better lighting. Mr. Commissioner Graham stated that he had requested you to report relative to the cost of the painting and to furnish a recommendation in regard to securing better light. You should furnish this information to the Commissioner.

Further with reference to the Provincial School Inspector's report on the Fred Lake Indian Day School, and Department letter #115-4-5 of the 16th instant, I beg to state that the Indian Agent, Mr. Lang Tarrer, informs me that the cost of painting the interior and exterior of the school will be about $70.00.

He states also that the addition of two full size extra windows and the making of the necessary openings would cost approximately $25.00.

He points out also the desirability of providing a new platform at the entrance to the school, which can be satisfactorily done at an expenditure of $20.00. I would recommend therefore that authority be granted to proceed with these repairs and changes.

I have your No. 309-11A of the 26th ultimo, furnishing an estimate of the cost of the painting of the interior and exterior of the Frog Lake Indian Day School, also the cost of providing better lighting facilities.

In reply I beg to say that you may arrange with the Indian Agent, Mr. Lang Turner, to have the painting of the interior and exterior of the building carried out, also for the installation of 2 full sized extra windows, and the building of a new platform at the entrance to the school. We note that the Agent estimates the cost of the above work to be approximately $125. The Agent should forward properly certified vouchers, in duplicate, covering the expenditure incurred in the purchase of any material and for the labour in carrying out the above authorized work. If possible, the above work should be completed during the present summer holidays.

COMMISSIONER'S OFFICE,

R

Sir:

I beg to inform you that I am in receipt of a letter from Indian Agent, Lang Turner, in which he informs me that the present Anglican Day School on the Frog Lake reserve is too small to accommodate the number of pupils attending. The last quarter shows an average attendance of 15.19.

Mr. Turner informs me that the missionary Mr. Ahenakew, is erecting a church on this reserve and has offered to use it as a school. The church that is being erected is 20' x 24'. He is willing however, to extend this building to 32'x24' if he can get a grant of $100 from the Department. In looking over the estimates it is noted that $100.00 was asked for for repairs to the school, and it seems to me that a grant of $100.00 to Mr. Ahenakew to apply on his combination church and school would be much better than to spend this amount on the present school building.

If this authority is granted a further amount of $30 will be needed for closets, and $40 for the cribbing of a well. It is pointed out that they have a good pump.

I would be glad to have your authority to act in this matter.

December 1st, ...19 24

Sir,—

I have the honour to enclose herewith Voucher No. 133, amounting to $74.55, in favour of Mr. Charles Hood, of Elk Point, Alberta, and to make the following explanations.

Those items charged under Vote 7, were all purchased for the new Indian Day School on the Long Lake reserve and were very necessary. With respect to the items charged under Vote No. 11, all but the last few small items were required for the Waterous Steam engine on the Long Lake reserve. On September 12th, I received a telegram from Mr. Stephenson, farm instructor, Long Lake reserve, informing me that the Provincial Boiler inspector had inspected the engine and had ordered several ~~items~~ repairs to be made before the engine could be used. Mr. Stephenson asked for authority to purchase the necessary repairs, which I gave him. The engine was then fixed up and the threshing for that reserve completed.

Sir,—

I have the honour to enclose herewith Voucher No. 136, amounting to $195.85 in my favour, for cash expended on addition and repairs to the Anglican church building on the Frog Lake reserve, to make it suitable for use as an Indian Day School; and to offer the following explanations.

On October 22nd. I accompanied the Rev: E. Ahenakew, Indian Missionary, to the Frog Lake reserve, taking with me Mr. E. Retherham, a handy man of this district, who was to work as carpenter and to supervise the alterations to the church building. Mr. Ahenakew stayed with Mr. Retherham for ten days and worked at the building himself; he also hired some Indians to work at it, paying them from funds which he had received from the church authorities that purpose. Mr. Ahenakew then left this Agency to visit Battleford reserves, but before leaving he handed over to me the balance of the money he had on hand to be expended on the building, which amounted to $ 25.85. This amount together with that of accountable cheque No.3735 for $170.00, a total of $ 195.85, is accounted for in the attached Voucher. These added amounts proved insufficient to complete the work and Voucher No.137 for $20.00, in favour of Mr. A. Peterson, the school teacher, is also enclosed.

The building has been converted into a fine roomy school and is now being used as such. I visited this building on November 28th. and although 20 pupils were then present the schoolroom could hold many more. The present floor space is 20 by 30 feet. It will be necessary to purchase blinds for the windows; these, however, are inexpensive and will be purchased by me on my next visit to Lloydminster, our nearest town.

In perusing the Voucher it will be noticed that some of the items in Rahall, Bros. account are provisions. These were purchased by Rev: E. Ahenakew for Indians employed at work on the school.

Extract for 115-4-5

EXTRACT FROM INSPECTOR'S REPORT ON THE FROG LAKE SCHOOL. MAY 7, 1925.

The local church, property of the Church of England, is used as a school. This building is larger and much better lighted than that previously used. Four windows east and two west supply light. The ventilation is good. The building will need extra repairs to make it suitable for winter use.

The well is in need of attention.

The general tone of this school has been raised appreciably. A garden is being prepared which will give the teacher some opportunity of teaching agriculture in a practical way. If possible extra teaching along the lines of manual arts for boys and household science for girls should be provided.

A house some ten yards from the school could after considerable repair be taken over by the teacher as a residence from which point the work of the school could be better supervised and the services of Mrs. Peterson could be enlisted in the teaching of the elements of domestic science and of sewing to the girls attending. The preparation of the lunch could then also be prepared outside of the school room an obvious drawback at present.

Ottawa, June 18th, 1925.

Sir:

Public School Inspector Crispo, in a report on his inspection of the Frog Lake Indian Day School, draws attention to the condition of the well, which he states is in need of attention. He also states that there is a house some 10 yards from the school which could, after considerable repair, be used by the teacher as a residence, from which point the work of the school could be better supervised, and the services of the teacher's wife enlisted in the teaching of domestic science and sewing to the girls, and for the preparation of the midday lunch.

Fwth action on this file

I shall be pleased if you will arrange to have any repairs required to the well carried out, also to have your views as to whether you would recommend that the repairs suggested by the Inspector be made to the house referred to, and, if so, the approximate cost of having the work done.

Sir:

Referring to your #115-4-5 with reference to the condition of Frog Lake Day School, I am advised that this building is a log one with a shingle roof and requires the following repairs:

SCHOOLS BRANCH
JUL - 1925

The roof and gable ends should be ceiled in and six storm windows and one storm door furnished. The approximate cost of the material and labour will be $90.00.

The well at the school is close to a slough and the water tastes of it and a new well should be dug at a probable cost of about $20.00.

With regard to the house which it is suggested should be used by the teacher, it appears that this was purchased this spring by the teacher, Mr. A.G. Peterson, for the reason that he lives four miles from the school and last winter found it a difficult matter to have the school warm enough by the time the children arrived. It was moved and taken down to the school, and walls and rafters erected at Mr. Peterson's expense. This involved an outlay of $35.00. To complete it and

make it

make it habitable an expenditure of about $180.00 would be required, and if the Department will agree to purchase the cottage and make it habitable the total cost would be about $275.00.

I understand that the teachers wife would be quite willing to teach the children domestic science and sewing and prepare the mid-day meal.

I will await the sanction of the Department before any further steps are taken to repair the school building.

Dear Mr. Graham:

I beg to submit the following report in connection with a visit which I made to the Schools in the Onion Lake Agency:

FROG LAKE DAY SCHOOL.

I visited this school on Sept. 6th. Since my last visit a teacher's residence has been built in close proximity to the school and this increases his efficiency as before this building was provided the teacher had to drive several miles morning and evening to and from the school. There were present 5 girls and 2 boys out of an enrolment of 20 pupils. The attendance at this school is rather intermittent owing to the parents living a nomadic life through hunting, trapping and working out for settlers being their chief source of livelihood. The pupils in attendance were clean, and well dressed.

The school is a log building with a small chancel at one end, and is used for Church purposes on Sundays. The walls are whitewashed and the V. joint ceiling is painted. A mid-day meal is served to the children in the school room. It would be much better and more conducive to tidiness in the school if a small dining room were attached to the building for this purpose.

Sir:

The Public School Inspector, in a report on his recent inspection of the Frog Lake Indian Day School, states that 6 links of stove pipe and 6 yards of towelling are required, also that a cupboard should be provided in which to store the supplies used for serving the midday meal. The Inspector also states that by furnishing the proper supplies, sewing could be taught with benefit.

You may arrange to purchase and supply the stove pipe and towelling, also a small supply of material to be used by the teacher in the teaching of sewing to the girls.

If you can arrange to have an inexpensive cupboard built locally, of a type that would be suitable for the storing of the supplies for the midday meal, you may purchase the material and arrange for the labour in having the cupboard built. No unnecessary expense should be incurred for this purpose.

The Inspector further recommends that a flag and some playground equipment be supplied. We will forward a flag to you for this school.

Relative to the playground equipment, I shall be pleased if you will draw this to the attention of the Department early next spring, when consideration will be given to supplying the same.

Travelling Nurse Colvin, in a report on her visit to the Frog Lake Indian Day School, states that the school has no container for drinking water. She also recommends that some towelling, tooth brushes and soap be supplied.

You may arrange for the purchase and delivery of a covered water container with faucet, and, if drinking cups are required, you may supply 6 graniteware cups. The water container, while serviceable for the purpose, should be as inexpensive as possible.

Relative to the towelling, I would refer you to official letter of November 17th, last, in which you were authorized to purchase 6 yards. If you have not already supplied same, you should make the purchase as soon as possible, and also, at the same time, purchase a small quantity of toilet soap, which you should have forwarded to the teacher.

Please advise the number of tooth brushes that should be supplied, and the same will be forwarded from the stock of these articles on hand in the Department.

I shall be pleased to hear as to what action you have taken in regard to the supplying of a cupboard, as authorized in official letter of November 17th, last, and also to advise you not to overlook the drawing of the attention of the Department to the providing of playground equipment early this coming spring.

You should forward certified accounts in the usual manner covering the expenditure incurred in the purchase of the above authorized supplies.

SCHOOLS BRANCH
APR 5 1927

Referring to your letters of November 17th. last, and of the 3rd, instant, No. 115-4-5, respecting the Frog Lake Indian Day School, I have to report that the former was attended to insofar as the stovepipes and ~~xxxxx~~ towelling was supplied, also material for teaching sewing to the girls. A flag was also sent by the Department and given to the school.

With respect to the cupboard for the storing of supplies for the midday meal, I arranged with a handy man on the reserve to make a suitable cupboard, but he has neglected to do so, and I have now arranged with the teacher, Mr. A. Peterson, to do this work in his spare time, and feel sure that he will make a suitable cupboard. I have ordered a water container, drinking cups and toilet soap from the Western School Supply Co. Ltd., of Regina. Regarding tooth brushes, about 18 are actually required, but I would ask to be supplied with six dozen, to enable me to replenish the used ones from time to time.

With respect to playground equipment, I would suggest that I may be authorized to fence in a small plot of land around the schoolhouse as a playground and to erect a suitable swing for the girls, double, with cement foundation, and a seesaw for the boys. The boys should also be furnished with a football. The approximate cost of this would be.

Fencing	$50.00
Swings	35.00
Seesaw	20.00
Football	7.00
	$112.00

I would be glad to have the authority of the Department to incur this expenditure.

Whilst on the subject of the Frog Lake Day School, I would respectfulyy draw the attention of the Department to the fact that this is the only Day School in this Agency, where the wife of the teacher does not receive any renumeration for teaching sewing to the girls, and preparing the midday meal. Mrs.Peterson, the wife of the Frog Lake teacher does this work unpaid, but she should receive some small return for her services. I placed an item of $150.00 in 1927-1928 Estimates to cover this, and would be glad if the Department can allow it.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

Ottawa, April 5th, 1927.

Sir:

I have your letter of the 28th ultimo, relative to the Frog Lake Indian Day School. In this connection it is noted that you have arranged to have a cupboard built, also that you have ordered a water container, drinking cups, toilet soap, towelling and stovepipes.

The Department is forwarding to you 6 dozen tooth brushes, and you might divide these up for the use of the pupils of the Frog Lake and Long Lake Schools.

We are placing an order here for a football for this school, which will be sent to the teacher.

Relative to the fencing and playground equipment which you recommend be supplied, I beg to say that the Department will approve of an expenditure of approximately $105 in the fencing of a small plot of land around the schoolhouse as a playground, and for the erection of a suitable swing for the girls, double, with cement foundation, and a seesaw for the boys. You should endeavour to have this work done at the lowest possible cost, and, when completed, you should forward properly certified vouchers in the usual manner covering the expenditure incurred.

Relative to the granting of remuneration to Mrs. Peterson for her services in teaching sewing and preparing the midday meal, I beg to say that you will be further advised in a separate communication.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Sir,—

I have the honour to enclose herewith Vouchers No. 45, 46 and 48, amounting to $ 22.80, $ 6.50 and $ 70.25 respectively, for expenses in connection with the making and erection of playground equipment, and fencing in about two acres, at the Frog Lake Indian Day School.

A good job has been made of this work, and when I visited the school yesterday it was very pleasing to see the children enjoying themselves at recess, the girls swinging and the boys playing seesaw, etc. I feel sure that this playground equipment will have a beneficial effect on the attendance at the school, besides being a source of great enjoyment to the children.

FROG LAKE DAY SCHOOL.

I visited this school on March the 13th and found 3 boys and 3 girls present, out of an enrollment of 13. This is quite discouraging and I spoke strongly to the parents on the matter, pointing out to them that if they were interested in keeping their school open they would have to see that the children attended regularly, or they might lose their school. This apparently had some effect for the time being, as it was noted that there were ten children at school the following morning before I left. The school building is built with log walls and shingle roof, the chinks being plastered with mud. The building is white-washed outside and kalsomined inside. The mud shells off and it is hard to keep it looking decent. I found the school clean. There is no mid-day meal provided. The children receive two biscuits each per day. The parents put up a strong plea that a bowl of soup be provided for their children. They are very poor and I am sure that the children come to school hungry very often. The teacher informs me that the Agent has, at times, sent out a small quantity of beef and when he has been able to provide soup the attendance has shown a noticeable improvement. The teacher has a small garden and should be provided the means of fencing it. I brought several matters, of minor repairs required, to the attention of the Agent who will be able to have them carried out without incurring any expense.

Mr. A. E. Peterson, the teacher, appears to be quite capable and a man of good common sense. His presence on the reserve has a good influence and he is o

Re: Sask., April 10, 1923.

Dear Mr. Scott:

I am enclosing herewith Inspector Murison's report on the various schools in the Onion Lake Agency. The report is very complete and the Inspector has gone into matters very thoroughly.

x x x

The attendance at the Frog Lake Day School has not been good. This school also should be plastered with lime and sand during the coming summer. You will note that there is not much of a midday meal being provided here and I think we might meet the request of the parents and see that a certain amount of meat, etc. is provided so that the children could have a bowl of soup at midday, especially during the winter months, and for the year round we might send a supply of Dri-milk to this school. Dri-Milk is very palatable and just as good as the other milk and the cost would be very small.

Sirs

Referring to that portion of your No. 309-11 of the 10th instant, relative to Mr. Inspector Murison's report on his visit to the Frog Lake Indian Day School, I beg to say, with reference to the midday meal supplied the pupils, that you may arrange to purchase and forward the quantity of Dri-Milk considered necessary. A reasonable quantity of meat, etc., may be supplied, in order that the children can have a bowl of soup at midday during the winter months. You may arrange with Mr. Agent Turner to see that a small quantity of meat suitable for the making of soup is supplied the teacher from time to time, and he should forward accounts, in duplicate, covering the cost.

EXTRACT FROM REPORT OF MR. INSPECTOR CRISPO, dated September 25th, 1928, on his inspection of the FROG LAKE Indian Day School.

Original on File 115-4-6.

School - property of Anglican Church. Fair building, rather draughty and in need of repair for winter use. The walls need cleaning and floor should be oiled. The teacher's house is fair.

Sewing and knitting could be taught if materials were supplied. A better school garden is needed. This might provide vegetables for school lunch.

Place is needed for lunch equipment.

Sir:

The Public School Inspector, in a report on his inspection of the Frog Lake Indian Day School, states that the building, while in fair condition, is rather draughty and in need of repair for winter use. He also states that the walls should be cleaned and the floor oiled.

Please arrange to have any repairs required carried out in order to place this building in as comfortable a condition as possible for the coming winter. You may also arrange to have the walls cleaned and the floor oiled. No unnecessary expense should be incurred in having this work done.

The Inspector further states that sewing and knitting could be taught if materials were supplied. If you will have the teacher prepare and forward, through your office, a requisition for the materials required for the purpose, consideration will then be given to authorizing the supplying of same. You should give this matter your early attention.

The Inspector also remarks that a place is needed for the equipment used in serving the midday lunch. It is thought that the teacher could arrange for a proper place in which to store the equipment used in the serving of the lunch, and you should draw this matter to his attention.

Sir,

With reference to your letter of the 22nd.ult. I have the honour to inform you that I have undertaken the work of having the Frog Lake Indian Day School repaired and put in order for the winter, and have obtained from Mr. A.E.Peterson, the teacher, a list of sewing and knitting materials required to enable sewing and knitting to be taught the pupils at that school.

The yarn and knitting needles can be supplied from our storehouse, a sufficient quantity of flannelette, serge and galatea can be purchased locally at a cost of, approximately $ 15.00. The weaving mats, sewing cards and silkeine I would ask the Department to kindly mail me, as these supplies cannot be procured locally. The average attendance at this school is about nine daily.

INSPECTION REPORT ON SCHOOLS, ONION LAKE AGENCY.

Dear Mr. Graham,-

x x x

FROG LAKE INDIAN DAY SCHOOL.

I visited the Frog Lake Day School on the afternoon of the 18th of October. There are 17 enrolled at this school, 10 boys and 7 girls; of these 7 boys and 6 girls were present. The attendance at this school has been better since my last visit, but there is still a great deal of room for improvement.

Since my last visit the teacher has been supplied with Drimilk during the summer months. He states that the children are not very partial to it, but they like it when boiled with rice and they have been giving it to them in this manner. This will be substituted on November 1st and during the winter months with a warm bowl of soup and tea. There is no doubt that the providing of this inexpensive meal is a great boon to the children.

The children are required to clean themselves up when they come to the school and they had adequate clothing for the season.

I reported on the condition of the school building last year. The conditions are practically the same only the school does not present so good an appearance as in the winter time as the rains had washed the mud off in streaks. Both the teacher's residence and the school are log buildings and are plastered with mud. It is hard to keep the buildings in repair and I would suggest that a small addition to the house be allowed for a summer kitchen and storage. The total cost of these repairs should not exceed $150.00.

The teacher has a small garden which was fairly good this year.

Mr. A. E. Peterson is still holding the position of teacher. He appears to be a man of good common sense and has practical experience, apart from his teaching ability, in western farming. His presence on the reserve has a good influence, but his authority over the Indians is, of course, very limited.

Dear Mr. Scott,-

The teacher's residence at Frog Lake might be improved but it seems to me that nothing much can be done to make it more habitable.

Sir:

Mr. Inspector Murison, in a report on his recent inspection of the Frog Lake Indian Day School, states as follows regarding the condition of the school building and teacher's residence:

> "I reported on the condition of the school building last year. The conditions are practically the same only the school does not present so good an appearance as in the winter time as the rains had washed the mud off in streaks. Both the teacher's residence and the school are log buildings and are plastered with mud. It is hard to keep the buildings in repair and I would suggest that a small addition to the house be allowed for a summer kitchen and storage. The total cost of these repairs should not exceed $150."

It is, no doubt, too late this season to undertake the erection of a small addition and to carry out the other recommendations of the Inspector. You should [illegible] this matter to the attention of the Department early next spring, giving full information as to the work you would recommend be performed and particulars as to the erection of a small addition to the house to be used as a summer kitchen and for storage purposes. An estimate of the cost of any work recommended by you should also be given.

Sir,

In my Estimates for 1929-30 I have placed an item of $260.00 for the purpose of erecting a small building at the Frog Lake Indian Day School, where the children's lunches could be cooked and eaten. It has since occurred to me that if we removed the old Indian Day School, situated about two miles from the present one, it would be very suitable for this purpose. It is in very fair condition, is a one and one-half story lumber building, 20 x 18 feet in size.

This building can be removed and placed at the present Day School site for, I believe, an amount not exceeding $100.00, but should be done this winter, on sleighs. Then, next spring, it could be made fit for use at very little additional expense. I would ask the Department's consideration of this matter.

If the Department decided to authorize me to have this well made for the Long Lake School, it might be well to consider having one made at the same time for the Frog Lake Day School. This school has never had an adequate water supply, although several shallow wells have been dug there. I believe that the cost of a well for this school would be, approximately, the same as that for the Long Lake School.

I have your letter of the 29th ultimo, giving an estimate of the cost of boring a well for the use of the Long Lake Indian Day School.

In reply I have to say that the Department will approve of your arranging for the well boring outfit mentioned by you to bore a well at this school. We note that the approximate cost, including cribbing, will be approximately $225, depending on the depth to which the well will have to be bored. You may also arrange for the purchase and installation of a pump of a suitable type, if same is required, and you should see that the well is satisfactorily completed in all respects and that there is an ample supply of water for school use.

Relative to the boring of a well by the same outfit, and at the same cost, at the Frog Lake Indian Day School, I have to say that the Department will also approve of your arranging to have a well bored at this school. It is hoped that it will not be necessary to expend any larger amount in having the work done at this school than at the Long Lake School. You may also arrange for the purchase and installation of a pump, if same is required.

The Department will leave the matter of having the wells satisfactorily completed at both the above schools in your hands to have the work carried out at the lowest possible expense, and after these wells have been bored, you should forward accounts, in duplicate, covering the expenditure incurred for each school separately.

Dear Doctor Scott:-

Re School Building - Frog Lake

In reference to our conversation in your office yesterday morning, on the above matter, I beg now to submit to you the substance of Bishop Gray's letter to me of the 7th ult.

Bishop Gray states that he considers the need of a new school building important. The present log building is very inadequate and in bad repair and does not tend to increase the average attendance. It is possible that his successor in the Bishopric may move to build a new church, in which case the building might not be available for school purposes.

I have reported to the Bishop the result of our conference yesterday.

Ypurs very truly,

Sir,

I have the honour to refer to my estimates, for the current year, for Indian Day Schools, and to ask that authority may be granted me to have the necessary repairs, enumerated on page 16, made. These are as follows:-

Frog Lake Day School		
Kalsomining and painting	$ 40.00	
Screen windows and doors	21.50	
Plank platform	30.00	$ 91.50
Ministikwan Day School		
Plastering logs at schoolhouse and teacher's residence	$ 70.00	
Water filter	15.00	85.00
		$176.50

Estimates 118-7-5

I would also ask that a cheque for $ 280.00 be mailed me for firewood for Day Schools:

Frog Lake Day School	$ 70.00

Ottawa, May 21, 1931.

Sir:

I have your letter of the 12th instant, requesting authority to purchase the materials required for repairs at the Frog Lake and Ministikwan Indian Day Schools.

In reply I have to say that our Estimates for the current fiscal year were considerably cut and unless it is absolutely necessary that the kalsomining and painting and erection of a plank platform at the Frog Lake Day School, and the plastering of the school house and teacher's residence at the Ministikwan Day School, are urgently required, the Department would be unable to authorize having this work done this year. You might advise the Department as to the necessity for the above work at each of these schools.

You may arrange to purchase and supply screen windows and doors for the Frog Lake School. It is noted that you estimate the cost to be $21.50.

Regarding the supplying of a water filter for the Ministikwan Day School, the Department will approve of you arranging for the purchase of same at a cost not to exceed your estimate of $15.

After the above purchases have been made, you should forward itemized accounts, in duplicate, properly certified, covering the expenditure incurred for each school separately.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

FROG LAKE DAY SCHOOL.

I visited this school on the 30th of April, and found 8 pupils present out of an enrolment of 13. The average attendance for the month was 8. It appears that 6 of the pupils are fairly regular in their attendance, but the attendance of the balance is very irregular owing to their parents leaving the reserve frequently. The children who are attending regularly are making good progress.

The school is a log building, and appears to be fairly comfortable; I found both the classroom and the pupils clean. They have a teeter and a football for recreations. A mid-day meal is given to the children. I noted an improvement in the teacher's residence; the downstairs part of which has been lined with plaster board and painted. The upstairs has not been completed as there was not sufficient funds available.

Mr. A. E. Peterson, the teacher, is well qualified for his position. He also supervises the Indians on the reserve, and keeps the Agent informed regarding their activities. He is a very useful man, and a good influence on the reserve. W. Munson

Ottawa, December 28, 1932.

Sir,-

The Department is in receipt of your Vouchers 233 and 234, covering the cost of beef supplied to the Frog Lake and Long Lake Indian Day Schools during the months of November and December. It is noted that you do not quote any authority for this expenditure. It is presumed that the beef is being used for midday meal purposes. Please advise if you consider the quantity used is absolutely necessary or would a smaller quantity fill the purpose. Our funds are limited and it is necessary to keep all expenditure as low as possible.

Further consideration will be given to this matter when your reply is received.

Your obedient servant,

A. F. MacKenzie.

Sir:

The Provincial School Inspector, in a report on his recent inspection of the Frog Lake Indian Day School, recommends that certain equipment be supplied. You may arrange for the purchase and delivery of a covered water cooler, 6 plates, a few forks, knives and spoons, and the quantity of soap and towelling considered necessary.

The Inspector also states that new stove pipes are required. You may purchase this equipment.

Please forward itemized accounts, in triplicate, covering the expenditure incurred in the purchase of the above authorized supplies.

The Inspector further recommends that certain classroom equipment be supplied. You should have the teacher prepare a requisition for what is needed, which you should forward to the Department. If a football is needed, he should include same on his requisiton.

PLEASE QUOTE FILE Day Schools

Onion Lake, Sask.,
October 15, 1941.

Sir:

I have the honour to refer to pages 7 and 9 of our 1941-1942 estimates, and to enclose herewith a requisition No. 37, for articles and material required by the four Indian Day Schools in this Agency.

All the items are urgently needed. The material, yarn, flannelette, denim and dress goods (cotton flannel) is to be made into garments for the school children by members of the Homemakers' Clubs, in conjunction with the vocational training classes of the schools.

None of the parents concerned are able to provide this extra clothing for their children, and I would earnestly request that the material be supplied if at all possible. It was allowed last year and I trust will be again as the result will be better attendance and better health.

I have the honour to be,
Sir,
Your obedient servant.

Dear Sir:

I am attaching a Requisition in triplicate, together with a letter from Agent Cameron for materials and supplies needed for the 4 Indian Day Schools in the Onion Lake Agency.

I fully realize that the items listed are urgently needed and will at all events be a great assistance to better health and attendance in these Schools.

There might be a possible saving in purchasing these articles from a wholesale firm, which would reduce the amount requested, as noted on the Requisition.

I would recommend, if funds are at all available, that this be given the utmost consideration.

Yours truly,

M. Christianson,
General Superintendent of Indian Agencies.

Dear Sir:

I have your letter of the 20th instant with reference to materials and supplies required for the four Indian day schools in the Onion Lake Agency.

Arrangements are being made at the present time to send discarded military clothing to this Agency. When this is received it can be divided among the different schools and made over into clothing. Under these circumstances we are not prepared to authorize the purchase of the flannelette, plaid cotton flannel and denim requested on the Agent's requisition.

The 60 pairs of gum rubbers will be ordered by our Purchasing Branch.

You may authorize the Agent to purchase the following:

100 Lbs. soap
4 Dust pans

Dear Sir:

I am attaching herewith requisition in duplicate for school supplies covering the Indian Day Schools in the Onion Lake Agency, namely Frog Lake, Long Lake, Ministikwan, and Big Island.

The total amount for the supplies estimated by Agent Cameron is $53.00 and I would recommend that this be allowed.

Yours truly,

M. Christianson,
General Superintendent of Indian Agencies.

Regina, August 23, 1943

AUG 26 1943

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I wish to inform you while I was at the Frog Lake Day School the matter of a tank to hold water was brought to my attention and it was noted they did not have anything of that nature at the teacher's residence. The matter of eavestroughing also came up and I asked Mr. Cameron, the Agent, to look into this and let me have a report on the cost of this.

I am now in receipt of a letter from Mr. Cameron stating that we can get a good 15 barrel capacity tank made out of wood for $25.00 including the cost of labour, delivered. In connection with the eavestroughing we can buy enough lumber up there to make troughs that will go around the house and the cost of the lumber and the labour would be $10.00.

I would therefore ask for authority to spend $35.00 as follows: $25.00 for the tank and $10.00 for the eavestroughing.

RECEIVED

Regina, October 18, 1943.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am attaching herewith in triplicate a requisition for equipment and supplies for the three Indian Day Schools in the Onion Lake Agency.

In his letter to this office Mr. Cameron states no request is being made for clothing material as it is intended to make use of the discharged military clothing for this purpose but a small quantity of sewing material is included. Mr. Cameron also asks that he receive authority to make the purchases locally.

I do not know why Mr. Cameron sent this here but I am forwarding it on to our Branch for their attention.

Department of Mines and Resources.
O T T A W A .

I wish to refer to Page 76221 of our 1944-1945 Estimates, Viz: provisions for mid-day meals for the children attending the Indian Day Schools in this Agency.

At present there are only two Indian Day Schools in operation - Frog Lake - Long Lake - and I would request that the same amount as last year be allowed for Frog Lake, ie., $75.00. I would strongly recommend that the amount allowed for Long Lake be increased to $60.00 this year.

Indian Affairs Branch - Ottawa.

I wish to refer to the matter of providing mid-day meals for the children attending the three Indian day schools in this Agency.

For two years past Frog Lake school has been allowed $75.00 and the Long Lake school $ 36.00. This year there are three schools, Frog Lake, Long Lake and Onion Lake, and as attendances are approximately the same, I would recommend that the amount allowed be averaged and each school be allowed $54.00, ie., $9.00 per month for the six winter months, November to April, inclusive.

Frog Lake Indian Day School

It would seem evident from the information I have received from Major Clark that we should include an amount for the erection of a new school at Frog Lake in our Supplementary Estimates. If you agree, I will write to the bishop concerned advising him of our plans and that we will no longer require his church for school purposes after 1950. Apparently, the attendance at this school is very poor, and Major Clark suggests that some of these pupils who failed to attend regularly and punctually might well be sent to residential school.

You can advise Mr. Taylor to make local purchase of the following janitor's supplies:-

12 bars lifebuoy soap,
1 case paper towels,
1 case toilet tissue,
12 boxes Kleenex,
also 4 soft balls,
2 soft ball bats
1 football.

Long Lake Indian Day School
Frog Lake Indian Day School

I have just had a long discussion with Major Clark concerning the erection of these two schools. As the season will evidently be late by the time the supplementary estimates are brought down in the house, I would appreciate your comment on the following proposals:

1. That funds be transferred from other projects to enable the erection of the new schools required at Frog Lake and Long Lake

2. That these schools be erected in accordance with plan 888 and that they be advertised jointly so that contractors can bid on both projects. We have found elsewhere that we were able to receive tenders much lower than when we only advertised one project.

3. That the site of the Frog Lake school should be on the property previously viewed by Mr. Clark and Mr. Taylor.

4. That the Long Lake school site be carefully investigated. The present school does not seem to serve more than half the available pupils and there is some difficulty due to the water.

Would it be possible to have a map made of the Reserve indicating the number of children of school age so that we can select a proper site for the school based on present and future needs.

I am sending a copy of this letter directly to Mr. Taylor so that you will be able to contact him directly concerning the points raised in this letter. If you can have an army message sent to me by August 12th, we can arrange to advertise for tenders.

Mr. G.H. Gooderham,
Regional Supervisor
of Indian Agencies,
307 Public Building,
Calgary, Alta.,

New Schools at Frog Lake and Long Lake

Advertisements calling for tenders will shortly appear in the newspapers of Calgary, Edmonton and St. Paul.

Funds for the Frog Lake school will come from supplementary estimates. For Long Lake a transfer will be made from funds available for Blood Day School # 2.

Forms are being forwarded to Superintendents offices at St. Paul and Edmonton as follows:

Instructions to tenderers	6
Forms for tenders	6
Specifications for plan 888	2
Blueprints for plan 888	2 when available

Shortages of the above at any office should, it is requested, be made up by transfer of local resources.

The site of Frog Lake school appears to present no difficulty. At Long Lake further immediate attention is necessary. One or more test-holes for good water should be put down near the spot suggested by Mr. Taylor or on a line southwest from that point leading to Little Long Lake.

Do not send the $5.00 deposits for plans to this office but hold locally until these plans are returned.

Bernard F. Neary,
Supt. of Indian Education.

New Schools at Frog Lake and Long Lake
Saddle Lake Agency

Your letter of September 1, file 607-5(E) and 613-5.

It is noted that tenders have been called for the construction of the above schools, and that they are to be received at this office, the Edmonton Agency office, and the Saddle Lake Office.

Mr. Battle, Field Agent, was at Saddle Lake Agency last week. Since an independent well driller could not be obtained, arrangements were made for the Saddle Lake Band boring machine to go from Goodfish Lake to Long Lake. Boring was to have commenced on August 30, approximately on the site indicated in Mr. Taylor's plan of the reserve. It is expected that the $300.00 advance to bore the well at Goodfish Lake, where a reasonable supply of water was obtained at 31 feet, will be sufficient to cover the cost of boring one hole at Long Lake.

A sample of the Goodfish water has been sent to the University Laboratory for analysis. The real difficulty at Long Lake is to find good water. Mr. Taylor has promised to advise me immediately water is found.

G. H. Gooderham,
Regional Supervisor of Indian Agencies.

Heaters for school-teacherage built to Plan 888

It will be necessary for each Superintendent under whose jurisdiction a building using Plan 888 is under construction to requisition in the usual way for two heaters which are to be described on the requisition forms as follows:

(a) Classroom heater equal to Enterprise circulating type, suitable for burning wood or coal, having an output of 75,000 b.t.u. per hour.

(b) Heater for living room quarters equal to Enterprise circulating type, suitable for burning wood or coal, having an output of 50,000 b.t.u. per hour.

If the stove-pipes for these heaters are not conveniently available locally a description of the piping required should be included in the requisition.

It is requested that requisitions be completed and forwarded to this Division as soon as possible.

Re: Frog Lake Day School.

This will advise that, in company with Major Clark, a recent visit was paid the Frog Lake Reserve concerning the new school site and also the matter of wells.

There is little or no trouble in finding water on this Reserve, but we run into the difficulty of sand caving in and blocking the supply. The previous wells have been dug by hand and I feel that a good well could be obtained with the use of a boring machine. Major Clark was supplied with the facts and recommended that two wells be bored (one for the school and one for the present residence) and then should one well give out without notice, the other would be available. I do not believe that these wells will have to be over 25 feet in depth and should not cost any more than the one at Goodfish Lake and the one at Long Lake, however, I intend to make enquiries on prices of cribbing, either steel or cement, in place of the usual spruce cribbing as this may eliminate our trouble in the sand.

I would therefore request ~~that~~ an advance of $250.00 for labour and authority to voucher for materials for cribbing. I will submit a further report in the near future regarding the prices on cribbing.

June I7th. I898.

Sir,

With further reference to the petition of the Indians of James Smith's reserve, accomparying your letter of the 5th. of May, No. 33/9, I beg to say regarding the request that the Day School on that reserve be re-opened that on enquiry I found there are I8 children of school age within a radius of two miles from the school, and a few more at a greater distance. This would in my opinion quite warrant the re-opening of the school if it were not for the fact that the parents of I2 of these children are much devoted to hunting and are consequently absent with their families from the reserve for usually about 3 months beginning with October.

On examining the School Register for some years previous to the closing of the school, I found that the attendance had once been quite satisfactory, but that it had fallen off steadily for about two years before the closing.

Here as everywhere else it requires the utmost diligence on the part of the teacher

teacher and the other officials to whose duties this matter pertains to maintain an attendance sufficiently large and regular to insure useful work; and I am of the impression that notwithstanding the hunting habits of the Indians the day school here could be kept open profitably provided the right kind of teacher could be secured. The Indians seem to recognize that if the school is re-opened a responsibility rests upon them to take the full benefit of the school by sending their children regularly. When speaking with them on the subject I emphasized this point, intimating that if it were reopened it would only be as a further trial which could not be continued long unless it proved satisfactory.

The building is still in tolerably good repair, and much of the necessary school material remains on hand.

The efforts that have hitherto been put forth to induce these Indians to send their children to the Boarding and Industrial Schools have been attended with little success, and I think it is in the interest of Indian education that another attempt be made to establish a successful Day School on this reserve.

I have the honour &c.

CONTRACTS - PRINTING
DEC 23
SCHOOLS.

Sir,

Referring to my predecessor's letter of the 28th.June of even number, I beg to state that the re-opening of the school on James Smith's Reserve was postponed owing to the school-house being used as a Government storehouse, and also that it required repairs before it could be occupied as a schoolhouse, the cost of which was estimated by Mr.Agent McKenzie at from $100.oo and $110.oo. As there were no funds available for the purpose the matter was left in abeyance and the Agent instructed to place the amount in his estimates for 1899-1900 as well as a sum for the erection of a new store house.

Mr.T.O.Davis,M.P., is now pressing the reopening of the school and states that Mr.Donald McDonald was recommended by Archdeacon J.A.MacKay for the position of teacher and has been waiting since July last. Mr.Davis estimates that the really necessary repairs required before the school could be opened would not cost more than $25.oo and for that sum Mr.McDonald is prepared to undertake the work. I have therefore authorized Mr.Agent McKenzie to accept the offer of Mr.McDonald and have the school opened without further delay.

Mr.Davis informs me that there will be no difficulty about storing the supplies as there is a building close at hand

hand that could be obtained for the purpose, and that as the Church Authorities were notified in July last that the school would be opened they do not understand the delay.

I feel very thankful to the Dept. for having re-opened our School. I have used my influence in persuading my people to make their children attend School. The Reserve being so large some people live too far away from the present School house consequently all the children of School age cannot attend, therefore I would like to see a boarding house attached to the School for the children who live too far away or an establishment built which would be suitable for training some of the boys & girls in useful trades. I hope you will not ignore this request.

Ottawa, March 12, 1909.

Very Reverend Sir,-

The attention of the Department has again been called by one of its officers to the unsatisfactory condition of the school on the James Smith's reserve.

During the past three years four different teachers have been in charge of this school and, with the exception of Mr. Leffler, all have been incompetent, the result being that practically no progress has been made by the children. The officer above referred to in closing his report writes as follows,- " The parents of the James Smith's reserve desire to have their children learn to read and write, but the way this desire is met is a shame and a disgrace to those connected with it".

It is quite evident that the existing condition of affairs at this school must not be allowed to continue. The Department for its part is prepared to pay a better salary, if your Church succeeds in securing the services of a teacher who will raise the standard of the school. It is possible to obtain one with proper qualifications, and the Department would like you to take immediate steps with this object in view.

The foregoing remarks are equally applicable to the school on the John Smith's reserve, which has already been the subject of correspondence with you, and the Department trusts that in each of these cases you will be able to provide teachers who,will take advantage of the opportunities which evidently exist to make on these reserves schools which will be a credit to the Church and the Department.

Dear Sir, 339686

I beg to acknowledge the receipt of your letter No 118088/1 of the 12th inst referring to the unsatisfactory condition of the school on the James Smith Reserve, and in reply to state that I am very glad to learn that the Department is prepared to pay a better salary to a competent teacher. It is of course absurd to expect that really qualified teachers can be had at the present scale of salary, even when supplemented, as it is in almost every case in this Diocese by $100.00 per annum from the Church. Mr. Lipsett, whose work appears to have given satisfaction to the Department is a clergyman and was in receipt of the same amount from the Church as he received from the Department. The present arrangement is only temporary and

Mr. Lepkin should return to his work before long. He is at present finishing his course at the Dominion College here. However as a clergyman it is not likely that he can combine very long the duties of a Teacher with that of Missionary and it will be well to make definite arrangements for a permanent improvement in the school work. The conditions are not so favorable for a good day School at James Smith's as they are at John Smith's Reserve, but, with a competent Teacher, things might be much better than they are at present.

Dear Sir,

I desire to lay before you a proposal concerning the Indian Day School at James Smith's Reserve, Fort à la Corne, Sask. You are aware that I have received word from your Dept some months ago that the general run of our teachers at that school had not been satisfactory, that I nominated for appointment, for the Spring months, Miss Traill, till I had time to select a qualified teacher. You are also aware doubtless that that Reserve is on the list I sent the Dept of places where you might try the improved Day School. I do not now think it would be well to institute just yet the improved school there in its highest & most expensive shape, as there may not be sufficient children. But I do feel that you might well take a step towards that end, by offering an increased salary, & giving a better grade of teaching, the mid-day meal, & perhaps the garden & lessons in gardening of which the new scheme spoke. It is perfectly plain that neither you nor I can expect to get a teacher with

his salt at $300 p. ann.
My proposal is this, I will send Mr Edward Ahen-
-akew there as teacher if the Dep^r will give him
$ 500, or at least $ 400 per ann., the Church to make
up the bal^ce of his salary. I think the Dep^t should
give the $ 500, or $ 400 and rations, as the Church
is giving him a house, a good one, just built, on
which we have spent much money (about $ 600 or more).
Mr Edward Ahenakew is known to the Dep^t, & has
always had a good report. He has not indeed taken
a Normal School Course, but he passed the Examination
of the Province for 2nd Class Certificate well, since which
time he has taken two years in Wycliffe College, To-
-ronto, & a partial course at the University. His
character & diligence are excellent. It is very difficult
to procure certificated teachers; & I may say that
Archdeacon Mackay strongly commends this scheme.
I propose that he should commence on July 1st.
That Miss Traill may have ample notice, as well as
E. Ahenakew, & that I may make my own work fit
in with this, I should be glad of an early answer.

Yours faithfully

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's letter of the 21st ult. in reference to the Indian day school on John Smith's reserve, proposing to send Mr. Edward Ahenakew there as teacher, if the Department will pay him at least $400.00 per annum. Veterans

In reply I beg to say that the information regarding Mr. Ahenakew in the Department would not justify it in paying him at this rate, as the report received while he was in charge of this school in 1906 does not show that he would be fitted to conduct the school in a manner to entitle him to any advance over the rate of pay allowed teachers of Indian schools of the ordinary type, even with the training he has had since the report was made. The report referred to above reflected in no way upon Mr. Ahenakew's character but called attention to the careless way in which the school was conducted, and, for this reason the Department considers that it would

Dear Sir,

In reply to yours of June 5th 1909 No. 118088/1 re. Mr. E. Ahenakew and La Corne School. I beg leave to say that I feel sure it was his cousin Alexander Ahenakew that took that school in 1906 a very different sort of man. Mr. Edward Ahenakew is very careful and conscientious, and has always received a good report from the Inspector. I believe you would find him satisfactory, and superior in many ways to a white teacher. It will be much more satisfactory to us if he be allowed to take the school for a year on trial on the slightly increased salary that I asked for in my last letter.

An early answer will oblige as the half year is about ended.

I beg to further reference to your letter No. 118088 / of the 5th inst. addressed to the Bishop of Saskatchewan and also referring to previous communications with regard to the Indian day School on James Smith's Reserve (not St. John Smith's) I beg to say that Mr. Edward Ahenakew who has been recommended by the Bishop for this School is not the teacher who had charge of the School in 1906. Mr. Edward Ahenakew holds a second class teacher's certificate, and since writing for this certificate, has had two years' training at Wycliffe College, Toronto, besides a term in the training college here. He has been teaching at Thunderchild's (William Twatt's) at intervals during the last two years, and I am not aware that there are adverse reports of his work there, although the Thunderchild

Lake Deschene does not afford much opportunity for a teacher to show his capabilities. Still this explanation I trust the Department will consider favorably the Bishop's proposition to appoint Mrs Abenakew to the charge of the school with a salary at the rate of $400 per annum.

Failing this, as the Department ~~seems to do~~ appears to favour the establishment of an improved day school on James Smith's Reserve would the Department undertake to make all the arrangements both for teacher and accommodation. This is suggested, not from any lack of appreciation of the privilege allowed by the Department to the Church, of recommending teachers to Church Schools, but from a sincere desire to see the improved day school a success and the hope that the Department, with its wider opportunities, may be able to find a man capable of making the work a success. We are of course entitled to assume that the Department is not likely to appoint any one to the post whose character

Right Rev. Sir,-

In connection with previous correspondence relative to the appointment of a teacher for the James Smith's school I beg to say that since you were written to on the 10th inst. an application has been received from Miss Anna A. Hawley, who is at present engaged at the Lethbridge hospital, for a position as teacher in an Indian school.

She is a duly qualified teacher and a trained nurse and has expressed her desire to engage in Indian school work. Miss Hawley is an Anglican and has excellent testimonials and references and the Department is anxious to avail itself of her services.

As you are already aware the Department is not favourably impressed with Mr. Edward Ahenakew, and, although it has agreed to his appointment as teacher of this school, it would much prefer that the position should be given to Miss Hawley, as, from a late report, the Indians of this reserve are in need of a teacher who has had nursing experience and would undertake the work in a missionary spirit.

The

The Department does not think it would be well to lose the opportunity of securing the services of Miss Hawley, and it would like to know if you could not make some other arrangements for Ahenakew.

If Rev. Mr. and Mrs. McDougall cannot take up the work on John Smith's reserve until a suitable house is provided, could not Ahenakew be sent there temporarily? It has been suggested that the James Smith's reserve would be the most suitable location for Mr. and Mrs. McDougall. If you concur in this, Miss Hawley might be given the John Smith's school and Ahenakew could take temporary charge of the James Smith's school, until suitable buildings are erected and other provision made.

There is now at Fort a la Corne a really model day school, in charge of Mrs. Godfrey, and if the other two schools were placed in charge of competent teachers, with the additional qualifications of trained nurses, excellent results would no doubt follow.

The Department would like an early reply, as Miss Hawley is anxious to know whether her services will be utilized.

Dear Sir:-

I need only write a few lines. I left instructions with Rev. Jas. Taylor, the Secretary of Synod, to answer your letter about La Corne School, Miss Hawley for teacher, and Edward Ahenakew.

He was to say that I was willing to comply with your desire to engage Miss Hawley for the school, and would find other work for Ahenakew. I wish to comply with the Department, but I would only remind you that the responsibility therefore is yours. I do not see how a single lady, however accomplished, is going to do all that was promised by the Department to improve Day-Schools. She may be a trained nurse and an accomplished teacher, but she cannot be expected to fill both places, and to teach the girls little household duties, and to cook the mid-day meal, and superintend the School garden. The programme you laid down was a man and his wife for the school, and a nurse to visit the homes, and look after the hygiene of the Indians. I cannot move Ahenakew from La Corne, as you suggest as we need him to visit the Indians, hold their services of worship, and generally act as their Missionary. But we take him on our pay roll entirely, and leave the school to your Department. It is an

extra expense to us, but at least you cannot say that we have not complied with your wishes. The house is ours, and will be needed by Ahenakew, so the Department has to provide a home for Miss Hawley. I trust you will soon be able to provide a house for the Macdougalls at John'Smith's Reserve. The Indians are expecting him, the teacher is under notice to leave, and Mr. Macdougall is naturally very unsettled in his present parish, and would like to know what he is to do.

Ottawa, July 7th., 1909.

Sir,-

In reply to your letter of the 29th ultimo applying for a position as Nurse in the service of this Department, I have to say that while there is no position immediately available it is quite possible that in the near future some work may be found for you with this Department. The rate of pay is from $40.00 to $50.00 a month. Would you kindly inform the Department to what religious denomination you belong, and forward any recommendations you may have. The work amongst the Indians is in some respects peculiar and requires special temperamental qualifications but if you have any special interest in the aborigines there is little doubt that you would find the work attractive.

Your obedient servant,

Secretary.

Ottawa, 16th August, 1909.

Madam,

In further reference to your application for employment under this Department in an Indian School, I beg to say that the Department is in communication with His Lordship the Bishop of Saskatchewan with a view to availing itself of your services as teacher and nurse, and a reply has been received suggesting that you be placed in these capacities on the James Smith's Reserve at Fort a la Corne. If this would meet your views the Department would be prepared to pay you at the rate of $500.00 per annum for the combined work. Should you be in need of funds the Department would be willing to furnish you with a transport requisition for your railway fare, and bear half the expense. I think it only right to advise you that the Department is not very well informed as to what immediate accommodation could be found for you, but should you accept this offer our Agent will be instructed to provide for you suitably until permanent quarters can be secured. Should you decide to accept the position you may so wire the Department.

Secretary.

Ottawa, August 30, 1909.

Sir,-

As you were advised by wire of to-day's date, the Department has appointed Miss Anna A. Hawley as Nurse and teacher on the James Smith reserve, to take charge of the James Smith school. She is a trained nurse and duly qualified teacher, and the Bishop of Saskatchewan has agreed to her appointment, and Anenakew will have nothing to do with the school, his duties being confined to missionary work on the reserve. However, as he is to remain there, he will require the house, which is the property of the Church.

The Department has agreed to provide accommodation for Miss Hawley and when it made this offer it expected to have the use of the house. As this is not available, the Dqartment would like you to report as to what accommodation can be provided. If a suitable boarding place can be had, this will answer; if not, other provision will have to be made. In the meantime temporary arrangements for Miss Hawley's accommodation should be made. I have the honour to report that Miss. A.A.Hawley arrived here on the 3rd. instant. On the 4th. I left with her for the James Smiths Reserve, arriving there on the 6th. I found the north school closed,the.teacher, Mr. Ahenakew,having taken his holidays. He was expected some time this week, so I arranged that Farmer McCley would explain the situation to him upon his return. I made a temporary arrangement with Farmer McCley to board Miss Hawley for twenty dollars per month. This is a little high,but as Mr. McCley explained, his wife has three young children, so he could only keep Miss Hawley by engaging a servant, and that being the case, he could not be expected to do it for much less.

Miss Hawley is very much at sea over her work. The farmhouse is a mile from the school and she could not see that she could do very much nursing and teach school. I advised her to spend the few days before school opens in visiting the parents and in getting acquainted with the situation.

We called upon Mrs. Godfrey on the way down. We were not in time to visit the school, but we met,half a dozen girls going home. Miss Hawley was more than pleased with their appearance and the bright,cheerful

cheerful way in which they answered when spoken to. To shew the value of such women on a reserve , I take the liberty of mentioning an incident told by Mrs Godfrey to Miss Hawley, on the latter inquiring about the work. "Oh , she said, it is all kinds. " For instance, just the other day, word was brought me that a newborn babe was all the time crying, the mother's milk not having come. What have you been feeding it ? Beef tea. Well Iexplained that that would kill the child. I gave them sugar and told them to just let it have sugar and water, it would require nothing else until its mother's milk would come. I sent a little diluted casteria to relieve the child's bewels. Next morning they were back again, the child was still crying. I went to see what was the matter and found that instead of fellowing my instructions, they were feeding the child on undiluted cow's milk. The child was bloated. I gave it the casteria and a warm bath, and before leaving, a sleeping powder. Baby woke alright in the morning, the mother's milk having come, the child is now doing splendid."

This story needs no comment; just a life saved in the ordinary routine of daily life.

Before leaving, I told Miss Hawley to just think of her position as being cast on the reserve with her qualifications of teacher and nurse, study up the situation and then report if she could do all the work, or how much of it.

The mission house is occupied by Mr. Ahenakew. It is within 400 or 500 yards of the school. Miss Hawley thought that if it could be arranged ,it would be well for her to occupy the house, and board Mr.Ahenakew,as of course, a servant would be required in connection with the mid-day meals. In this connection, on my return here, I met on the train, Ven. Archdeacon J.A. McKay and spoke to him of Miss Hawley's desire to get

I asked you to notify me if you decided to send the lady teacher to Le Corne instead of F. Ahenakew. I have heard nothing from you, but I hear that without waiting for the end of the quarter and without answering my letter, you have placed her there. I cheerfully submitted to your wish in the matter, against my judgement and only asked for an answer; and it seems strange that I did not get that answer.

Ottawa, October 4, 1909.

Right Reverend Sir,-

Referring to that portion of Your Lordship's letter of the 23rd ult. which deals with the appointment of Miss Hawley as teacher of the James Smith Indian day school I beg to say that the Department did not understand from your letter of the 7th August, last, that you wished to be advised of the intention of the Department to send Miss Hawley to take charge of this school, as in a communication from the Rev. James Taylor, Secretary of your diocese, dated the 6th of that month, he stated that he was instructed by Your Lordship to say that you were pleased to fall in with the Department's wishes and allow Miss Anna A. Hawley to take charge of this school.

The Department did not think that any further notice was necessary but regrets that any misunderstanding should have occurred.

THE LEGION OF THE WEST.

All children wishing to join the Legion of the West, and secure a membership button, must write an interesting letter to the club, and enclose a self-addressed and stamped envelope. Children residing in the United States and Newfoundland should send the stamps loose in the envelope, so that Canadian stamps may be substituted.

All young people up to sixteen years of age are eligible for membership.

Only one button will be sent in each envelope.

All letters should be addressed to Editor, Legion of the West, Weekly Free Press, Winnipeg, Man.

OUR WEEKLY CHAT.

This week we have a lot of letters from the pupils in an Indian school away out in Saskatchewan, and I wish I could let you see the real letters, they are so well written. Not one mistake in spelling in all the letters and the writing is so plain I had no corrections to make at all. It looks as if the Indian children might learn English more correctly than the English children. The letters are all very interesting and I hope our little friends from Fort a la Corn will write to us again, and tell us about their hunting trips.

There are a number of very good letters this week. I think, however, that there are three better than the others. I wonder how many can pick out the three letters I mean. I will not tell you this week, but will tell you next week, and then you can tell me whether you agree with me.

We have our first snow down here, and the streets are white and the windows covered with frost, and everywhere we can see old Jack Frost. I hope all my little readers are warm and comfortable, and ready to laugh at the old Frost King, all the long winter.

Sir,—

Referring to your letter of IIth. May, ...

No. 25334I/I, and subsequent letters, I have the honour to report that I visited the LaCorne north school on the IIth. instant. During the past six years I have made many visits to this school, but my last one was the only really pleasant visit made during the whole period. The attendance, thirteen, was below the average,as all Indians who can move are away hunting rats, but every boy and girl in school was interested in the work. Miss Hawley has gained their entire confidence and she has wakened them up and made them as sharp and prompt as white children. They may have been able to read before, but I never heard them, they may have been able to do sums on black board but I never saw them, they may have been able to draw, but I never saw any of their work.(I enclose a few drawings taken from Miss Hawley's desk) They I am sure, could not knit; now all the girls have learned to knit. I sent, in October, 6 pounds of yarn to the school; this has all been used up in making hoods and mitts. Miss Hawley would like very much if she could be supplied with 6 pounds more to make comforters for the girls and scarfs for the boys. From the excellent use made of what has been supplied, I trust her request will be granted. As you are aware, at this season of the year the Indians

Indians all go away hunting, and most of them take their families with them. This year five of Miss Hawley's girls, the eldest being fifteen, arranged that instead of going to the hunt with their parents they would all live in one house and attend school. A striking tribute to the teacher's worth.

Now to turn to Nurse Hawley : I have to report that from the 6th. to the end of September she treated I7 dispensary patients , made 8 visits on calls to homes, and 5 casual visits. In October she treated 40 dispensary patients and made I5 visits. Up to the IIth. November she treated II dispensary patients and made I8 visits. Miss Hawley is a splendid woman, has good health, is thoroughly in love with her work, and without doubt if she remains on the Reserve, the infant mortality will from now on show a decrease. The Department has been most fortunate in securing her services, and she will prove a great blessing to both old and young on the reserve.

Finding things in the above condition, I incurred some expense without authority, but as I felt that the Department would expect me to keep the work going on I acted on my own judgment. You are aware that the children of the LaCorne south school have had a mid-day meal for the past five months, and as I understood the intention was to give the north school the same treatment, I arranged for it to begin at once. We have no suitable building near the school that could be used as a kitchen, but I remembered that the Department , x some years ago, sent a good sized tent to the Duck Lake Boarding school and which I knew was not in use. Miss Hawley agreed with me in thinking that it would do for the winter. I have secured the tent and shipped

shipped it to La Corne, and Farmer McCloy will see to its being put up and a floor put in. The next most important outlay was for a range, as when the Indians return I expect the average attendance at the school will be between 25 and 30, the ordinary cook stove would be too small. I also purchased the required pots pans, etc. I further arranged, subject to your approval, with Mr. Ahenakew to drive the children to and from school at a cost of 75 cents for each trip. He will have to drive three miles in one direction and one mile in another, so that if it is to be done at all it could not be done for less. I tried to find an Indian who has a team that could do the work and also chop the wood, light the fires and sweep out the school, but none suitable could be got. I instructed Farmer McCloy to have wood hauled and chopped, the fires lit and the school swept. Returning to Nurse Hawley. Farmer McCloy drew my attention to the dispensary patients, who were all treated in his kitchen. Mr. McCloy was very reasonable. He thoroughly appreciates Miss Hawley's services, but his children are very young, a number of the patients are very scrofulous and while he could not very well see what could be done, he was uneasy. Nurse Hawley also spoke to me on the subject; she did not like it and it was not the right thing. We have a log building used as a ration house which can be spared and fitted up as a dispensary at a cost of from 30 to 50 dollars and I gave instructions to Farmer McCloy to have this done. There is one other matter that I wish to bring before you. You have promised to give Mrs. Godfrey means to furnish a Christmas treefor her school. I would point out that it is no fault of the children of the north school if they have gained no medals or prizes, but I

I am sure both they and their parents would feel hurt if the Department gave a Christmas tree to one school and not to the other. I estimate the expense of a Christmas tree for this school at $20.00 .

Sir,

104 I have to acknowledge the receipt of your letter of the 11th instant, reporting very fully on the work being done at the North Port a la Corne school, and in reply I beg to say that the Department is exceedingly gratified to learn of the much improved conditions at this reserve.

You may provide Miss Hawley with the additional six pounds of yarn which she needs to continue the making of comforters and scarfs for the children, and your action in incurring some small expenditure in connection with the supplying of a mid-day meal and bringing the tent from the Duck Lake Boarding School to be used as a kitchen is approved, as is also the arrangement for bringing the children to school and for lighting the fires, etc.

In view of the good work being done by Miss Hawley in the dispensing of medicine the Department approves of the action taken in fitting up the log building previously used as a ration house for a dispensary.

You may also expend the sum mentioned in the providing of a suitable Christmas tree for the children of this school.

Some few days ago Mr. Inspector Chisholm was authorized to have a sketch for an approved teacher's dwelling, with a pupils' kitchen and dining-room attached, prepared in Prince Albert, and he was instructed to communicate

with you as soon as this sketch was completed with a view to having the dining-room erected at the James Smiths' school this season, However, if it is found that the tent gives satisfaction it may be well not to undertake any actic this fall but complete the buildings at the one time. Madam,

The Department is in receipt of a most commendatory report from Mr. Agent Macarthur on the work being performed by you in the James Smith's School and on that portion of the reserve connected with it.

The Department desires to express its most hearty appreciation of your efforts for the advancement of the children and the improvement of the home conditions on the reserve, especially in connection with your work as nurse.

The action taken by Mr. Macarthur in providing you with a dispensary and making temporary arrangements for a dining-room, etc., have been approved, and he has been authorized to provide the necessary material for a Christmas tree for the pupils.

The accommodation which the Department has been able up,to the present to provide is only temporary, and it hopes next year to be able to give you proper equipment to carry on your work to the best advantage.

Ottawa, February 23rd, 1910.

Sir,

Referring to the appointment of Mr. Tenant to succeed Mr. McCloy as farmer on the James Smith's Reserve the Department would like to know whether the present arrangement, whereby Miss Hawley boards and lodges with the farmer, can be continued when Mr. Tenant takes up his work.

As you were informed in official letter of yesterday's date the Department has not decided to erect a teacher's residence on this reserve on the scale proposed for the John Smith's reserve. It will, however, be necessary to provide dining-room accommodation, but this can be arranged for so that the building will form an annex to a residence, if erected at a later date. Miss Hawley is doing such excellent work on this reserve that the Department ~~does not contemplate~~ make ~~replacing~~ ~~her by a married~~ ~~man unless found necessary~~ arrangement for her to do so. ~~The question of accommodation must, however,~~ But it must ~~be considered and the Department is very anxious~~ to know whether Mr. Tenant will be able to board ~~Miss Hawley~~ her.

Provision for dining-rooms at the two schools on this reserve will be considered as soon as the plans, which are now in Mr. Chisholm's hands, are completed.

Sir,—

Referring to your letter of February 23.

No. II8088/I-, I have the honour to state that I think that arrangement can be made with Mr.Tennant who succeeds Mr.McCloy as Farmer on the James Smith's Reserve, to board Miss Hawley. When last at the reserve I had a conversation with Miss Hawley upon the subject and I suggested that if Mr. Tennant could not board her, we might rearrange the dispensary so that , at little expense, the ground floor could be turned into a livingroom and a bedroom; while the upstairs part could be used as a dispensary. This change could be made at a cost, I estimate, of from $50.00 to $75.00, and Miss Hawley thought it would do very well. However, it will be much better if Mr.Tennant can board her . as she has sufficient work to attend to without having to give any of her time to housekeeping.

Fort a la Corne, (North)
Saskatchewan,
March 31. 1910.

Mr. Macarthur,
Indian Agent,

Dear Sir,-

As time goes on I am more thoroughly convinced that to do satisfactory work on this reserve. it is neccessary to have seme accommodation, at least two beds, for sick Indians. Apart from this I feel that it would be a saving to the Department in doctors' fees.

At the present time when a patient is really ill the best I can do (with my school work) is to make one visit per day unless the home happens to be near. In the majority of cases treatment is not intelligently carried out by the Indians, and they not understanding the probable consequences, advice is often not regarded seriously. The absence of every facility in their homes, and the lack of proper diet during illness, together with the too small houses, do not tend to the best results for labor expended.

Under these circumstances there are times when I do not feel justified in assuming the entire responsiblity, whereas if things were so arranged that I could watch the progress, and note the response to treatment rightly administered, it would relieve the nurse of much anxiety, lessen texpenses of the medical man, and result in more satisfaction to all concerned.

Fortunately, the results thus far have been in a large measure successful, and I believe the confidence of the Indians is being steadily gained, as the enclosed report will show. At first my patients consisted wholly of women and children, but the present report includes ten men.

Very truly yours,

(Srd.) Anna A.Hawley.

Extract from return of the James Smith school for the quarter ending March 31, 1910.

Satisfactory progress has been made by the majority of the pupils. The attendance for January and February was good average 231/6 and 19 1/5 respectively. An epidemic of colds, coughs and "la Grippe" together with the spring hunting trips considerably lowered the average for March.

The children are members of the "Legion of the West" and contribute from time to time letters to the childrens' page of the Winnipeg Free Press. A years subscription to the Weekly Edition of this paper has been donated to the school. We are hoping in the near future to have a small circulating library composed of brightly colored picture books with easy reading.

Friday afternoon of each week is devoted to knitting crocheting, etc.

A Boys' Club has been organized with a charter membership of nine. Its object is to promote good habits among young Indian lads. Talks on various subjects followed by a social hour are given monthly by the teacher.

The catechist who is about to leave the Mission spent an afternoon at the school and gave an interesting talk to the children commending them for the good work they are doing. The children took advantage of the opportunity to present him with a handsomely bound organ edition of "The Book of Common Praise" as a slight token of their affection. A little Indian lad (No. 4, Alfred Head, aged 14) made the presentation in a manner which would have done credit to any English boy.

Sir,

In connection with the enclosed school returns, I have the honour to draw your attention to the average attendance at each school for this quarter, as this quarter was one in which the mid-day meal was given and the children conveyed to school. During the six years that the LaCorne south school has been in operation, the past average attendance for this quarter was 9½, and that too with Mrs. Godfrey as teacher, this quarter it is 15. While the LaCorne north school for the past ten years shows an average attendance for this quarter of 8, this quarter it shows is 29/62.

So far, therefore, I think the experiment has been amply justified by the results.

Sir,

130 I have to acknowledge the receipt of your letter of the 6th instant enclosing a requisition from Miss Hawley for a tent and other requirements necessary for hospital accommodation.

In reply I beg to say that the Department desires to give Miss Hawley every encouragement and to provide suitable conveniences for her work and you are, therefore, hereby authorized to make the purchase of the various articles mentioned. Instructions in regard to the tent were given you in official letter of the 13th ultimo.

With reference to the assistance the Department approves of Miss Hawley's suggestion to utilize all the time the services of the person who cooks the children's dinners. It is not stated what this will cost the Department and you will be good enough to say what wages this person would ask under these conditions.

It is also noted that Miss Hawley asks for a cow and this may be the best means of insuring a regular supply of milk of a standard quality. No doubt arrangements can be made for the necessary stabling and fodder.

Note - This report includes 10 patients from Southern portion of Jas Smith's Reserve and one hospital patient (severe form of erysipelas) from John Smith's Reserve.

I cannot close this report without expressing my hearty thanks to the department for the ready response to the appeal for accomodation for sick Indians. The wisdom of providing a hospital tent has already been fully demonstrated. It has brought hope and bright prospects to an Indian boy of 18 - after two months treatment for incipient tuberculosis he have every reason to believe the disease has been arrested - he has

Sir,

I have to acknowledge the receipt of the report of Miss Hawley, Nurse on the James Smiths reserve.

In reply I beg to say that this report shows that outside of her school work a great deal has been done upon the reserve by Miss Hawley and you will be good enough to express to her the appreciation of the Department.

My dear Dr. MacArthur

To-day I have been looking up the Records. for my Find of the Reserve. and I find that Dr. Hayoke. has been called by me to this Reserve but- twice during the past- six months -

The records also show that during the past twelve months only two deaths have occurred on the northern portion of this Reserve among the 200 Indians - one died of hemorrhage of the lungs - the direct result of not acting upon advice given - the other tubercular spinal meningitis which always proves fatal - two babies died away on a hunting expedition — & they were never under my care.

Sir,—

Referring to your letter of

No. I have the honour to enclose correspondence received by me from both Mrs.Godfrey and Miss Hawley. Regarding Miss Hawley, I do not know what to say. Her work on the reserve, so far, both as to school and nursing, has been exceptionally good, but I can gather from her correspondence and her conversation that she aims at nothing short of an hospital for the reserve with Miss Hawley as matron, a qualified nurse as assistant and relief from school work. I would be very sorry to see her leave the work, but I have never felt that she was a stayer, though in this I may be wrong.

After another year would be soon enough to go farther in the work, other than erecting the neccessary buildings.

Sir,

I beg to confirm the following telegram sent you yesterday:- "Department wishes to retain Miss Hawley's services and will pay at the rate of five hundred for school and two hundred for hospital work. Notify her at once. Writing."

In view of the excellent work being performed by Miss Hawley both in the school-room and on the reserve at this point the Department feels justified in granting her the salary asked, viz.- $700.00 per annum from the 1st of October.

As the Department is now bearing the whole of the expense of the management of this and the South Fort a la Corne school they are ~~to be known in future as non-denominational schools and~~ are under the immediate control ~~of the Department~~. As the Church has withdrawn its contributions to these schools it cannot in future be accorded any voice in their management.

Sir,—

Referring to your letter of

No.

Referring to your telegram of 5th instant, which I received at Kinistino, I have the honour to inform you that I have arranged with Miss Hawley to remain on the James Smith's Reserve as teacher and nurse. Owing to the conditions on this reserve, the subject was surrounded with difficulties, and I acted to the best of my judgment. Miss Hawley is much more interested in nursing than she is in teaching, yet she is an exceptionally good teacher. The hospital work on this reserve is important, and Miss Hawley, as nurse, has done a great deal of good work, but I consider it neccessary that one of the two works should receive from Miss Hawley, not her undivided, but her first attention , and of the two, under present conditions, I consider that you would wish the school work to receive that attention. I have therefore impressed upon Miss Hawley the absolute neccessity of continuing her school work on the lines of the past year and, if possible, to still further increase the attendance.

Your telegram authorized me to offer Miss Hawley $500.00 for school and $200.00 for hospital work. You

You of course remembered that the Department was paying $240.00 for her board, and that with the increase, the total would be $940.00. I took the liberty of changing this to a payment of $700.00 per annum with one ration of beef, or bacon, flour, tea, rice and oatmeal; also coal oil. This is not very much of an advance over the amount paid last year.

A difficulty during the past year was help. I have arranged with Miss Hawley that a white girl, Miss Seymour, will be employed as assistant at $10.00 a month. Miss Seymour will cook the mid-day meal for the children, and the morning and evening meal for herself and Miss Hawley, leaving the latter, before & and after school hours, free to attend to her patients The tent is being used for a dining-room and unless circumstances arise during the winter, requiring further accommodation, I would not advise the purchase of another tent.

CHILDREN'S FAIR ON JAS. SMITH RESERVE

Any one who had chanced to pass the Mission School House at Fort-a-la-Corne (North) on Saturday last would have seen a band of more than a hundred Indians including a merry group of children, dressed in their best with happy expectant faces. Was it not the day of the Fair? The First Annual Children's Fair in connection with the Mission School and a gala day it was.

In the spring the ground had been prepared and seeds sown water from the sloughs had been carried in buckets and kettles by the embryo agriculturatists when rain did not favor the tiny plots. Saturday was harvest day. The exhibits were arranged on a long table and were admired by the many spectators.

To the children there never had been such good potatoes and corn such big turnips and onions grown before. The preserved berries and chocolate cakes were much in evidence as lessons in domestic science form part of the curriculum at this school and the results would have satisfied the taste of an epicurean. Vase after vase af flowers were there too, as the best arranged would gain a prize. A table of articles made in wool was much admired, socks mittens, hoods, mufflers, wristlets in all the colors of the rainbow.

Some of the articles were very dainty amongst them being a child's hood and bootees crocheted in pale blue Berlin decorated with satin ribbon. A rich dark red muffler with black border and a pale pink scarf.

Rev. Edward Ahenakew, Chief James Head and Pat Britton kindly acted as judges.

The presence for a short time of Mr. MacArthur, Indian Agent was much appreciated and his evident interest in the Indian children's efforts should be a stimulus to greater things in the future.

The Union Jack floated o'er the Central tent in which Indian girls presided at a well-arranged tea-table prettily decorated with pansies and served tea to all visitors.

Miss Turner kindly favored us with several selections on the "phonograph" which were greatly appreciated. An interesting programme of sports followed after which "Fair Canada" was rendered by the children.

Three hearty cheers were given for the Depaytment of Indian Affairs and for all those who had contributed towards making it possible to hold the First Annual Children's Fair on James Smith's Reserve.

After singing the National Anthem the Redmen returned to their homes, with visions of another Fair day in their mind's eye.

The following is the list of prize winners:

Potatoes.—Eliza Head, Eli Okakeek, MacDonald Moostooeskamasis.

Onions.—Henery Seymour, McDonald Moostooeskamasis, Elize Head.

Carrots.—MacDonald Moostooeskamasis, Eliza Head, Elsie Constant.

Sir,-

Referring to your letter of

No. With reference to my letter of October No. 112, and yours of 26th, No. 118088/1, I have the honour to inform you that Miss Hawley began living in the dispensary building and boarding herself on the 16th. inst and the new arrangement should begin from the date.

I purchased for her use, and also for the hospital work, a small cook stove at a cost of $15.00, but she complains that it does not give sufficient heat to warm the building, and asks that she be supplied with a heater which would cost about $10.00. There was a large cylinder stove in the building; which she had removed on the ground that it takes up too much room. In this I did not agree with her as I thought that it could be used for the winter.

The arrangement with Miss Seymour fell through, and no other girl can be got in the neighborhood.

I cannot see that Miss Hawley can for any length of time continue the present arrangement, viz,-getting up in a cold house in the morning and cooking her own breakfast; walking three-quarters of a mile to school and, at 4 p.m.,

at 4 p.m. returning again to a cold house and cooking her supper, after which she is liable tobe called out to agin return to a cold house. Indeed, on my last visit it occurred to me that she was getting discouraged. Farmer Tennant and his wife do not want her back again; and, anyway, Farmer Tennant is leaving at the end of December.

I advised Miss Hawley to try, in the meantime, to get the older school girls to stay with her week about. At the New Year we may get a new Farmer with whom she might be able to make her own arrangement for board.

Sir,

130 I have to acknowledge the receipt of your letter of the 22nd instant, and in reply I beg to say that the Department approves of your action in purchasing a small cooking stove for Miss Hawley's use. As it would appear from your letter that the present arrangement may not last for any length of time it is not advisable at the present time to purchase a heater and the cylinder stove to which you refer might be again placed in position. When a new farmer is appointed it may, as you say, be possible for Miss Hawley to make arrangements for board and lodging with him.

The temporary hospital which was in operation five months did satisfactory work and was a real blessing. It is to be hoped the Department may see its way to continue this very necessary branch of work. Its absence has been keenly felt on several occasions during the past few months. It is almost useless to try to do anything for a really ill patient in a living room with from six to eight people all sleeping upon the floor and no ventilation. I believe a nurse's full time could be profitably spent by careful supervision of the homes and people on the reserve. The presence of a graduate nurse on the northern portion of James Smith's reserve with 200 Indians, has necessitated calling in a doctor but <u>once</u> in case of illness and <u>once</u> for a fractured femur during the past 10½ months.

that you may know that it is the result of conditions over which I, as teacher and nurse, had no control and not due to any difference

Personally speaking and with full knowledge of all the facts I consider the year just closed more successful than the preceding one.

The Duck of 1909-10 was an exceptionally mild one, plentiful and brought an unusually high price. It was not necessary for the Indians to go far from home nor to take prolonged trips.

The School reaped the benefit.

Many of the children have been unfortunately and faithful - and have endured many hardships in order to attend school. The driving system in vogue here necessitates the children walking home every other night and the area to be covered in the morning is so large that some children have to leave their homes before 8 o'clock - dark, cold, rainy mornings. This is no trivial matter for children - and often they have given up their breakfast rather than miss the ride.

Dear Miss Hawley;-

I have received your letter of the 22nd instant. Regarding your request for the use of a horse to me your visits to the sick on the reserve, I have to say that as the supplying you with a horse would also mean the purchase of a rig, and some one to look after the animal, it would be necessary for me to first receive authority from the Department. You are, no/ doubt, aware that the Department follows very closely the work of all its outside officials, and that your request would be considered on it merits. And I fancy that the answer would be, that while your work shows very well on paper, the actual results are not conclusive. It would be found that during the year closing 31st March last, the doctor had been called in oftener than during the previous year; that the death rate has been over 65 per thousand, as against 41 the previous year; that the average school attendance for the six months ending March 31st was 12, as against 18 for the same six months the year before. I observe that in your quarterly return for March quarter you attribute the decrease in the attendance to the children being off the reserve with their parents. On this point. I am rather surprised that you should have been misinformed, as the only child of school age who was away, was Pat Brittian's boy. Honestly, I am deeply disappointed with the school attend-ance. At Inspection I was also very much put out . To be

sure the older girls showed up very well along some lines; the younger children did not seem to know anything, except the names of the twelve Apostles. Well Bible knowledge is all very well in its place but the Department is running this school nót in the interests of any church, but with the one and sole aim of giving the Indian children an education. If Bible studies have to be taken up I am sure the Reverend Mr. Tomlin would devote one hour each weekm as is done in the other day schools of the province- to that work. What is required of you is to teach your children to read, write and count.

Returning again to the horse question I may remind you that some months ago, you and I had a talk on your work. I then told you that your first and most important work was teaching; that any spare time from that could be given to nursing. You are paid on a basis of $500 a year for teaching and $200 for nursing, which shows that the Department, at present considers the one of more importance than the other. Now,until the Department can see its way to change things, you should strictly follow the rule laid down, and get and keep the school in first class shape.

I know that your own humane instincts will not allow you to forget the suffering, but in the position you are now placed, the school, during its hours, requires your undivided attention.

Sir,—

I have the honour to state that I received from Miss Hawley an open letter addressed to the Superintendent of Indian Education, and marked "Personal", which I am forwarding to-day. This letter Miss Hawley wrote as a defence or reply to one which I wrote her on April 26th last. As it will enable you to better understand the matter I enclose a copy of my letter to her. I may further add that while I never failed to report to the Department any advance or improvement made by Miss Hawley in the work on her Reserve, it will be remembered that I doubted her staying qualities as teacher. One thing that is to be admired in her is the steadfast determination to leave no stone unturned that would help her to be relieved from teaching and instead get a hospital opened and she appointed Matron.

Miss Hawley is a smart woman but I am afraid she is a fraud. Her reportson visiting the sick etc. I cannot, myself, say whether they are true or untrue, but I have every reason to believe that to a large extent she draws on her imagination. My letter to her was written in her own interests as well as that of the Department . I have done everything in my power to assist Miss Hawley and make her school a success. It must not be understood that the

school to-day has drifted back to the old Indian day school,-far from it, my complaint being that she has allowed it to fall back from her first year. Now that Miss Hawley has thrown down the gauntlet I think it only fair that I enclose extracts from a letter written to me on May 7th. by Farmer McCloy.

"Miss Hawley called in Dr. Hawke to see the "McLean baby, she wanted me to get another "Doctor and she said that she was sure that Dr.Hawke "would not operate on the child but would make the "trip out and drive back without doing anything or "that if he did operate that he would do it in such "a way that it was immaterial to him whether the "child died or not. I told her to send for him "and that if he didn't do the work he certainly "would hear about it. Amongst other things she "mentioned that on one occasion when he was here "she asked him to go and see a sick person and "that he refused to go saying that even to save the "patient's life he wouldn't go and that if she "wanted him to send for him in a few days. One can "hardly blame the Indians for asking for his dismis- "sal. They I believe have sent in another petition "asking for his discharge. This time it was sent "to the honorable Walter Scott.

"Well Dr. Hawke arrived the day after Miss Hawley "sent for him, reaching here just before she started "for school, he sat in his rig and taked to her until "almost eleven o'clock. Then I went over to see "what was the trouble but he didn't say.

"Things here medically are in a nice fix the "darnest swindle all through, it makes one sick. "I know that regarding Miss Hawley I spoke rather "strongly to the Inspector but I thought that it "was the only way to make him see that there was two "sides to the question. The pathetic condition of health, as drawn by Miss Hawley, appeals to ones imagination. The truth is that there has always been a high rate of mortality amongst this Reserve but there is nothing in the condition, nor does Miss Hawley show that there is, warranting the outlay that would be required to establish a hospital. Ottawa, June 7th., 1911.

Sir,-

I have to acknowledge receipt of your letter of the 31st. of May with reference to the services of Miss Hawley on James Smith's Reserve. The open letter addressed by her to the Superintendent of Indian Education, to which you refer, was not enclosed but a copy had been received by that officer and had been attached to the file.

It is the wish of the Department that Miss Hawley should pay her first attention to the school and the educational work on the Reserve, and that she should not undertake too great a responsibility or too onerous a task in ministering to the needs of all sick Indians on the Reserve, as the Department has engaged a medical attendant to take part of that responsibility. It is believed that Miss Hawley can continue to do good work on the Reserve and that any change, when it is so difficult to get persons qualified to undertake such services at remote points, would not be in the interests of the work. I have, therefore, to request that you will continue to advise and support Miss Hawley and endeavor to increase her usefulness and allay the state of irritation that seems to be present on the Reserve.

Madam,-

I have to acknowledge receipt of your letter of May 18th, addressed to the Superintendent of Indian Education. Due consideration has been given to the contents of this letter and I have to inform you that the Department does not wish to have you resign your post. At the same time I must say that it is desired that you will pay full attention to the educational needs of the Indians and endeavor to develop the school work. Do not take too great a responsibility on your shoulders with reference to the medical attendance on the Reserve, but do all that you can, consistent with your first duty to the school, to relieve suffering. Ottawa, June 16, 1911.

Sir,

The Department is in receipt of Mr. Inspector Chisholm's report upon the Fort a la Corne North day school.

Mr. Chisholm states that the results of the efforts to improve the attendance by conveying the children to and from school were not by any means satisfactory. This would appear to be largely due to the fact that you had not properly supervised the work of the Indian who was employed to convey the children to and from the school. Mr. Chisholm further states that there has been indifference both on the part of the teacher and yourself regarding the school work on this portion of the reserve and that too much responsibility with a lack of oversight and direction has been placed upon the teacher.

There is evidently room for improvement in the work at this school and I have to ask you to make every effort to see that the best results possible under the circumstances are obtained.

COMMUNICATION

We [illegible]th re-produce a letter from a resident of the James Smith Indian Reserve. It was refused publication by the Kinistino Rep. but as the parties in question hold public offices, we take Mr. Godfrey's word for it that it is in the public interest. It is illegal to assume the title of "Doctor" in this province without holding a license, even where the party using the title has that right elsewhere.

402291

To the Editor of the Rep:

"The man who works the hardest may not draw the biggest pay.
The one with deepest knowledge may not have the most to say
But the man who is most modest gets the last seat in the rear
And the one who blows his bugle is the one whom people hear."

Sir:

The above quotation, which appeared in your issue of Nov. 23, gives me an opening to write upon a subject, which has been in my mind for some time, viz:—the fallaciousness of title of "The Medicine Woman" assumed by your continual correspondent from Fort a la Corne.

The Bluebook of 1911, which has just been issued gives TWO names who are classed as Teacher and Matron in James Smiths' Reserve, and while no report is made of the success, or otherwise of the nursing part of the duties of "the Medicine Woman" at the north school, special mention is made of the successful nursing work done by the Teacher and Matron at the south school.

"By their fruits ye shall know them."

It is always considered good breeding to leave o others the awarding of praise for work done. In this case however, your correspondent claims a title to which she has not the price right and which she should have left to others to confer.

Some four years ago the teacher at the south school was appointed as Dispenser of Medicine. Before that time, and long before the arrival of "The Medicine Woman" this teacher answered the call to sickness to all parts of the Reserve, both Fort a la Corne and Big Head's Indians, without remuneration or any tooting of the horn. She left this for officials to do, and the result was the appointing of a female teacher at the north school who also had qualifications as a nurse.

This was a tribute to the work done by the teacher at the south school.

I have never heard any Indian call either of the matrons "The Medicine Woman" either in Cree or English.

Anyone not in the know would naturally think it was a title conferred by the Indians, but no sir, it has only been assumed by "The Medicine Woman" who is continually "blowing her own bugle"

I am

"The man who gets the last seat in the rear"

Yours Sincerely

Ottawa, January 11, 1912.

Sir,

The Department is in receipt of a copy of a communication addressed by you to the Melfort Journal, dated December 6th, last, in reference to the work of the teachers and field matrons on the James Smith Reserve.

It is considered by the Department that the tone of this letter evidences a most objectionable spirit, and it has had the effect of shaking the confidence of the Department in your judgment.

Had you been an employee of the Department at the time the letter was written most serious notice must of necessity have been taken of it, as the public expression of the personal feelings of employees in respect to Departmental work could not be tolerated. In view of the fact that at a not distant date you contemplated taking up work as a teacher on one of the reserves you should have refrained from any criticism of one engaged in a position similar to the one you are to occupy. The effect has been, not to detract from the recognized meritorous work of the teacher of the Upper Fort a la Corne School; but on the contrary, as mentioned above, to cause the Department to have serious misgivings as to your fitness for a position in the public service.

It is with feelings of regret that the Department feels called upon to write a letter in this strain, but in justice to Miss Hawley, to whom your remarks are directed, demands it.

Madam,-

It is with much regret that the Department learned today through the Agent of your serious illness. It is hoped that the operation will be successful and that you will be able to again take up your work at James Smith school.

The Department wishes to suggest that it would be well to close the school and take the usual holidays for the months of May and June. This will avoid the necessity for obtaining a substitute who would have to be paid. The Department is writing to the Agent to this effect and will be glad to hear from you yourself as soon as you are able to communicate.

Sir,—

I attach herewith a communication which reached me this morning from Farmer McCley of the James Smith's Reserve, respecting the schools on that reserve.

In submitting same, I would comment on the fact, that at the North end the Department have a suitable house for a married man, while the accomadition at the south end is not so satisfactory.

At the same time, as the Farmer says the people at the South end are a long way from the farm house, & it appears that in the past they have generally looked upon the teacher at that point as some one to go to should any difficulties or troubles occure, and having a man there in charge of the school there is a great help to the Agent & farmer. The best farming land is at the south end of this reserve.

With regards the remarks respecting the crusher, I would call the attention to the fact that at this reserve there are five Bulls for which the Department in the past have provided chopped feed, hauling same from Kinistino. With a crusher in the hands of the Farmer, this haulage & chop could be saved, being of benifit to the band & the Department also. Under these circumstances, now that they have the steam power, this, I think is a matter for consideration, & I would be glad if you could look into same, & see what can be done.

James Smiths Reserve 30/11/16
Feb. 11th 13

Dear Sir :—

The Indians of the south end of this reserve are very anxious to have the School there re-opened. They think that they are entitled to the same privileges as those of this end. I may say that I think that the School should be opened as those people are so far from this end that they really belong to another reserve. They are eight & ten miles from the farm house & in case of sickness they are in a difficult position having no one to advise them.

I would respectfully suggest that you use your influence to have this school opened & that Miss Hawley be transferred from the North School to the south. This school requires a married man & his wife to look after it. Miss Hawley is always complaining about the house & school being cold but I know that these houses are both warm & intelligently fired. The Indians here also wish to have a male teacher as they say that the children are not controlled at all at school now. There are other reasons that you are aware of that would make a change advantageous in the interest of the work.

Miss Hawley herself I think would relish a change.

The chief asked me to write you re purchasing a grain crusher for this reserve. He would like if you could in some way manage to get one.

Yours respectfully

MEMORANDUM -

Mr. Pedley:-

I beg to draw your attention to letter of February 15th with enclosure from Farmer McCloy, of James Smith's Reserve.

The farmer recommends the opening of the school at the South end and that Miss Hawley be transferred to that point and ~~appoint~~ a male teacher for the North school. As we have received no notification from Miss Hawley that she desires the change, I would not recommend it.

I think, however, that we should open the South end school and transfer Mr. Gentleman, at present a clerk at the Duck Lake Agency, to this point. He would be willing, I have no doubt, to work here with his wife on the same terms as when they were previously employed.

Ottawa, May 12, 1913.

Sir,-

Arrangements have been made for the reappointment as clerk at the Duck Lake Agency of the former clerk, Mr. Campbell, and for the transfer of Mr. Gentleman to one of the schools in the agency.

See file 117084-1 re This

It was first proposed to send Mr. Gentleman to the South Fort a la Corne School, but since this was noted the Department understands that Rev. Mr. McDougall is leaving John Smith's. This would be a much better location for Mr. Gentleman, as there is a commodious dwelling house, whereas at the South Fort a la Corne School he would for a time at least have to live in very uncomfortable quarters. Mr. Gentleman will not, however, leave the agency for some days after Mr. Campbell arrives and is given such information as will enable him to become familiar with current work and take it over intelligently.

You will be good enough to arrange for the cartage of Mr. Gentleman's goods to the railway station and also from the terminus of his railroad journey to the reserve in each case by the agency teams to avoid incurring any unnecessary expenditure.

If Mr. Gentleman goes to John Smith's reserve he will be paid the same salary as Mr. McDougall, viz.- $600.00 per annum and his wife will be allowed $300.00 per

Duncan C. Scott, Esq.
Sup't. of Indian Education,

My dear Mr. Scott

I was glad to get your letter. It is always an inspiration and encouragement to know that the work on the outskirts as it were, is being closely followed by those at the "hub" - of Affairs.

I hope to write you later at some length, this is only a note to tell you that under present conditions. I am very unhappy in this Agency.

I could write at some length upon this subject, but perhaps it would be unbecoming for ~~me~~ one in a subordinate position to criticise an official. At the same time I do feel that the Department demands justice shown to its employees.

I have now given nearly four years of continuous service to the Department. I have given the best that in me lies, to the work, and have remained in it, though during this time, five calls have come in to go elsewhere. This is sufficient to justify my statement that I am really interested in Indian Work. The story of my four years here, is one of advancement.

To give you an idea of the attitude of Mr. Agent Schmidt I am enclosing a letter with a copy of my reply.

I wish to make the following comments.

I. Mr. McCloy, did not send any letter to the Agent that I had been purchasing supplies for the Constants.

II. No account has been "cut out" At the Hudson's Bay Co's Store. and the officer at the Post does not know what the Agent means.

I would have forwarded this letter sooner but I wished to give the Agent the opportunity of either an explanation or an apology.

The matter was brought before him on the occasion of his last visit - he was unable to give an explanation and seemingly flew angry.

The only purchase that I have made during the past year at the Hudson's Bay Co's Store was some mustard and some thin cloth with which to use it this was made for a critically ill boy. McDonald Moostoosekamasis, and I consider it came under the head of my duties.

Our supplies had not come and it was a case of emergency.

I am no irresponsible child, and I feel that the Department expects its employees to have intelligence enough to act wisely in emergencies. However, Mr. Schmidt's letter could not possibly refer to this purchase.

His letter to me wounded me more deeply from the fact, that Mr. McCloy has treated me in a most discourteous manner, ever since my arrival here. This, I might say was owing to an oversight of the then Agent - but this is a long story -

Has the Department any position to offer me, in some other than the Duck Lake Agency?-

Believe me,

Faithfully Yours.

Sir, Madame ,

I am in repeipt of a letter from Mr McCley in which he states that you purchased some goods from the H.B.Co for the Constant family when they were sick. I have to inform you that the Department desire that Mr McCley should make all purchases with the exception of drugs concerning which you should consult with the Docter.

Should, however you have any sick people that it is necessary to purchase goods for at any time, you should consult with Mr McCley, & I am telling him that you should both use your own judgement if such are reqdired, but the purchasing must be done by Mr McCley.

Mr McCley also states that part of the Hudson Bay account has been cut out, that which was purchased by you, I am instructing him to have this sent in, & you may certify to same, as I take it that the goods were necessary, I cannot say however if the Dept. will pay it.

Dear Sir,

I have noted your information as to Miss Hawley's resignation, Jas Smith's Reserve - I also heard from her directly.

I have no exact or definite nomination to make to the school there, but I have authorised two gentlemen to apply to you for the schools at (1) James Smith's & (2) Big Head's (South La Corne) Reserves. As I know neither of them personally, I preferred that they should apply to you, & submit their certificates or references & their qualifications to you. If you see fit to accept them on your part, I can say that I am satisfied on my part, & you can consider this as a nomination. I hope this method will satisfy you. It is calculated to save time & to prevent the schools being unduly closed.

1. Mr & Mrs Henry W. Shaw (preferably) for James Smith's Reserve.

Mr Shaw should write to you shortly from Yorkton, Alta, from Edmonton - They were both employed in the Indian School service in N.S.A. 1897-1900, obtained high marks in Examination as Teacher & Matron there, & have good recommendation from their Inspector, from their clergyman there, & from their clergyman since they lived in Alberta. They desire to return to the work.

Re, 118058/1-

Indian Sec, Dept of Ind. Aff.

- I should think they would do well & be able to take up the full work of Teacher, Matron, & Medical adviser for Women & Children, &c. Their Clergyman in Ont. (Missionary to the Indians) speaks very highly of their Zeal, energy & skill in training the children both in books & in out-door work, &c., as well as of their Character.

2. Mr & Mrs Leonard Lowe, 208 Waverley Rd., near Beach, Toronto - They are acquainted (& indeed connected by marriage) with Rev. W. Tomalin, Miss'y at La Cone, who speaks for their application. They are quite new to Canada, only lately from England, so know nothing of ways & requirements - They would not, perhaps, be strong enough for Jas Smith's, but might do for Smith's La Cone (Big Head's) if you are prepared to re-open that School, as I hope. That is near enough for Mr Tomalin to advise them & help them to get into the ways of the Country, & the methods of the I.D. I don't know them, but Mr Tomalin speaks for them. Newly married - No Children - Mr Lowe is 26 years old, has had good Public School & Grammar School Education, & says he can procure Certificates from England, if necessary.

I should be glad to hear from you in a little time if these persons apply, & if you appoint them, as otherwise I shall have to search down here. I have no one in sight at present.

Now, I want to bring another application before you, namely, Mr Little Pines, if you can have School & Residence ready in the near future; viz. —

3. Rev. J. H. Ryckman & wife for Little Pines

I have heard indirectly that he has applied to you; but that may not be correct. He is eminently fitted as a teacher, as he has been a schoolmaster (successfully so) all his life till he came to Canada. She is a most capable dressmaker, housekeeper, &c. & would have an excellent influence, besides having had experience in nursing & domestic medicine, having brought up a large family. The drawback - on their side, not ours - is a family of children, but they are willing to accommodate themselves to conditions, if only the house is sufficient to barely contain them, & the salary is sufficient to maintain them. I can recommend them heartily, both as to capabilities, energy, & character. Of course they know absolutely no Cree language. Little Pines has a number of Children, & needs some encouragement & extra effort. For this appointment there is necessary (1) the completion of the new residence with accommodation (even though barely so) for parents & 3 or 4 children; (2) a proper school & equipment & (3) a "living wage" salary. To such a couple as the Ryckmans I think you should offer the same as to Rev. Smiths' (Mr & Mrs (gentleman) or at least $800 or $900 between husband & wife. I should be glad to hear what you are prepared to do & offer in this case

Dear Sir:- Bishop Newnham has written me that he has been good enough to recommend myself and wife to the positions of teacher and matron of the Ft. la Corne Day School. He informs me that my personal application to the position would be required by you together with references, as to previous experience.

Both my wife and I passed the United States Civil Service Examination for Indian Work and were stationed first at Menomonee Boarding school at Neshana, Wisconsin, where we worked for three years as teacher and matron. We were then transferred to Rosebud Agency, South Dakotta, where we had charge of Butt Meade Creek Day School for four years. We then resigned and removed to Alberta.

I enclose copies of Testimonials we have received from Mr J. F. House who was Sioux School Inspector during our term of Service at Rosebud Agency

Mr. and Mrs. Henry W. Shaw (preferably) forJames Smith's Reserve. Mr. Shaw should write to you shortly from Youngstown, Alta, or from Edmonton. They were both employed in the Indian School service in U.S.A. 1897 - 1900, obtained high marks in examinations for Teacher and Matron there, and have good recommendation from their Inspector, from their clergyman there, and from their clegyman since they lived in Alberta. They desire to return to the work. I should think they would do well and be able to take up the full work of Teacher, matron and medical adviser for women and children etc.. Their clergyman in U.S.A. (missionary to the Indians) speaks very highly of their zeal, energy and skill in training the children both in books and in out door work, etc., as well as of their character.

Sir,—

I have the honour to inquire whether a teacher has been appointed to succeed Miss Hawley, who is leaving at the end of this month.
When visiting the school on James Smith's Reserve on 15th. instant, I asked Miss Hawley if she knew if an appointment had been made. She replied that she did not know.
It would be a great set back to the pupils of this school who have been in regular attendance, to have the school closed now; therefore I would ask that the appointment of a teacher be made in time to assume charge on November 1st.

I have the honour to be,

Sir,

Extract from Agent's Report on the James Smith Day School for the month of October, 1913. Original on File 118088-7.

The interest in this school taken by the parents is poor. The teacher complains that the parents bring their children away wity them on their hunting or root digging trips. It seems that the Indians have some grievances against Miss Hawley through the field matron work, which it is impossible for her to do properly. That is visit their homes, which are scattered between school hours. Therefore the reason why they do not send their children regularly. Miss Hawley is leaving at the end of this month and I would suggest that the person who takes her place as teacher, be not field matron also, as to do iether properly the other must suffer. The education of the children must be looked after with preference to the field matron work, the latter work will not give good results unless the field matron devotes her whole time to it, and then it will be an uphill work, as the Indians have very little faith in it if any.

EXTRACTS FROM THE DAILY LIFE AT AN INDIAN RESERVE

On the Indian Reserve at Fort a la Corne there has labored for four long years one Anna Asenath Hawley, a Canadian woman of great charm and culture. "The Medicine Woman," as she is called, has given of herself, whole-heartedly for the physical, mental and moral betterment of the brown folk at the Reserve, for Miss Hawley has not confined her activities to nursing, though as a trained nurse, she is specially versed in the care of the sick. Through all these years, she has oft-times experienced discouragement, black loneliness, and recurring disappointment, and always she has had to face the unutterable stillness which must be endured by those whose work amongst the silent Indians takes them "far—too far—from the madding crowd."

And after four years of it, when one wrote asking for a column or so from the gifted pen of this woman of parts, back come exquisitely written pages, every-one pointed with a laugh—till you come to the end. Then, mayhap your eyes will fill with tears, for you will realize that the writer's ability to laugh has been heaven-sent, and as you go on you will know why she has been thus favored.

WHERE TO FIND LOST MOUNTAIN.

Read then, Miss Hawley's "'Chips' from an Indian Reserve," which she has written specially for The Canadian:

"Yes," said the teacher with a broad smile, "the little Indians do get things mixed once in a while." For instance—the Department of Indian Affairs had sent up a beautiful map of the Western Provinces, and we were endeavoring to make good use of it.

The map was lowered to a convenient height, and before it stood a line of little brown lads and maidens. The Southern part of Saskatchewan is drained by the Souris and Qu'Appelle Rivers, which are branches of the Assiniboine. That fact was mastered. "Now, children," said the teacher, "We must learn one new lake in Saskatchewan, let it be 'Last Mountain'"—as she pointed it out on the map.

Then away to their seats the dusky children sped to write the name of the new lake as neatly as possible in their note books. A competition was on. The best writing would gain a favor—a pretty card.

"Do you all know," inquired the teacher, "what Last Mountain is the same of?"

"Me do," replied little Winnegenè, with sparkling eyes, and running a red tongue into the vacancy made by the loss of two front teeth.

"Last Mountain is an Assiniboine!"

* * *

"I think," said the Medicine Woman, "I shall have to call the Department doctor to make rounds on the Reserve. There is little Lena, the Chief's baby, yellow as gold with jaundice; Agnes, an ex-pupil, feeling that life is not worth the living with that quinsy, sore throat; Maggie's lungs are not clearing up properly since that attack of double pneumonia; that heathen squaw is surely losing the sight of her eye under the native Medicine Man's treatment; and now there is Na-na-ba-Bee down, flat upon his back, with another attack of muscular rheumatism.

"And as the maxim—'Kill two birds with one stone' sounds wise and economical, I'll ask the doctor to bring his tooth forceps. 'Dooth metchon please,' has been the daily cry among the little Indians. This will be an excellent opportunity to get rid of these troublesome teeth."

A writer once said: Disappointment in politics is painful, disappointment in love is worse, but in either case you can be thankful it isn't the toothache. He must have had a toothache!

It was plain sailing to transfer the little Indians from the school room to the children's dining hall. What came afterwards makes the story.

Little Maggie was the first victim, meekly and quietly she walked into the dispensary, though her big brown eyes were fast filling with tears.

A sudden gush of tenderness filled the heart of the nurse. "Oh Doctor Blank," she pleaded, "Let me give her a whiff of chloroform, it hurts, you know." Back came the unhesitating reply: "You bet it hurts!"

WILLIE'S OLFACTORY NERVE.

Into the dining hall went the penetrating fumes. It was enough. It was Willie who gave the alarm. Had he not once been a patient in Melfort Hospital, to undergo an operation considered too serious to be performed at the Reserve. "The doctor, he put me to sleep, then he cut my neck—and that's the same perfume what I now smells," he announced to interrogating dietetic friends, as he drew in a deep breath to make sure.

Now for the second child. The waiting room was empty! Flying moosehide moccasins were just disappearing round the corner of the house.

"Sydney, come here," said the nurse in sternest tones.

A bitter cry pierced the air. Not a cry of anger or defiance, but a pleading cry for mercy.

Where is the man or woman, doctor or nurse, who could take advantage of the helplessness of a lad of eight, the only representative of the family, a little lad who was content to remain behind at school whilst his family went north to the hunt?

"Sydney, you go free. The Moon-ey-as-kwao would run too in order to escape those shining forceps."

Then eighteen index fingers went into as many mouths, and eighteen little Indians explained "No sich me." And happiness came back to us all again. "I'm glad he's out," said Maggie, as she rinsed out her mouth for the twenty-sixth time.

Maxims may be all right in theory, but do they always work out satisfactorily?

* * *

An employee of a survey party met with a painful accident in the vicinity of the Reserve and came to the dispensary for treatment.

"I don't know how you can stand this here Injun bizness," said he. "She may be O. K. in theory, but when a feller comes down to the real thing, ain't the romance all smashed to smithereens?"

Now, this is a question which is often asked me, though perhaps in different language.

Well, it all depends upon the individual, his temperament, his views of things. Nothing is all good; nothing is all bad; everything is mixed.

If one is inclined to be pessimistic, there is surely room enough and opportunity enough on an Indian Reserve, to see the dark clouds, and the long, hard, rough trail. One can easily open the door of his heart to the guests, Disappointment, Discouragement, Discontent, and Is-it-worth-while? They are ever lurking at the gate. Yet, on the other hand, if one is inclined to be optimistic, there is surely every opportunity on an Indian Reserve to see the blue sky and glorious sunshine. For people generally find what they look for.

> This earth is crammed with Heaven,
> And every common bush afire with God.
> Had we but eyes to see it.

Again, we should never be forgetful of the solemn fact that we are soldiers on active duty in the service of the King of Kings. How high and great this privilege! And He is ever with us, all-sufficient caring for us, loving us, whispering words of comfort when we are sad and lonely, yea, pitying us in His great compassion when our hearts are troubled. He notes our every want, watches our footsteps, and blesses us with His approving smile when we try to follow Him.

Oh, are there not moments when we feel like Peter when he found his boat filled with fishes? Are we not often filled with a deep sense of our own unworthiness, and of God's great power and love?

> Go, labour on—spend and be spent,
> Thy joy to do the Father's will;
> It is the way the Master went,
> Should not the servant tread it still?
>
> Go labour on—'Tis not for nought,
> The earthly loss is heavenly gain;
> Men heed thee, love thee, praise thee not,
> The Master praises, what are men?

Gentlemen:

Re Henry W. Shaw, File 26479 P.D.M.

A certain client of ours has a claim against Henry W. Shaw, a teacher, appointed by you, in the Indian School at Fort a la Corne, Saskatchewan. His wife is matron at the school. This claim amounts to approximately $230.00 and has been out-standing for a long time. We are willing to take payments on account of any amount whatever, so long as he really makes an effort to clear off this indebtedness. We would ask you to kindly write him a reminder in this matter and oblige.

Extract from letter dated October 23, 1917, from Inspector Crombie in regard to schools on James Smiths Reserve. Original on 115088/7

With regard to the feasibility of moving the present building at the north school to a more suitable location. It will be noted from photographs submitted with my report of August 28th that these buildings are of a permanent nature. It would not be feasible to move these buildings without taking them apart, as, owing to the nature of the roads and the fact that much chopping would require to be done to take them throughmthe poplars and bush, the expense would not be justifiable. These buildings are lathed and plastered inside and by stripping them much material on the inner walls would be wasted and the shingles could not be used again. These buildings might bring more by being sold to some outside settler and moved off the reserve by him.

With reference to the north school upon this reserve. I find that since the re-opening ~~of~~ there are only eight pupils enrolled, which would appear to represent about 75% of the children residing in the vicinity of the school. The reason given for the small number enrolled is that some of the children have gone with their parents hunting, as also have some of those who are enrolled.

The attendance at this school since the 1st October is as follows:-

Dear Sir:-

Would it be possible for myself and wife to obtain a transfer to another position in the Indian School work, and if so what steps would be necessary to secure same?

My wife has been Field Matron and S. teacher at Fort ala Corne Day School since November 11-1913 Our relations with Indian Agent and the Department have been very satisfactory on our part.

Our reasons for wishing a transfer are:- Owing to migration of many families from this part of Reserve to South end of same to open up new farms and the fact that those remaining are mainly hunting Indians who take their children away with them! the attendance has decreased until we feel that our usefulness here is about over. It is possible that a new teacher and matron could build up the work here for a time where we are unable to influence them longer.

Mrs Shaw is finding her work here to be too heavy especially during the winter months Her health will not permit her to continue

making the cold winter drives that she is compelled to do in the work here. Between five and six hundred visits a year in [illegible] besides her duties in school is to heavy work for her. We feel that a position in a milder climate would be better for her.

If it is possible to give us a work in some other locality it would be much appreciated. Would prefer some place on Coast in British Columbia but would accept any position you have where we have work together.

We should be sorry indeed to quit the Indian School service and trust that some place will be open for us. I have informed our Agent Capt Schmidt of our wishing a transfer and trust that he will furnish any data that you may not have regarding us and our work.

I am yours Sincerely

Ottawa, October 30, 1917.

Right Reverend Sir,-

I beg to refer Your Lordship to official letter of the 26th instant approving of the appointment of Miss Martha Coburn as teacher of the Sturgeon Lake School.

Since this letter was written it has been decided to close the North School on the James Smiths Reserve, which is under the charge of Mr. Henry W. Shaw, owing to the small attendance on account of the migration of many of the families to the south end of the reserve, and it is thought that Mr. Shaw and his wife, who has been acting as field matron, might be transferred to Sturgeon Lake.

A few days ago Archdeacon MacKay wrote to the Department suggesting that, as it has been decided to close the Pas Hospital, a nurse be sent to the MacKay Boarding School. This suggestion was approved of and, if Mr. and Mrs. Shaw are transferred to Sturgeon Lake, Miss Swift, who is acting as field matron there at present, might be sent to the MacKay Boarding School as nurse.

Kindly advise the Department as soon as possibl as to whether these arrangements meet with Your Lordship's approval.

I have the honour to be, Right Reverend Sir,

Your obedient servant,

Right Rev. J. A. Newnham,

Ottawa, November 6, 1917.

MEMORANDUM.

Mr. Scott,-

With reference to that portion of Mr. Inspector Crombie's report on the day schools on the James Smiths Reserve which deals with the North School I beg to say that, in view of the fact that the Indians are moving from the neighbourhood of the school to the southern portion of the reserve and the consequent falling off of the attendance, I think that Mr. Crombie's suggestion that the school be closed should be acted on.

A letter has just come in from Mr. Shaw, the teacher of this school, asking for a transfer for himself and his wife, who is acting as field matron on the reserve, to some other locality, as he considers their usefulness is gone as far as the work at this end of the reserve is concerned, owing to the migration of the Indians mentioned in Mr. Crombie's report.

Mr. Crombie suggested that Mr. Shaw and his wife be transferred to Sturgeon Lake, if the James Smiths North School is closed. It is a pity that this suggestion was not made sooner, as Miss Martha Coburn was appointed to the Sturgeon

Sturgeon Lake School on the 26th ultimo on the recommendation of Bishop Newnham. She is young and inexperienced and Mr. Shaw would be much better for the position.

Miss Swfit, the present field matron on the Sturgeon Lake Reserve, might be appointed to the position of nurse at The Pas Boarding School. Archdeacon MacKay has been authorized to obtain a nurse for the school and, if arrangements could be made to send the Shaws to Sturgeon Lake, Miss Swift could be transferred to The Pas..

Acting on Mr. Inspector Crombie's report, Bishop Newnham was written to on the 30th ultimo and informed of the Department's decision to close the North School on the James Smiths Reserve and it was suggested that Mr. and Mrs. Shaw might be transferred to Sturgeon Lake. His Lordship was also informed that, if this transfer were carried out, Miss Swift could be sent to the MacKay Boarding School and he was asked to advise the Department as soon as possible whether this arrangement would meet with his approval.

I have delayed answering Mr. Shaw's letter until a reply is received from Bishop Newnham.

In the event of the closing of the North School I do not see that anything could be done with the buildings at present. According to Mr. Crombie it would be next to impossible

impossible to move them to another locality on the reserve and, as we have no funds available for rebuilding on the South end of the Reserve, it would be better to defer going to any expense on the buildings there until the Indians are premanently settled, as it may be possible to secure a site which would be more convenient for all the Indians on the reserve.

Should the Shaws leave, the question of the appointment of a matron to succeed Mrs. Shaw at the North end could stand over for the present.

IN YOUR REPLY REFER TO
NO.
AND TO THE DATE OF THIS LETTER.

Dear Mr. Scott,

With reference to File No. 1[illegible]8058/7 re day schools on James Smith's Reserve, Fort a la Corne, Sask.

I have to-day written a letter in reply to Department letter of 15th September in reference to schools on this reserve. After perusal of the file I have no doubt that you will agree with me that the north school should be closed at once.

I understand Bishop Newnham is finding it difficult to secure Teachers for Day Schools were vacancies occur. Sturgeon Lake Day School is a case in point. The trouble at Sturgeon Lake is that on this Reserve Miss Swift, a maiden lady, acts as Matron and the Bishop apparently wants to get a married man as Teacher whose wife would act as Matron. Mr. Shaw, James Smith's Reserve, is well spoken of by Mr. Agent Schmidt as a teacher although I have not had an opportunity of judging in the matter, as my visits to the reserve were made at a time when the schools were not in session. Would it not be well in this case to have Mr. and Mrs. Shaw transferred to Sturgeon Lake Reserve as Teacher and Matron and Miss Swift transferred from Sturgeon Lake to James Smith's Reserve as Matron. Miss Swift, who is handicapped in her work through deafness, has had considerable experience in nursing and understands the use of drugs and for this reason her services are of value.

It has been suggested by Br?Grain,in his letter to the Department dated Octr I5th.,that Miss Swift be transferred to Carlton headquarters to act as Matron there.

In as much as it is evident it will not be possible to get a Doctor for Carlton Agency at the present time,this is worthy of consideration.

I do not know what correspondence has taken place with the Presbyterian Mission Board re getting a Teacher for Mistawasis Day School (who would also act as Missionary),but it is necessary that the school be reopened as soon as possible.

Now that Mr Gentleman,Teacher and Overseer at John Smiths Reserve,does not appear to be getting along well with the Indians of that Reserve,you might consider it advisable to move him to Sturgeon Lake and have Mr Shaw Teacher at James Smiths,moved to John Smiths Reserve. Gentleman of course would not be anxious to move from John Smiths reserve as his earnings would be less by $200 the salary he is paid as Overseer.

No doubt Bishop Newnham is having correspondence with you re Teachers and Matrons and it is possible he may have some better suggestions to make.

Yours respectfully,

W.B. Crowle

MEMORANDUM

Mr. Scott,-

With reference to Mr. Inspector Crombie's private letter to you of the 23rd ultimo I beg to say that I have dealt with the closing of the north school on the James Smiths Reserve and the transfer of Mr. and Mrs. Shaw on No. 1 of the James Smiths School file, also with the transfer of Miss Swift from Sturgeon Lake to the MacKay Boarding School.

Should Archdeacon MacKay have secured a nurse for the MacKay Boarding School, Miss Swift could be transferred to the northern portion of the James Smiths Reserve, if it is considered necessary to have two matrons on the reserve.

Mr. Crombie states that Dr. Grain, in a letter to the Department of the 15th of October, last, suggested the transfer of Miss Swift to the Carlton headquarters to act as matron there. This would leave three propositions for the disposal of Miss Swift.

The Department has had correspondence with Dr. Edmison in regard to obtaining a teacher for the Mistawasis school

sch-ool to replace the Rev. Mr. Smith and, although he was asked as far back as the 20th of July to nominate a teacher to take charge of this school after the summer holidays, he has not done so yet. In September he wrote to the Department saying that, from all he could learn, he thinks there would be as much justification for his asking for the removal of the Indian Agent as for the Department asking for the removal of Mr. and Mrs. Smith.

On the 17th of October he again wrote the Department stating that he had referred the matter of the appointment of a teacher for this school to the Prince Albert Presbytery, which would meet on the 18th of that month, after which they would have a finding. He asked to have a definite understanding in regard to the salary that would be paid at Mistawasis. In reply to this letter he was informed on the 19th ultimo that the Department would be prepared to allow a salary of $600.00 to $750.00 per annum, according to qualifications and experience, for a teacher for this school. Nothing has been heard from him since then.

With regard to Mr. Gentleman, the Department has decided to leave him at John Smiths for the present.

Sir,-

In reference to that portion of your report on the day schools on the James Smiths Reserve which deals with the North school I beg to say that, in view of the fact that the Indians are moving from the neighbourhood of the school to the southern portion of the reserve and the consequent falling off in the attendance, your suggestion that this school be closed will be acted on. The Department has decided to transfer Mr. and Mrs. Shaw, the teacher and matron there, to the school at Sturgeon Lake. This change is approved of by His Lordship the Bishop of Saskatchewan.

It has also been decided to transfer Miss Swift, the nurse and matron on the Sturgeon Lake Reserve, to the Saraton headquarters at Mistawasis. This move has also met with the approval of Bishop Newnham.

You will be good enough to see that Mr. Agent Schmidt has the buildings vacated by Mr. and Mrs. Shaw secured until such time as their final disposition is decided on.

The Department will assume the legitimate expenses in connection with carrying out these transfers.

Sir,-

Referring to your letter of the 22nd of October, last, in which you call attention to the falling off in the attendance at the James Smiths North Day School, owing to the fact that the Indians are moving from the neighbourhood of the school to the southern portion of the reserve, I beg to say that the Department has decided to close this school at the end of this quarter.

As the Department is anxious to retain your services, it has, with the approval of His Lordship the Bishop of Saskatchewan, decided to offer you and your wife the positions of teacher and field matron on the Sturgeon Lake Reserve and the Bishop, Mr. Inspector Crombie, Mr. Agent Milligan and Mr. Agent Schmidt will be so informed.

The Department trusts that you will be able to assume your duties at Sturgeon Lake as soon as possible after the Christmas holidays and it will pay the actual expenses you are put to in making this change. Detailed accounts for this expenditure should be forwarded to the Department through Mr. Agent Milligan, who will be instructed to certify them.

Ottawa, June 5, 1918.

Gentlemen,-

Re. Henry W. Shaw. File 26479 P.L.S.

I have to acknowledge the receipt of your letter of the 28th ultimo with reference to the payment of the salary of Henry W. Shaw under power of attorney in your favour for the March quarter last.

In connection with this matter I beg to say that Mr. Shaw, who formerly taught the James Smith Indian Day School, was transferred to the Sturgeon Lake Day School on the First of January last, and when payment of his salary for the March quarter was made, the cheque was, through an oversight, sent to himself. When his school return for the quarter ending June 30th is received the salary due will be sent you, provided the power of attorney is not cancelled by Mr. Shaw in the meantime.

Indian Agent,

Dear Sir,-

In the matter of the Fort a la Corne north Day School that has been closed now for 16 months.

Is it the intention of the Department to re-open the School? It was closed for non-attendance or rather too small attendance.

I did not think at the time that the School should have been closed, with a little firmness on the part of the Department and Teacher the required average, if there is any required by the Department, could have been obtained as is the case in the Public Schools of the Province.

I remain,

Yours sincerely,

Sir,-

I beg to enclose herewith letter received from Agent Scollat, Duck Lake Agency, together with copy of a letter received by him from Rev. A. Sinnett of Fort a la Corne, relative to the day school on the south end of James Smith's Reserve, which has been closed for some time.

As far as I can learn there seems to have been no co-operation between Mr. Sinnett and the school [illegible] while the school was open, and I understand this school was closed by reason of inability to attract pupils.

While Mr. Sinnett in the latter states, "I am now several children who [illegible] attend", there is every reason to believe that if [illegible] would not live close enough to warrant the re-opening of this school, many of the children who live near could be induced to attend from the reserve to the [illegible]. I am not prepared to recommend [illegible] re-opening the school. It seems to be a good institution and the Indians of this reserve do not seem to truly [illegible] according to be done in order to bring the [illegible] attendance [illegible].

In his letter of report dated Oct. 17th, 1917, Mr. Scollat has not been advised as to any action [illegible] in the matter.

Sir,-

I have to acknowledge the receipt of your letter of May 10th last, relative to the request of Rev. R. McLennan to re-open the day school on the north end of the James Smith Reserve which has been closed since March 31, 1918.

In reply I beg to say that, after considering this matter the Department agrees with you that there is not a sufficient number of children living close enough to the school to warrant its re-opening.

While the buildings at the South Fort a la Corne school are very old, the time is not opportune for the erection of new buildings there and besides there are no funds at the present time for that purpose. This school will have to carry on for a time until all the Indians who are likely to move to the southern part of the reserve get located, after which it might be possible to select a suitable and central location for the erection of a new building which might be found to be sufficient to serve the educational requirements of the whole reserve.

Dear Sir:

Some eighteen months ago I wrote to the Secretary of the Church Missionary Society, Salisbury Square, London, England, asking him to recommend a Teacher with reference to the opening of the Day School on this Reserve. I do not think I have received any reply to my letter. Since then I have been sending some children to the Mohawk Institute, Brantford, but they have not taken kindly to the place. They are not satisfied and think the Church is to blame. The Agent told the Chief and Council to apply through the Bishop, but the latter does not seem able to do anything. Some people want their children sent to the Roman Catholic School at Caughnawaga. I would like very much to see the children educated as promised by treaty but with Teachers who will educate them in the simple Protestant Faith making them loyal to the British Empire.

Duck Lake Agency,
August 25th, 1920.

Dear Sir:-

I beg to report that in accordance with instructions contained in your letter dated the 7th inst. No.305-14 with which you enclosed a copy of a letter to you from Mr. Scott regarding the question of re-opening the South Fort a la Corne Day school. I went fully into the matter when at that point on the 23rd instant.

The removal of the buildings from the North to the South end of the Reserve would not appear to be practicable owing to the nature of the country between the two points. which is comprised of slightly rolling ridges between which are sloughs and pot holes. The ridges especially towards the north end of the reserve are covered with a fairly heavy growth of poplar through which a road would have to be cut for the passage of the buildings.

Experienced men would have to be engaged to carry out the work and this would entail considerable expense. It does not appear to me that the situation would be met on this reserve by re-opening only one of the schools. The following are my reasons for arriving as this opinion.

The north school is located near the north east line and the south school near the south west line of the reserve The distance between the schools being approximately nine miles. The homes of the Indians are scattered over the whole of the area between and on each side. I find that there are 14 children of school age within a three mile radius of the north school and 16 children within the same radius of the south school. There are six children of school age residing at a greater distance than three miles from either of these schools.

The largest centres of the population on this reserve are at the north and south ends and the schools are at present located as fairly as possible in order to provide for the best possible attendance at each. Judging from past experience there is no guarantee that either of these schools will have a satisfactory attendance until it is made compulsory and the Act is enforced.

The dwelling house at the south school is a log building 16'x 18' with a small kitchen attached. It is old and the foundation logs are rotten. It has one room upstairs and one on the ground floor. Lighting is provided by one window on each side. It would have to be replaced before the school is re-opened.

The school room is built with logs the walls have been willowed and plastered. The plaster has been knocked off for about two feet from the bottom and the logs are rotted. Repairs are out of the question as there is no solid material to nail to. It is heated with a box stove and the floors must be cold in winter. Water is obtained at a depth of 40 feet but I am told that it is very alkaline This is a condition which prevails over the whole south end of the reserve and the adjacent country. Soft water storage facilities would appear advisable as a help in this connection.

The old well is out of business and a new one will have to be dug.

I may say in conclusion that the Rev'd Canon McLellan called upon me and we had a talk on the school question. He stated that in his opinion a good average attendance could be obtained at both schools and that he did not favour the re-opening of one of the schools more than the other. It appears to be his desire to have educational facilities provided for the children of this band.

He suggested that instead of putting up new buildings at the south end of the reserve that the money be used in enlarging the north school so as to provide residential accommodation for the children. This of course would mean a boarding school which no doubt would meet the situation if the Department favored the plan.

I trust that the foregoing report contains the information which you require.

I have the honor to be,

Sir,

Your obedient servant,

No.109-4-1 informing me that you had received communication from the Reverend R.McLennan, urging the re-opening of the South Fort a la Corne School, and my letter of the 12th July, 1919 in which I said that I would look into the matter of removing the school from the North end of the Reserve to the South end. I instructed Mr. Inspector Murison to go to this Reserve and make a report as to the feasibility of moving this building. A copy of Mr. Murison's report is attached herewith. You will notice that he is of the opinion that it would not be practicable to move the building, owing to the nature of the country between the two points. He goes on to say that it does not appear to him that the situation would be met by re-opening the South school as there are practically as many children around the North school, and I would gather from his letter that the children are not such great distances from the North school but what they could attend. Certainly they would have to go equally as long a distance if a new school were built on the South and it seems to me that the proper thing to do is to authorize the opening of the North school, which would take care of at least half the children on the Reserve, and later on if this school proves to be a success we might consider the matter of using the Nurse's residence, which is situated along side of the school, as a home to accommodate six or eight children from the district surrounding the South school. This could be done by putting a married couple with an assistant in charge, one of the couple to act as a teacher. I am certainly opposed to re-building at the South end or at any other point on this Reserve and there is no doubt in my mind that the existing school buildings on the South are unfit for habitation.

Dear Sir,-

Re Indian School at Ft a la Corne.

I beg to inquire whether any decision has been reached in reference to the provision of educational facilities for the children on James Smith's Reserve, concerning which you wrote to the Bishop of Saskatchewan on April 15th, 1920, No. 253341/1. I am seeking for suitable teachers for the various Indian Schools now vacant which are under the auspices of the Bishop of Saskatchewan and trust that it may be possible to place these teachers and fill any vacancies as we secure them. Owing to the greatly increased rates of stipend in the public schools it is increasingly difficult to obtain teachers for Indian Schools and it is important that when we receive suitable applications for this work we should be able to place them. We have been appealed to by the Indians of Fort a la Corne to send them a teacher. I shall be glad of some definite word with regard to the vacancy on this Reserve and especially whether, in the event of qualified workers being secured you would be prepared to receive a nomination and make an appointment. Would you also inform me as to what your Department requires for this Reserve.

Sir,-

305-14 I have to acknowledge the receipt of your letter of the 1st instant enclosing a copy of Mr. Inspector Murison's report regarding the question of re-opening a day school on the James Smiths Reserve.

In reply I beg to say that, in view of the Inspector's report and your recommendation, also on the earnest solicitation of the Anglican Church authorities, the Department will authorize the re-opening of the school on the north end of the reserve, known as the James Smiths Day School. It is noted by the Inspector's report that it will not be feasible to remove the buildings from the north to the south end of the reserve and that there are fourteen children within the three mile radius of the north school. The continuation of this school will, however, depend upon the attendance.

As the school buildings on the south end of the reserve are unfit for school purposes, the Department has no intention at the present time of having them placed in condition and re-opening the school.

Rev. Archdeacon Dewdney, Prince Albert, requests definite word with regard to the re-opening of a school on the James Smiths Reserve and states that the church authorities will be prepared to nominate a teacher. He is being informed of the Department's decision to re-open the school on the north end of the reserve and also that, as the attendance at this school will likely be small, the salary allowed for a teacher having the necessary qualifications will be at the rate of $750.00 per annum, together with the bonus additional. He is also being informed that the school will be discontinued if the attendance does not warrent its being continued. You will be infowmd at a later date as to the name, qualifications and experience of the teacher nominated by the church authorities.

Your suggestion that, if later on this school at the northend proves to be a success, the nurse's residence, which is situated alongside the school, be fitted up as a home to accommodate six or eight of the children from the district around the south end is being left for further consideration.

I shall be pleased if you will instruct the Agent at Duck Lake to see that the school building at the north end is placed in good condition and also if any supplies are required that he will informthe Department, in order that, when a teacher is secured, there will be no delay in starting work.

Ottawa, September 10, 1920.

Very Reverend Sir,-

I have to acknowledge the receipt of your letter of the 1st instant regarding the re-opening of a school on the James Smith's Reserve.

In reply I beg to say that a report has been received regarding the condition of the school buildings at both the north and south ends of the reserve and also as to the probable attendance. The buildings at the south end are unfit to be used for school purposes, while those at the north end are in good condition. Mr. Inspector Murison states that there are fourteen children of school age within the three mile radius of the north school.

The Department has decided, on the recommendation of the Inspector and Mr. Commissioner Graham, to authorize the re-opening of the school on the north end of the reserve, known as the James Smith's Indian Day School. I shall, therefore, be pleased if the church authorities will nominate a suitable teacher for this school, to begin duties as soon as possible. A single teacher, male or female, having the necessary qualifications will be required. As the attendance will likely be small, the Department can only pay a salary at the rate of $750.00 per annum, together with the bonus at the rate of $150.00 per annum during the period which it is continued to teachers in Indian day schools. I shall be pleased if you will forward the name, qualifications and experience of the teacher nominated for this position. I may also say that the continuation of this school will depend entirely upon the attendance maintained. If at any time the attendance decreases to such an extent that the Department would not be warranted in continuing the expense involved, the school will be closed.

At the present time the services of a field matron will not be required.

The Agent will be instructed to inform the Department as to what is required to have the school at the north end of the reserve made ready for re-opening when a teacher is secured.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 15th instant regarding the re-opening of the day school on the north end of the James Smith's Reserve.

In reply I beg to say that Mr. Commissioner Graham has furnished a report concerning this matter, in which he recommended that the school be re-opened, and he has been asked to communicate with the Church authorities and request them to nominate a suitable teacher, to begin duties as soon as possible. He states that he has advised Mr. Agent Schmidt to see that any minor repairs that are required are attended to. As the attendance will likely be small, there being only fourteen children living within a three mile radius of the school, the continuation of the school will depend upon how the attendance keeps up.

It is hoped that a teacher will be secured at an early date, in order that there will be no delay in starting the work.

Your obedient servant,

A. F. Mackenzie

Dear Mr. Scott,

I have just returned from Engl^d & have resumed charge of the correspondce with your Department. I am glad to learn that you are prepared to reopen the Day school in north end of James Smith's Reserve, 7^m à la Corne, & I note the date of salary mentioned by Mr. D. J. Mackenzie, 10^th Sept^r. I have only one name before me, & am not sure of him. But to save delay I am writing you at once to see if the I.D. objects to any of the items I now give in his qualifications. Mr R. B. J. Taylor, taught for 14 months in I.D. day school, the Mey Indian Reserve: owing to ecclesiastical or religious disagreement with the Ch. of Eng^d Authorities he resigned - He speaks of having lost "a limb"; I think it is a leg not an arm. He is something an Accountant, & has a general education. I understand if he had previously taught (English) schools "on permit" & has no Normal Certificate - His Ecclesiastical Employers, Superiors, though they differed from him only on points of doctrine & ecclesiastical grounds, speak well of his character, &

of his having been fairly successful as a teacher.
She is anxious to continue in work of that kind among Indians & I am quite prepared to give him a trial. She is, I think, unmarried, which is what was required by the D., in Mr Mackenzies letter, 109-4-1 of 10th Sept., which see. I am writing to Mr. Taylor meanwhile, to find out if he is still open to his offer. If you encourage me to do so, I will make him the offer.

I also want teachers elsewhere; but as yet have not been able to secure any applications

Right Reverend Sir,-

I have to acknowledge the receipt of Your Lordship's letter of the 27th ultimo nominating Mr. R. B. F. Taylor as teacher for the day school which it is intended to re-open on the north end of the James Smith's Reserve and stating the qualifications which he possesses.

In reply I beg to say that, while the services of a teacher having some professional qualifications would be more satisfactory, yet, as the Department and Your Lordship are anxious to give this school a trial, approval of his appointment is granted. As you are aware, the continuation of this school will depend upon how the attendance keeps up and the success met with in the work. The salary allowed will be at the rate of $750.00 per annum, together with the bonus additional at the rate of $150.00 per annumfor the period which it is continued to teachers in Indian day schools.

I shall be pleased if Your Lordship will instruct Mr. Taylor to begin duties as soon as possible, and he should communicate with Mr. Agent Schmidt and inform him as to the date he will be able to begin duties, in order that the Agent can inform the Indian parents. The Agent is being informed of the approval of his appointment, as is also Mr. Commissioner Graham.

Ottawa, November 4, 1920.

Sir,-

His Lordship the Bishop of Saskatchewan has nominated Mr. R. B. F. Taylor as teacher of the day school which it is proposed to re-open on the north end of the James Smith's Reserve. His Lordship states that Mr. Taylor previously taught for fourteen months in an Indian school and has also taught white schools "on permit", but has not Normal certificate. His Lordship stated that he was not fully assured as to whether Mr. Taylor would accept, but, if so, desired that the Department would approve of his appointment, as he was not able to secure any applicants.

His Lordship is being informed that Mr. Taylor's appointment is approved, the continuation of the school to depend upon the attendance and the success which the teacher meets with in the work. If Mr. Taylor accepts, His Lordship has been requested to have him inform Mr. Agent Schmidt of the date on which he would begin duties, in order that the parents can be notified and the school be ready. Mr. Taylor's salary will be at the rate of $750.00 per annum, together with the bonus during the time it is continued to teachers in Indian day schools.

Sir,-

His Lordship the Bishop of Saskatchewan has nominated Mr. R. B. F. Taylor as teacher of the day school which it is proposed to re-open on the north end of the James Smith's Reserve. He states that Mr. Taylor has had previous experience in an Indian school, but has no professional qualifications.

He is the only applicant that His Lordship has in view, and, as the Department and the church authorities are anxious to give this school a trial, the appointment of Mr. Taylor is approved. His Lordship, however, states that he is not definitely sure as to whether Mr. Taylor will accept, but, if he will, he has been instructed to appoint him and to have him inform you of the date on which he would be prepared to begin duties, in order that you can inform the parents and have this school ready for him to begin work. You will, no doubt, receive due intimation if Mr. Taylor accepts and arrangements should be completed for the re-opening of the school. His salary will be at the rate of $750.00 per annum, together with bonus additional at the rate of $150.00 during the period which it is continued to teachers in Indian day schools.

Indian Agent,

Sir;-

I have the honour to request that I be permitted to leave the Reserve for two (2) weeks for the purpose of consulting a Specialist relative to my physical condition.

There has been such a pain in my Spine during the past ten days that it has not been possible for me to partake of the right kind of nourishment necessary for the work in which I am engaged, and owing to the pain I am at nights unable to secure the necessary amount of rest to cope with the work here.

I do not doubt that the Specialist will be able to furnish me with the necessary treatment in that time, and I shall then be able the better to return to my duties here and carry them out more successfully.

I have endeavoured to secure a teacher to take my place here during my absence since I do not want to have to shut the school down, and to that end the Rev.Canon Mc.Lennan has consented to act in my stead and I trust that this arrangement will be satisfactory to you. If convenient I would like to leave the Reserve on January 24th (Monday) and I will return to my duties on February 7th.

Thanking you in anticipation of an acceptance of this letter,

Gentlemen:-

I have the honour to request that you give the following the consideration of your Department.

I have been engaged in the capacity of Teacher and Dispenser on the James Smith Reserve since last November. It was my intention to become married at Christmas but unfortunately the one on whom I had built all my expectations was called away, and, therefore I am living alone at the Teacher's residence on the Reserve.

Since my duties here are very much in the same capacity as Miss Yardley - who is now deceased - I asked my Agent whether I should be able to obtain rations or at least my wood.

Being incapacitated as I am in the loss of a limb, I have to have someone cut my wood for me and pay this besides for the hauling, and it would be appreciated if you would give the matter referred to your consideration.

Sir,-

A request has been received from Mr. H. B. Feilden-Taylor, teacher of the James Smith Indian Day School, to be furnished with rations or the wood required for his personal use.

He is being informed that the Department does not furnish rations to the teachers but, will be prepared to pay for the supplying of the wood required.

I have, therefore, to request that you will be good enough to arrange in due time for the purchase and supplying of a sufficient quantity of wood for the teacher's needs? You should, if possible, obtain competitive prices and arrange with the Indians for the delivery of the wood which should be cut in stove lengths.

As soon as the wood required has been delivered, you will be good enough to furnish properly receipted vouchers, in duplicate, covering the expenditure incurred.

Dear Sir;/

I ask you to give the following your consideration.

Owinf to the fact that I have taken my recent loss so much to heart, I find it necessary to either resign my work here or else receive a transfer for some other reserve.

It seems to me that wherever I go, my wife to be follows me, try my hardest I cannot get her out of my mind. I am very desirous of doing my duty to you and the Indian Department, but find it too much under the conditions. If I was away from these surroundings on which I had built such great hopes all would be well, but as long as I am here I can do nothing, although I am trying my hardest to fight my sorrow.

If you do not see fit to use your influence to secure me a transfer, I must ask you to accept my resignation the same to take effect June 30th.

I do this with great regret because to a large extent I have become very infatuated with the work here, but I fail to see any possible way out of it.

I understand that Mr.Lowe would be willing to be transferred here, and I would be quite willing to go to that point, and would ask you to give the matter your consideration.

I have the honour to be,
Sir,

Sir:-

I regret to have to inform you that the young lady to whom I was betrothed passed away last Saturday, this, undoubtedly has changed my plans for the future, but I have decided to go over to the teacher's house to reside, the same to take effect next Tuesday.

I believe that you understand my feelings, I have suffered some hard losses during the past four years, and for my own good and benefit I prefer to be alone.

It would be appreciated if you would look into the wood matter for me, and see as to whether I can have my wood found me, and owing to the fact that I would like to get away for a short while to try and forget I have decided to absent myself from the reserve during Easter week.

IN YOUR REPLY REFER TO
No. 177-115
DATE OF THIS LETTER

Sir,—

I have the honour to forward herewith for your perusal copies of communications received from Mr. R.B.F.Taylor, teacher at the Fort a la Corne North Day School on the James Smiths Reserve.

Mr.Taylor is a widower with no family. Having lost a leg, which he claims cannot be replaced by an artificial limb, he has to use crutches. He is very nervous and not physically strong. I consider, and have brought the fact to his attention, that it is most unwise for him to live alone as he is doing at present, he having left the Farm Instructor's house where he was boarding to live in the teacher's house. He cannot remain alone during the winter months, and I am not prepared to recommend employing some one to live with him: I have told him so but he does not seem to give the matter serious thought. From personal observation I find this man to be very unsettled as to his future actions, and he changes his mind frequently.

Immediately on assuming his duties as teacher on this reserve last winter Mr Taylor adopted an aggressive attitude, and displayed an inclination to meddle with matters entirely outside his province. Later he unfortunately clashed somewhat with the parents of some of his pupils, and when I investigated the matter he made some talk of resigning his position. While he may have the ability to teach satisfactorily, I find him very slack in handling his own end of the work, that is in making his reports and returns. In checking up his Quarterly Return for March 1921, a period that included 18 school days in the month of March, I found that the school had been open for 13 days only in that month. The month of April disclosed the fact that the school had been closed 3 days when it should have been open. On taking the matter up with Mr.Taylor, the explanations furnished were not very satisfactory, and it also involves the trouble of making readjustments in a subsequent return.

The question of an exchange of transfers between himself and Mr.Lowe of the John Smiths Day School is entirely out of the question. Mr.Lowe is settled in his position and is doing good work at his school, and, as far as I am aware, has no desire for an exchange.

Taking all circumstances into consideration I beg to suggest that the Department accept Mr.Taylor's resignation, nevertheless I would prefer that the Department take what action in the matter they see fit.

I have the honour to be,
Sir,
Your obedient servant,
Indian Agent.

Sir, -

I have to acknowledge receipt of your letter of the 1st instant, enclosing copies of communications which you received from Mr. R. B. F. Taylor, teacher at the Fort a la Corne Indian Day School on the James Smith Reserve.

In reply, I beg to say that the Department cannot approve of his request for an exchange of transfers between himself and Mr. Lowe of the John Smith's Day School. If Mr. Taylor is not satisfied with his present position, he should forward his resignation in due time, in order that the services of his successor can be obtained to take charge when the school re-opens after the summer holidays. You should ascertain from him, definitely, whether he intends to remain for another term or not.

Dear Sir

Very many thanks for your kind reply to my former letter.

I trust the enclosed copy of a poem composed by Mr Godfrey, which I have culled from the Melfort Journal of June 7th will be of interest to you, & also plead pardon for me in again addressing you.

In a letter recently received from the Rev Canon McLennan of the Fort a la Corne Mission, was contained the news, that the Dept of Indian Affairs was purposing the building of a new school & residence on the James Smith Reserve to serve in lieu of the two schools which have hitherto done duty there.

Upon receipt of this information Mr Godfrey wrote to the Bishop of Saskatchewan for fuller information, at the same time offering her services as teacher.

Upon receipt of his Lordship's reply Mr Godfrey wrote an application for the position of Teacher at the North School and has sent this application to his Lordship to be endorsed and forwarded by him to the proper authorities

We are given to understand that Mr Taylor who is at present teaching at Fort a la Corne is asking for a transfer.

My connection with this matter, in the event of Mr Godfrey being appointed by the Civil Service Commissioners, will be exactly the same as before my appointment to the Sturgeon Lake Day School, ie - holding up the rough end of the work, and doing, in an Unoffical manner, whatever is required to ensure the success of my wife's work, both in the interest of the Indian & the Department of Indian Affairs.

Ostensibly I shall resume farming, for neither of us care for or are happy in city life, & the call to the Indian work has been too clear to resist, although apparently all we can do is to offer, & leave it with higher powers to say if our services are desired.

Thanking for your kind wishes, believe me to be

Yours very sincerely

In the event of Mr Godfrey being re-appointed. I wonder if my term of service with the Dept of Interior from the 1st Sept 1914 could be credited to her service thus giving her a continuity since 1913 with a credit of seniority? I know it would be asking the Civil Service Commissioners to establish a precedent, but the circumstance is an unusual one. (us)

Sir, -

I am directed to acknowledge receipt of your letter of the 16th instant regarding the application made by Mr. Godfrey for the position as teacher of the North School on the James Smith Reserve.

In reply, I beg to say that the present teacher, Mr. R. B. F. Taylor, has expressed dissatisfaction with the work and intimated to the Agent that it was his intention to resign at the end of the present school year. The Department has no further information as to whether he has decided to give up his duties at this school or not. If he remains, there is no vacancy for a teacher on either the James or John Smith Reserves. It might be well for you to consult Mr. C. Paul Schmidt, Indian Agent, Duck Lake, who may be able to give you further particulars as to whether there will be any vacancies or not.

It is not the intention of the Department during the present year to erect a new school and teacher's residence on the James Smith Reserve to serve in lieu of the two schools which have hitherto done duty there.

To the Right Rev. Lord Bishop
of Saskatchewan.

My Lord

Hearing that the position of School Teacher at the Indian School at Fort a la Corne James Smiths' Reserve, is to become vacant at the end of August next, I beg to offer my services to fill the vacancy beginning on September 1st.

As you are aware, I have had considerable experience in Indian teaching, having taught school on the above Reserve (at the South Fort a la Corne school) from 1903-1912 the success of which may be verified by the records of the Indian Blue Books of those years.

I may perhaps add that, although I opened that new school with children who had never been in a school before, yet, when I left, that school was the proud possessor of two diplomas, and one silver medal (each suitably framed by the Dept. of Indian Affairs) which my scholars had won in competition at the Winnipeg Industrial Exhibition.

Indeed, without any undue egotism on my part, I think I may venture to say, that it was partly due to the success of my teaching, and to the suggestions which I put to the Indian Dept., through correspondence, at its request, as to the means to be employed for the further improvement of Indian Schools, that the "New Improved Day School" became an accomplished fact.

This said correspondence will be on file in the records of the Indian Dept., and all I have above stated may be corroborated by Duncan C. Scott Esq. Deputy Superintendent of Indian Affairs, Ottawa, who visited my school in 1910.

In 1912 my work at South Fort a la Corne terminated but was continued at Sturgeon Lake Indian Reserve, in conjunction with my husband; the latter as school

teacher, and myself as matron. This position was held till June 1914, when, at my doctor's orders, I was obliged to relinquish the work on account of the break-down of my health.

Perfect restoration has followed my long rest, during the whole of which period I have ever had the longing to return to the Indian work, and have continuously kept in touch with my old scholars by correspondence.

I hold an English 2nd Class Teachers' Artificate having been fully trained in the Old Country, my marks falling only a very few short of entitling me to a First Class, indeed, of the number of teachers who wrote with me, I stood the highest in that class, at that Branch.

The following Artificates are also held by me

(1) First Class (Elementary) Singing
(2) First Class (Advanced) Singing
(3) Elementary Freehand Drawing
(4) Advanced Freehand Drawing
(5) Perspective Drawing
(6) Physiology
(7) Nursing Diploma from the "Chautauqua School of Nursing", New York.

Hoping that these facts may be deemed sufficient to entitle me to resume my work among the Indians, and that my application may be favourably received

I beg to remain
Yours obediently
(Mrs Wm) Ada A. Godfrey

Note. I cordially recommend Mrs Ada A. Godfrey. Her appointment will be perfectly satisfactory to me. Her character & her abilities have been proved in past experience

Dear Mr Scott,

May I lay the following before you, & ask you
the kind enough to put the matter before the proper
Officials?

Mr A. B. Fielden Taylor has sent me his resignation
as Teacher in the day school on James Smiths Reserve,
Just a la Corne, Sask. I understand that he has
also tendered his resignation to the I.D., to take
Effect when the school closes for the Summer.
I have accepted his resignation, but have told him that
I can hardly recommend him for another Indian
School. He has a first rate education (Oxford Univ?)
& is of a good moral character. But he is in weak
health, a partial cripple, & I am informed that these
things, & his excitable nervous state, & perhaps his
high Education, unfit him for such work; for he is
too irritable & impatient with his pupils.
Mrs Godfrey, formerly one of your teachers there, & at
Sturgeon Lake Reserve, desires intensely to get back into
this work, & has applied to me to forward her wishes.

I enclose her application, & she submitted to the Civil Service Commission, with my note at the end.

If, as I think, the position is vacant; & if she gets the appointment; I think the pupils will benefit. I have every respect for her character, - the sincerity of her desire to do good work. I think a study of the records of her past work will bear me out. Perhaps her qualifications as set forth in her application along with her past record will satisfy the Civil Service Commissioners. In case it may have any good effect, I may add that she is the wife of a returned soldier, & the mother of a returned soldier. I should be glad to hear what the decision is: but also, if not asking too much, I request that the I. D. may notify her of the appointment, the salary, & the requirements, & correspond with her in the matter. I shall be much away, & I leave finally & permanently about Sept. 15th. Her address is Mrs Wm Godfrey, 862 Fifth Ave. N.W., Moose Jaw, Sask.

Right Reverend Sir, -

I am directed to acknowledge the receipt of Your Lordship's letter of the 16th instant, enclosing an application from Mrs. Ada A. Godfrey for the position as teacher in the James Smith's (North) Indian Day School, and stating the qualifications and experience which she possesses.

In reply, I beg to say that the present teacher, Mr. R. B. F. Taylor, forwarded his resignation to the Indian Agent which he later withdrew. The Agent has been requested to ascertain definitely from Mr. Taylor whether he intends to resign or not. In the event of a vacancy occuring, the Department will be pleased to appoint Mrs. Godfrey at the same salary and bonus as is at present being paid Mr. Taylor.

I might add that a communication was received from Mr. Godfrey regarding the matter, and he was instructed to communicate with the Indian Agent.

It would appear that Mr. Taylor is dissatisfied with the work, and the Agent is being informed, in the event of his resignation, that Mrs. Godfrey is to receive the appoint - ment.

Sir, -

With further reference to official letter of June 7th regarding the resignation of Mr. R. B. F. Taylor, teacher of the James Smith's (North) Indian Day School, I beg to say that a communication has been received from His Lordship The Bishop of Saskatchewan enclosing an application from Mrs. Ada A. Godfrey for the position as teacher in this school, to begin duties when the school reopens after the summer holidays.

His Lordship is being informed that in the event of Mr. Taylor resigning, the Department will be pleased to accept the services of Mrs. Godfrey at the same salary and bonus as is being paid Mr. Taylor.

A communication was also received from Mr. Godfrey in the matter, and he was requested to communicate with you.

The Department has no definite knowledge as to whether Mr. Taylor is resigning or not, but considers that it would be in the best interest of the work if he did, in which event Mrs. Godfrey is to receive the appointment as his successor. Mrs. Godfrey's address is, #862 - 5th Ave., N.W., Moose Jaw, Sask., and I will be pleased if you will, in the event of Mr. Taylor giving up duties, inform her of her appointment to succeed him, and arrange with her to take up duties when the school reopens after the summer holidays.

You will be good enough to inform the Department as to the outcome regarding the securing of a teacher for this school for the next school year.

I might state that Mrs. Godfrey was formerly employed as teacher for several years at Fort a la Corne (South) Indian Day School, and gave good satisfaction.

In conjunction with Quarterly Return of the Fort a la Corne North Day School for quarter ending June 30th, forwarded to the Department under current date, and further to my letter No.177-II5 dated June 1st last in which I pointed out that in checking up the return for this school for Quarter ending March 31st last it was discovered that the school had been closed when it should have been open for 5 days in the month of March and 3 days in April, I have the honour to report that on taking this matter up with the teacher, Mr.R.B.F.Taylor, he has submitted the following explanations:-

"Re school days in March.
I am not in a position to state how my error occurred, for in the school register I have it as Mr.Henderson (Farm Instructor) reported. There were 64 school days in the quarter ending March 31st and school was open for 49 days.
The mistake was made by myself and apparently I did not govern myself by the register for which I apologise".

"April 4th. The roads were so muddy that the children did not come to school.
" 8th. The teacher was sick and unable to perform his duties.
" 25th. Only two children were present for school owing to the roads being in a terrible condition from the result of a recent snowstorm".

As remarked in my letter No.177-II5 referred to above, I do not consider these explanations very satisfactory.

James Smith Band,

Fort a la Corne, Sask.

24-6-21

Dept. of Indian Affairs.

A meeting was held on June 24th,1921 by the Band requesting that the Indian Department erect a Boarding School on James Smith Reserve, under the expense of the Indian Trust Funds from the interest of same.

The expense of the erection of this said Boarding School is to be paid half out of the interest of the Principal every year until it is paid for. From then the Indian Department be responsible of managing the school out of this expense.

This said Boarding School is to be accommodation for the James Reserve only. The Boarding School to accommodate fifty pupils.

We ask for a reply immediately concerning this request, as the South end of this said Reserve is in a bad condition of attending the North End Day School.

Trusting the Indian Department will take a serious interest in this matter and accept our offer.

We remain,

Yours truly,

Sir,—

Reference your letters of June 7th and 24th last Nos.199-4-1 re position held by Mr.R.B.F.Taylor as teacher at the North Fort a la Corne Day School on James Smiths reserve, I have the honour to inform you that on July 4th I wrote Mr.Taylor as follows:-

"With reference to your letter of the 4th May last asking for a transfer to another reserve, making special mention of John Smiths, and if a transfer was not secured asking me to accept your resignation, same to take effect on June 30th; and your further letter of the 25th of the same month begging to withdraw your resignation; I beg to inform you that copies of these letters were forwarded to the Department, who in reply say that they cannot approve of your request for an exchange between yourself and Mr.Lowe of the John Smiths Day School, and that if you are not satisfied with your present position you should forward your resignation in due time, in order that the services of a successor can be obtained to take charge when the school re-opens after the summer holidays. I informed you of this verbally on June 21st.

I am in receipt of a further communication from the Department stating that they have no definite knowledge as to whether you are resigning or not, but consider that it would be in the best interests of the work if you did, in which event the appointment of a successor will be made at once. I shall be glad to receive your reply by first mail, as the Department are waiting on this matter".

I am today in receipt of Mr.Taylor's reply which reads:-

"In answer to your letter of July 4th, your file 231-115. In reply I beg to state that I have made every arrangement to remain here for another year, and therefore I have not made any intimation of resigning to the Department of Indian Affairs.

As far as I know I am doing my duty here and it was only for personal reasons that I was going to endeavour to obtain a transfer, so far as the work goes I am well satisfied".

Mr.Taylor's work in the class room has been satisfactory, but in other matters as stated in my letter of June 1st, No.177-115, I cannot say as much and find no change.

Sir, -

I have to acknowledge the receipt of your letter of the 19th instant, with reference to the continuing of the services of Mr. R. B. Y. Taylor as teacher of the North Fort a la Corne Indian Day School on the James Smith's Reserve.

In reply, I beg to say that, as this school is conducted under the auspices of His Lordship The Bishop of Saskatchewan, who has the nomination of the teacher, and has already nominated Mrs. Ada A. Godfrey for the position of teacher to begin duties after the summer holidays, the matter of accepting the resignation of Mr. Taylor was referred to him. If the Bishop desires Mrs. Godfrey to take charge after the holidays he will no doubt inform Mr. Taylor accordingly, and instruct him that his services are not required. If, however, the Bishop consents to Mr. Taylor remaining, the Department will carry out his wishes regarding the appointment of a teacher for this school. Mr. Taylor was informed that he should consult the Bishop regarding whether he is to continue as teacher or not. His Lordship was also requested to inform the Department as to whether he accepts the withdrawal of the resignation of Mr. Taylor, or whether he has appointed Mrs. Godfrey for the position. The matter of obtaining a teacher for this school for the next year is in the hands of His Lordship.

His physical disabilities do not interfere with his class room work. Canada.

Dear sir-

I was called to Fort ala Corne reserve yesterday to visit some sick indians and while there was asked to see Mr Taylor,the schoolteacher.

Mr Taylor should be in a hospital,at least for a time,so as to be under observation.he is getting extremely thin and debilitated and needs ~~official~~ *special* care.I am strongly suspicous that his condition may be due to drug addiction and should be where he can be watched.

You are no doubt aware that serious charges of dishonesty are laid against him.He appears to be using his position to obtain credit and loans,which to all appearances will not be met. The last time he was in Melfort he came to me and borrowed $ 10.00 on the story that he came here intending to return the same day,but the indian who was with him would not go back until the next day,so he was put to the unexpected expense of stopping at the hotel overnight.

At that time I was under the impression that his story that he was a returned soldier and wounded while in the Army was O.K.but it seems information has been sought in Australia from Army Office and at present no trace can be found that he is on the pension list,which he certainly would be if he lost his leg in service.His conduct certainly needs looking into as well as his health.

Yours sincerely,

Sgd. M.D.Baker.

Sir,—

I have the honour to inform you that on the 12th inst. a telephone message was received at this office from The Secretary, Municipality of Kinistino, Sask. stating that Mr. R.B.F. Taylor, teacher at the Fort a la Corne, North, Day School on James Smiths Reserve had been brought to Kinistino and it was feared was out of his mind, and asking what should be done with him, and who should pay the expenses.

Mr Ewing, Clerk at the Agency here, who answered the phone in my absence, stated that he replied to take him to a hospital and that the matter of payment would be taken up later.

Yesterday I received from Dr. M.D. Baker of Melfort "Medical Attendant to James Smiths Band" a letter, a copy of which is attached hereto. This letter which is not dated, must have been written and Mailed not later than the evening of the 11th, in order to reach here on the 13th. After receiving the letter I phoned Dr. Baker who told me that Mr. Taylor had been brought to The Melfort Hospital and was there under his care, that he was very weak, temperature below normal, recognized him, the Doctor, and knew what was going on, but that he would have to be kept in the Hospital under observation for a certain time.

I asked Dr. Baker if he had any objections to my forwarding a copy of his letter to the Dept. to which he replied " you may do as you please about it". As regards charges of dishonesty etc. referred to in the Doctors letter, while I have heard rumors of same, these have not been brought to my attention "Officially" and I have not given same any special attention. I understand that Mr Taylor is hard up financially, that he has no money, and the matter of paying the Dr. and Hospital is one which will no doubt be brought to The Departments attention in the very near future.

I am today forwarding, enclosed herewith, his Quarterly School Return for the quarter ending Dec. 31st last, on which you will notice, written in red ink in the remarks column, that he requests that his salary and bonus cheques be sent direct, care Merchants Bank of Canada, Kinistino, Sask. From reports, I hear that he has prommissory notes to meet at the Bank. If this is the case and his Salary and Bonus cheques are applied thereon, there will be nothing left to pay the Dr. and Hospital.

OTTAWA, January 23rd, 1922.

Sir, -

I have to acknowledge the receipt of your letter of the 14th instant, enclosing a copy of a communication from Dr. M. D. Baker reporting on the condition of health of Mr. R. B. F. Taylor, teacher of the Fort a la Corne (North) Indian day school, on the James Smith reserve.

In reply I beg to say, in view of the doctor's report as to the condition of health of Mr. Tayler, and the reasons therefor, it is considered that he is no longer a suitable teacher for this school, and his services are therefore dispensed with.

You should take this matter up with the Anglican church authorities, under whose auspices the school is conducted, and request that the services of another teacher be secured as soon as possible. The December quarter return, which has just been received, shows an enrolment of 23 pupils with an average attendance of 14. In view of this enrolment, the Department is of the opinion that it would be advisable to have this school continued in the interests of the children. It is hoped that the church authorities will be able to nominate a suitable teacher to succeed Mr. Taylor at an early date. The salary allowed will be the same as was paid Mr. Taylor.

It is noted on the return that Mr. Taylor requested that his salary and bonus cheques be sent in care of the Merchants Bank of Canada, Kinistino, Sask., but as you state he will have hospital charges to pay, his cheques are being sent direct to you. You should have him endorse these cheques, and arrange to settle his indebtedness as far as possible.

As soon as the church authorities have nominated a teacher you should forward particulars regarding the name, qualifications and experience of the person so nominated.

You should inform Mr. Taylor that his services are not further required, and also get in immediate touch with the church authorities with a view to obtaining another teacher. (Bishop at Prince Albert)

Your prompt attention to this matter is desired.

Mr Taylor recognized me,but I did not converse with him as he did not seem to care to talk and said he was suffering from pains around his heart.

Dr Baker,who is attending him,could not say definitely what is ailing him,but seems satisfied that it is not drugs.As it is Mr.Taylor is very weak and it will be some time before he can get around.

Sir,

I am sorry to be under the necessity of informing you that I have received complaints regarding Mrs. J. F. Taylor, Teacher of the Day School on Fort a la Corne Reserve. I have written to Canon McLennan, our Missionary on that Reserve, and he too corroborates the statements that I have received regarding Mrs Taylor's unsuitability, both physically and otherwise. I have not heard directly from your Agent in charge of the Reserve, but I understand that he too does not consider Mrs Taylor a suitable man for the post. I am aware of course, that he was recommended by Bishop Newnham, late of this Diocese, but possibly the Bishop's information

Very Reverend Sir:

I have to acknowledge yours of the 28th ultimo, referring to Mr. R. B. F. Taylor, Teacher of the Fort a la Corne (North) Indian Day School.

In reply I beg to state that information has come to the Department during the past month, that makes it imperative that we secure the services of another teacher for this flourishing cause on the James Smith reserve. To this end our Agent, Mr. C. P. Schmidt, of Duck Lake, Sask. got in touch with Rev. Canon R. McLennan, the Anglican Missionary on the reserve. As soon as you are successful in nominating a teacher for this Indian school, the Department would be grateful for the name of the person selected and some information concerning qualifications, etc. The salary allowed will be at the rate of $750, plus whatever bonus is allowed by law. At present the bonus paid to Indian day school teachers amounts to $150.00 per annum. If you would communicate direct with Mr. Agent Schmidt, as soon as you have arranged for a successor to Mr. Taylor, the Department would be grateful.

Your obedient servant,

Russell T. Ferrier,

INDIAN AGENT'S OFFICE

Duck Lake, Sask,

Feb. 13th 19 22

IN YOUR REPLY REFER TO
No 651-120
ADD

Sir

Further to your No 109-4-1 of the 23rd and 28th Ultimo and my Nos. 610 and 624-120 of the 14th and 23rd of the same month, re Mr R.B.Fielden Taylor, teacher of the Fort a la Corne, North, Day School on James Smiths Reserve.

I have the honour to inform you that when on the said reserve last week, I made arrangements with Rev. Canon McLennan, Missionary on the reserve to take charge of the school for the time being, which he agreed to do. The School will be reopened on Tuesday the 14th, inst.

On my return home from the reserve on the 11th inst. I meet The Venerable Arch-deacon McKay, administrator of The Diocese of Sask. Church of England, and informed him that Mr Taylors services had been dispensed with. The Arch-Deacon told me he had written the Department asking that this be done. I asked him to nominate another teacher, a married man, as soon as possible.

I recommend and ask the Department that only a married man be engaged, the husband to teach school and the wife to be engaged as Field Matron for the reserve. A good Field Matron could finds lots to do and could do lots of good on the reserve.

With reference to the fourth paragraph of your letter of the 23rd, re Mr Taylors salary and Bonus cheques, I am returning these to the Department herewith, I find Mr Taylor is indebted in so many places that it would not be an easy matter to satisfy all his creditors. The following debts have been brought to my attention.

Merchants Bank,	Kinistino,	Note	$ 400.00
W.J.McNeil	"	Store Acct.	139.40
Leslie Lowe,	"	Loan	30.00
Canon McLennan,	Fort a la Corne,	Loan	? ?
H.Hunter,	Melfort,	Store Acct.	50.00
Sid.Moore, Druggist,	Melfort.	Store Acct	19.00
Dr.M.D.Baker,	Cash Loan		10.00

The Manager of The Merchants Bank, Kinistino, states he holds an agreement from Mr. Taylor, stating he will have his cheques go direct to the Bank, which is no doubt the reason why Mr. Taylor made a notation to that effect on his quarterly return.

Sir, -

I have to acknowlelge the receipt of your letter of the 13th instant, enclosing cheques Nos. 3460 for $187.50 and 3227 for $45.00, being salary and bonus due to Mr. R. B. Fielden-Taylor as teacher of the James Smith Indian Day School for the quarter ending January 31st, last. The statement of Mr. Taylor's indebtedness, which has been brought to your attention, is noted.

In reply I beg to say that the Department is not responsible in any manner for the settlement of any indebtedness due by Mr. Taylor, and is, therefore, returning the cheques herewith. You will be good enough to hand these cheques to Mr. Taylor, as the Department desires to settle with him for the amount due for his services. He should endeavour to settle with his creditors, as the Department cannot undertake the responsibility in this connection. It might be well to ~~obtain a receipt from Mr. Taylor for these two cheques~~.

It is noted that you have arranged with Rev. Canon McLennan to take charge of the school until such time as a qualified teacher can be secured. Your recommendation that a married man be engaged as teacher, the husband to teach and the wife to be engaged as field matron for the reserve, is noted. The Department has already taken this matter up with Venerable Archdeacon J. A. Mackay, Administrator of the Diocese of Saskatchewan, and we are awaiting the name of the teacher appointed by him.

RECEIVED

Sir:-

I have the honour to request that you give the following the attention which you may consider it deserves.

I was engaged as Teacher and Disciplinarian of the James Smith Reserve on Nov. 22nd 1920. For a while being a widower - I stayed with the Farm Instructor; but we had not much room and therefore I moved my belongings over to the Teacher's residence.

Being incapacitated by the loss of a limb, I took an Indian boy in to live with me and everything went well until the latter part of this year when I was taken sick and had to be removed to the Pilgrim Hospital where I was for seven weeks. Just previous to leaving that institution the Indian Agent - C. P. Schmidt Esq - called on me and told me that I would not be required further on the James Smith Reserve, and I am writing to ask you whether I am not entitled to a month's notice or a month's salary. Just previous to my sickness I was paid right out, principally because I was nothing for the children, as well as cleaning and soothing after the physical wreck of the Indians which at this time was heavy, and in the hospital I was unconscious for three weeks.

Now I am stranded, I have no work in sight and my sickness has drawn very heavy on my purse. I would, therefore, appreciate it if you would consider this letter from all its angles, and if favourable send me a cheque direct. It would further be appreciated if you would let me know the earliest for my discharge.

I have the honour to be,

Sir,

Your obedient servant,

R. B. Fielden. Taylor.

Sir, - WITH CHEQUES.

I have to acknowledge the receipt of your letter of the 20th ult., regarding the dispensing with your services as teacher of the Fort a la Corne (North) Indian day school on the James Smith reserve.

In reply I beg to say that the reason therefor was owing to your physical disability, it being considered that you were unable to give the services required as teacher of this school.

As you did not receive the customary one month's notice owing to your being ill in hospital, the Department is allowing you payment for one month's services as teacher and also one month's bonus. Cheque #3936, being salary for the month of January, and cheque #3329, being bonus for the same period, are enclosed herewith.

I have to request that you will be good enough to see that all your personal belongings are removed from the teacher's residence in order th t it will be vacated and ready for occupancy by your successor, who, it is expected, will be appointed at an early date.

Sir, -

A communication has been received from R. B. Fielden-Taylor, late teacher of the Fort a la Corne (North) Indian day school on the Jas. Smith reserve, in which he requests to be informed as to the reasons for his dismissal, and claiming, in lieu of the customary month's notice, that he should receive a month's salary.

It was considered, in fairness to Mr. Taylor, that he should be allowed salary and bonus for the month of January, last, and cheques covering the amount due for this period are being sent him, viz: a cheque for $75.00 for one month's salary and a cheque for $15.00 for one month's bonus.

Mr. Taylor was also informed that, owing to his physical disability, it was considered that he was unable to give the service required.

He was requested to have his personal belongings removed from the teacher's residence in order that it will be vacated and ready for occupancy by his successor, who, it is hoped, will be nominated by the church authorities at an early date.

from Pleuring, and on being discharged from said Hospital I found myself without a home owing to the notice from C. P. Schmidt Esq. that my services would not be required any further on the James Smith Reserve, and also an account from the Hospital which is going to take me all my time to settle. All this time – my foot previously described – was getting worse, consequently I was compelled to seek medical advice with the result that I was told that amputation of the toes were necessary, therefore, on the 27th of March, I came to the above Hospital and was operated upon on March 29th and am to be operated on again on April 10th for the same purpose. It makes it doubly hard for me for I am already incapacitated by the loss of one leg and now with the toes off the other foot I shall find it very difficult to get along. Since I was in your employment at the time of the two accidents, I was wondering whether you could do anything for me towards helping me to meet part of the expense or to help me to live after I am discharged from work or before I obtain any lucrative employment.

Original on File 109-5-1.

Ottawa, August 18, 1922.

Very Reverend Sir:-

I have to acknowledge receipt of your letter of the 12th instant, informing the Department that Mr. J. B. Lowe, teacher of the school on the John Smith's Reserve, requests to be transferred to the school on the James Smith's Reserve, and stating the reasons for desiring this exchange.

In reply I beg to say that there would be a difficulty in making this exchange. Mrs. Lowe is Field Matron, and her position has been established by the Civil Service Commission. If this transfer were made and her services retained, it would be necessary to have the position of Field Matron for the James Smith's Reserve established by the Civil Service Commission. The Department has not considered the appointment of a field matron for this last named reserve.

The salary allowed Mr. Goodman is at the rate of $750 per annum plus bonus: the salary paid Mr. Lowe is $600 per annum plus bonus and Mrs. Lowe, as Field Matron, $480 plus bonus.

In view of the above, the Department does not consider it advisable at the present time to arrange an exchange in positions between Mr. Goodman and Mr. Lowe, without some stronger reason being given therefor than has been up to this time set forth.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Sir:

I have to inform you that the Public School Inspector has reported favourably concerning the services of Mr. Goodman, Teacher of the James Smith Indian Day School. He intimates, however, that the attendance is quite irregular and that the pupils are not punctual. I should be pleased if you would communicate with the teacher, and make a recommendation to the Department, regarding the methods that can be adopted to remedy this condition.

Dear Colonel Starnes.

The Indian agent at Duke Lake in a recent communication refers at some length to the matter of irregularity in attendance of the Indians at the Fort a la Corne school. It appears that no attention has been paid to his warnings or threats that the children would be removed to a residential school if they would not attend the day school. A portion of his letter is as follows :-

> " The appointment of a truant officer might help matters, but this would necessitate an outsider, as I doubt if any member of the band would have the required authority to enforce the law. If a member of the Royal Canadian Mounted Police could be got to patrol the reserve about once a month, I believe it would help the attendance considerably. "

Would it be possible to arrange for the patrol of this reserve at intervals, as I think your officers would have a more salutary effect than a truant officer appointed by this Department.

Yours very truly,

Deputy Superintendent General.

Acting on instructions received from the Officer Commanding at Prince Albert, on October 22nd 1923.

P.A.Ref.
A.M. 290.

I left Prince Albert on the morning of October 22nd last, with saddle horse Reg. No. 1969, and patroled to the James Smith's Indian reserve, at Fort a la Corne, Sask. On my arrival on the reserve on the 24th Inst. I interviewed Mr E.B.Goodman the School Teacher on the reserve, and obtained [redacted] the names of the children that were not attending school regular from him.

D.D.15-11-23.

That afternoon and on the 25th Inst, I patroled the reserve and visited the parents of these children and notified them, the necessity of them sending their children to School regular, or that the children would likely be taken away and sent to a residential School.

On interviewing Mr E.B.Goodman the School [redacted] Teacher on the 25th Inst, he informed me that the attendance was better that day.

I returned to Prince Albert, arriving there on the 27th Inst.

Indian Act. (School Attendance)
Pe-tu-a-la-Ce-me. Sask.

Acting on instructions received from the Officer Commanding, of "F" Division on December 6th last. I left Prince Albert on the afternoon of the same date with saddle horse Reg. No. 1969. and patrolled to the James Smith's Indian reserve at Pe-tu-a-la-Ce-me.

A.A. 290

I.D.

On the morning of the 7th Inst. I visited the School on the reserve during the school hours and noticed that the attendance was better than what it was on my previous patrol to the reserve. Mr. Goodman the School teacher on the reserve also informed me that the children were attending better at the present time, than what they had been doing before my previous patrol, also that they were coming to school on time now, whereas before some of them were always about two hours late in getting to school.

On my previous patrol to the reserve Mr. Goodman informed me that one of the boys Simon Brittain son of Andrew Brittain was not attending school and had not been doing so for some time as his Grandfather Samuel Smith had the boy away hunting with him, and had just returned to the reserve so I called on the Grandfather and informed him that the boy would have to attend school. On my visit to the reserve on the 7th Inst. Mr. Goodman informed me that this boy had not attended school since the last patrol, as the Grandparents had taken him away hunting with them again shortly after I had left the reserve the last time. I visited some of the Stoney Indians on the reserve on this patrol and made inquiries concerning the whereabouts of this boy and his grandparents and was informed that they were still away hunting. Mr. Jorden the Farm instructor on the reserve informed me that this boys father was away hunting since last spring up in the Isle-la- ross district, and that before he left the reserve he left the boy with Peter Mousestass so that the boy could attend school, but shortly after the father left the Grandmother claimed the boy stating that before the mother died she had given her charge of the boy. I am also informed that lately she stated that she would take the boy away hunting with them when ever she liked. It appears that the only way to get this boy to attend school would be to put him in one of the boarding schools.

There is a lot of children of school age living at the south end of the reserve that aren't attend school on account of being to far away from the school at the north end of the reserve, and the school at the south end has been closed for some time.

Sir:

I beg to acknowledge, with thanks, receipt of your letter of the 31st ultimo, enclosing copy of a report from the officer commanding at Prince Albert regarding the action taken in enforcing the attendance of Indian children at the James Smith's Indian Day School.

We are communicating with Mr. Schmidt, Indian Agent, Duck Lake, regarding the case of Simon Brittain, who is not attending school, and requesting him to take the necessary action to have this boy placed in a residential school of the denomination to which he belongs.

Ottawa, January 4, 1924.

Sir:

The Department is in receipt of a report, forwarded by the Commissioner of the Royal Canadian Mounted Police, from the constable who patrolled the James Smith's Indian Reserve early in December, last, regarding the enforcing of school attendance.

The constable in his report has drawn attention to the case of a boy named Simon Brittain, son of Andrew Brittain, who has not attended school for some time as his grandfather, Samuel Smith, had the boy away hunting with him. The constable also states it would appear that the only way to get this boy to attend school would be to put him in one of the boarding schools. I have to request that you will arrange as soon as possible to have this boy placed in a residential school of the faith to which he belongs. You should have an application prepared on the form for that purpose and signed by the father or the person responsible for his care. If the father or other interested party refuses to sign the application, you may take the necessary steps, under the Indian Act, to have the boy placed in a residential school.

I shall be pleased to be advised at a later date as to the action taken in his case.

Your obedient servant,

J. B. McLean,
Asst. Deputy and Secretary.

Ottr. Ref. No. 22D62-1027.

Report re Indian Act (School attendance) Fort a La Corne, Sask.

F.A. Ref. No. A.H.290.

D. Date.

Acting under instructions from the C.C. "Y" Divn., I beg to report I patrolled through the Fort a La Corne Indian Reserve on 28th. May last & on the 29th. ult, I visited the school.

I interviewed the school-teacher, Mr. Goodman & he informed me that there was only a small attendance at the present time on account of seven children having been taken from the school & transfered to the boarding school.

There was also two absentee cases & upon investigating these, I found that one of them was a case of toothache & in the other case I found that the father of the child, Jacob Twist, was contemplating making a trip down the river picking roots & was taking the child with him, but after a little persuasion, I managed to get him to make arrangements with a neighbour to look after his child until he returned, & the girl again attended school that afternoon.

Mr. Goodman strongly advised that a patrol be made before the latter part of August, before the school opened after the holidays, as there would be several children of school age by that time & the parents would not likely send them to school unless they saw that the police patrol was on the job.

In conclusion, I beg to state I found that I otherwise found everything on the reserve in good shape, no cases of drunkenness, etc. to investigate

Ottawa, January 30, 1925.

Sir:

I wish to refer to that portion of your No. 309-9 of the 22nd instant, which relates to the education of the children on the James Smith Reserve. You will remember that it is your intention to discuss with Mr. Inspector Murison the advisability of moving the Fort a la Corne North day school ten miles to the south of the reserve, where there are a large number of our wards of school age.

From reports on file, it appears that there are 26 children of school age living within two miles of the site of the old Fort a la Corne South school. In addition to these, there are 3 children six years of age and 24 still younger in the same area. These facts have been taken from a comprehensive report of Mr. Indian Agent Schmidt dated May 22, 1923. The local Church of England missionary and His Lordship the Bishop of Saskatchewan have on several occasions urged the re-opening of the Fort a la Corne South Indian day school. R.C.M.P. officers who have patrolled the reserve have also drawn our attention to the number of children at the south end.

There are no suitable buildings available, with the exception of the stable; so the provision of a classroom and a teacher's residence would have to be made. In addition, a well is required.

Sometime ago the question of moving the Fort a la Corne North school buildings to the south of the reserve was discussed. After serious consideration, it was decided not to proceed with this undertaking. Today the problem is unchanged, as there has been in the North school an enrolment of 15 during the present academic year. The average attendance was never higher than 12 for any one quarter, but the teacher, Mr. Goodman, who is apparently doing good work, reports that eight additional children will be ready for school this coming summer. However, if the reserve is to be reduced in the immediate future by selling a portion of it, this scheme of moving the buildings might be considered, if the north part of the reserve is to be relinquished.

Please keep these facts in mind during your deliberations, and when you are discussing the question with Mr. Murison, make a recommendation to the Department. At the present writing, there is in the draft of the Estimates for Indian Education 1925-26 an item of $4,000 to build a combined school and teacher's residence at Fort a la Corne South.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Fort a la Corne, James Smith Reserve,
Kinistino,
Saskatchewan.

Feb: 26. 1925.

The Right Reverend the Lord Bishop of Saskatchewan.

Bishopsthorpe, Prince Albert,

Saskatchewan.

My Lord,

The Indians of this band, whose children have been taken to the Elkhorn Boarding School, wish to have them returned; the reasons being as follows:-

1.

All the children from the James Smith Band, who were in the MacKay Boarding School, were removed to the Elkhorn Boarding School with neither the consent nor knowledge of the parents.

2.

The Elkhorn School is too far from Fort a la Corne for visiting children in case of sickness or for holiday travel. The expense being too great.

3.

The children have been in ill health since going there & there has been one death & several others are on the sick list.

4.

In the event of it being necessary for children from this band to attend a Boarding School, we would wish them to attend a school within the Diocese of Saskatchewan.

5.

The Elkhorn Boarding School was misrepresented to the Indians of this band by Mr Eby, the Principal, who gave us to understand that it was an Industrial School.

On behalf of The James Smith Band,

Signed, James X Head His Mark.
Chief James Head.

Dear Sir,

In further reference to my letter to you with regard to the depletion of the Day School on Forta la Corne Reserve:-

I send you enclosed two statements, the one being the Petition from the Chief and band on the occasion of my visit to the reserve recently for Confirmation, and also the statement of the Teacher of the Day school who put this statement in writing at my request.

The children of this band have been taken out of the Diocese systematically, those who were at the McKay boarding school were taken to Elkhorn, as the chief says without their knowledge, and some of them only knew about the removal after the death of one child.

The others were taken from the Day school with the consent of the chief on the statement that they would be much better off at Elkhorn as it was to be an "Industrial "school. Now they know it was not.

I may say that I am very much annoyed at this "Brigand" way of dealing with these children. This man Ely, from another diocese and another province, comes into one of our Missions and is told by a Roman Catholic Agent that he is free to do as he likes and take and leave what he pleases. Without any reference to Bishop, Missionary, or teacher these children are taken by misrepresentation to the Indians to a distant school.

The Agent silences the teacher by the statement that the Church hires him but he the agent fires him and at 24 hours notice too.

The teacher thinks his school has been purposely depleted in order to give colour of excuse for "firing" him. Those he has left are so diseased that during the cold weather they cannot attend school.

PRINCE ALBERT,

This man Elys statement that he acted with the authority of "The House of Bishops" and of Commissioner Graham, I can of course deal with in another way. He is a clergyman and is subject to the canonical jurisdiction of his Bishop but that is quite aside from this"pirate"way of destroying the Day schools in order to fill the Residence schools.

The school at Mistawasis has been depleted in the same way and it is quite evident to us on the ground that it is part of a systematic attack to extinguish the Day schools in favour of the Residence schools.

This matter has already come before the Executive Committee of the Diocese and without a single voice in opposition a strong resolution was passed against the action of the M.S.C.C. Committee in Winnipeg in allowing or encouraging these things on the part of their agents.

That of course must be taken up through Church channels, but the killing of the Day Schools is a serious question for the Department as w well, and as such this case is reported to you as a test case representing what we in this diocese consider a vicious tendency behind it viz the draining and then the suppressing of the Day Schools on the reserves.

Believe me to be

Yours very faithfully,

George Exton Saskatchewan

I

Fort a la Corne, North Day School,
James Smith Reserve,
Kinistino,
Saskatchewan.

Jan: 19. 1925.

The Right Reverend the Lord Bishop of Saskatchewan.

Bishopsthorpe. Prince Albert,

Saskatchewan.

My Lord,

On the 14th day of March 1924 this school w was visited by the Rev: W. Ely of Elkhorn & the Indian Agent C. P. Schmidt of Duck Lake. They inspected the school & Mr Ely selected 7 (seven) of my most promising pupils & informed me that he was taking them away to the Reopened .Industrial School at Elkhorn. I was not consulted neither was I given the slightest Consideration. He informed me that he had his authority from The House of Bishops, which is the reason for my not having written you at the time, & from Commissioner Graham, Regina. Agent C. P. Schmidt informed him in front of me; that he had a free hand to do as he pleased. He had some of the children undress, so that he could examin their condition, & these that were too repulsively diseased he told me I could keep. At this date I had 15 children on the school roll, & the school was being regularly attended. The average attendancefor the quarter being 12.25 as my reports will show .

Now, at the time of Mr Ely's visit, there were at the South End of this Reserve, which is another school district, the school being closed as the buildings have been condemned by the Indian Department, & which is eight or more miles from this school, not less than 40 Indian children of school age, who had absolutely no opportunity of going to school. For reasons best known to himself, he did not take them& they are still running wild & neglected; while my school was robbed of half it's pupils.

Previous to Mr Ely's visit, Agent C. P. Schmidt removed from my school 4 of my pupils& took them to the Gordon Boarding School.

Since I came here I have done my best to make this school a success & at one time I had 19 pupils attending; but it has never been given a fair trial or chance, as it has been systematically emptied.

The above is a true & faithful statement & I am prepared to take oath on it.

I remain, My Lord,

Your obedient servant,

Ernest B. Goodman.

Ottawa, March 12, 1925.

Dear Bishop Lloyd:

I have Your Lordship's letter of the 4th instant, relative to recruiting the pupils of the Fort a la Corne North Indian Day School for residential schools. At the outset, I wish to assure you that the Department's aim is to maintain whatever schools, both day and residential, are found to be necessary for the training of the youth of our wards. Your Lordship may assure Mr. Goodman, the teacher, that there is no intention of depleting his school and then dispensing with his services. You may also inform the Indians of the James Smith band that the Elkhorn Indian Residential School is an industrial school and that the children are given an education along both vocational and academic lines. The Department has discontinued the use of the words "Boarding" and "Industrial", but if the old classification still obtained, the Elkhorn school would rank as an industrial one.

With reference to the general question raised by Your Lordship, I wish to refer you to official letters 160-2 of November 8th and January 9th, last.

Yours very truly,

J. D. McLean

If on the other hand you would rather have things arranged as they were at Red Pheasants and let Mr Bird be the teacher and Mrs Bird the Matron it can be arranged in that way quite well. Dear Sir.

In the event of Mr and Mrs Goodman of Fort a la Corne School being transfered to Sandy Lake school and matronship I should like to nominate in their place at Fort a la Corne School the Rev and Mrs Bird, at present in charge of the McKay Residential Scool, the appointment as Teacher going officially to Mrs Bird because she has the Normal School qualifications, though Mr Bird has always helped in the teaching.

See 608/107-2-1

You may recall that they were both at the Red Pheasant Reserve School before going as Principal of the McKay Boarding School. They did very well at Red Pheasants but have not done so well at the residential school, just as I expected. They will both do well in the day school work but are not suited for a residential staff.

I will send forward a statement of Mrs Birds qualifications as soon I receive them, but I know she has the Normal School certificates from Saskatoon Normal School and is thoroughly qualified. I should like

Dear Mr. McLean:

Since telegraphing to you yesterday, I have received a letter from the Bishop of Saskatchewan, nominating Mr. and Mrs. Goodman, of the Fort a la Corne Reserve, for positions at Sandy Lake, which is west of Prince Albert. His Lordship informs me that this transfer is at the request of Mr. Goodman. I may add, for your information, that the work on the Sandy Lake Reserve is an important activity, for, in addition to the day school, there is a cottage hospital.

Yours very truly,

Dear Bishop Lloyd:

With further reference to your letter of the 4th instant, relative to the Fort a la Corne North Indian Day School, I am pleased to approve of the appointment of Rev. and Mrs. Bird to this work. I believe it better to have Mr. Bird appointed as teacher and Mrs. Bird as field matron; but it is understood that Mrs. Bird, who is fully qualified for classroom activity, will take charge there and that she and her husband will divide the field work. Salary at the rate of $80 per teaching month and $480 per annum will be allowed for these two positions.

The Mackay School
The Pas. Man.
July 11/27.

The Right Reverend
The Lord Bishop of Sask.
Bishopsthorpe,
Prince Albert, Sask.

My Lord and Dear Sir;

With reference to qualifications for teachers, I hold no certificate, but taught in England as pupil teacher for nearly two years, and have taken the class rooms here both senior and junior for two or three months at a time, and when the Inspector visited the school in the early days, I received a very good report from him.

While teaching at Red Pheasant, the school was visited by Inspector Murison who expressed his satisfaction with regard to the childrens' progress in warm terms, and the Provincial Inspector sent a very good report to Mr. Russel Ferrier Minister of Education for the Indian Department, who was so pleased with the report that he granted us a Volley Ball outfit, and sewing material for the girls.

Mrs. Bird is an English trained certificate teacher, she was granted a Second class certificate on her qualifications, and will be granted a First class whenever she gets another Inspector's report. She interviewed the Education authority at Regina, on this matter two years ago. Mrs. Bird has St. John's Home nursing, and has taken St. John's First Aid, but never took her examination, she also holds Drill, Drawing, and Voice culture certificates.

Dr. Norquay at Battleford was well satisfied with her work amongst the people at Red Pheasant and Stoney Reserves, and I am sure would be willing to give a recommendation if required.

Mrs. Bird is willing to take the teaching and Matron work, while I look after the Mission work, though I would prefer to take the school, and she help if necessary, as I feel that I have no right to expect her to take what I feel would be the Lion's share.

Would you kindly forward any information with regard to the Mission.

Yours sincerely,
(Rev) E. Bird.

Inspection of the Pas Indian Boarding School.

February 26th, 1915.

Miss K.S.S.Upsdell, Teacher of the Junior Room had present 21 girls and 28 boys; a total of 49, all in the First Standard. All the pupils in this room are being grounded in the sounds of the letters and can read small words on the blackboard. The Sinior part ofthe room read santences well on the blackboard. All this reading and spelling is before recess. After recess this teacher, for one hour takes both rooms in one classroom and teaches the child en figures, the making of them, and also the doing of several sums on the blackboard. In Standard 1, are all the grades, from knowing absolutely nothing to reading fairly well.

Miss Upsdell is qualified by two years at Goldsmith's Training College, University of London. Had four years of pupil teaching. Has special distinction on teaching and needlework. Has been teaching for five years in England and twelve months at Coblentz, Sask. and at Le Pas School for two months, has no normal training. Has a certificate from the Froebel Institute in London, England, Elementary and Part One of Higher.

Inspection of the Pas Indian Boarding School.

July 6th, 1915.

Junior Room. Miss K.S.S.Upsdell, teacher. Present at inspection 26 girls and 14 boys. All in the First Standard. All the children are making good progress in Reading, Writing and Arithmetic. They can all write from dictation and a number can recite from their lesson book. They also sing nicely a large number of pieces. I consider that Miss Upsdell has done a remarkable work in connection with the junior room at this school and very great progress can be noticed since my last visit.

Dear Mr. Scott:

Enclosed please find statement of the qualifications of Mrs. Bird, formally Miss Upstell.

I have seen each of the certificates and have returned them to the owner. As you see, Mrs. Bird has the full English Training College and only needs one other inspector's report to have that confirmed as a first class. So far she has not been able to get this because she has been for so many years in the Indian work. Possibly now the Public School inspectors are inspecting the Indian Schools, she may be able to get this.

Believe me to be,

Sir,— Reference Departmental letter No 109-4-1, dated July 27th.last, informing me that the Depar had approved of the appointment of Rev.E.V.Bird to the position of teacher of the Fort a la Corne North Day School, and that Mrs Bird was receiving the appointment of Field Matron on the reserve.

I have the honour to report that while on James Smiths reserve on the 28th ultimo, I visited the school and met Rev Mr.& Mrs Bird.

When I arrived there at about three O'clock, P.M. I found Mr Bird engaged in repairing the fence around the buildings, Mrs Bird was in the class room teaching. In conversation with them they informed me that Mrs Bird was a qualified teacher for the Province, and that she was the one who was to teach the school, that Rev.Mr Bird who is doing Missionary work on the reserve was assisting her with her duties of Field Matron, and that should any cases of sickness arise which demanded her personal and immediate attention during class room hours, Mr Bird would take charge of the school during her absence. I replied that this did not agree with Departmental letter referred to above, which I had with me and showed them.

Rev.Mr Bird then informed me that he had a letter, which I understood was sent him through his Lordship the Bishop of Saskatchewan's office at Prince Albert, which stated that the arrangement mentioned above was satisfactory and could be carried out.

At my request he offered to show me the letter, and while looking for same remembered that it had been returned to the Bishop's office.

Mrs Bird informed me that Mr.J.F.Hutchison, Inspector of Public Schools, had inspected her school during the past month.

Dear Mr. Graham:-

I beg to report that when on the James Smiths Reserve, in the Duck Lake Agency, I visited the North Day School and noted its condition. There were no pupils present, as the holiday season is now on. There are some minor repairs and decorating to be done on the buildings, but these are being arranged for by Agent Schmidt, who has the necessary authority. I found the grounds in a very creditable condition - clean and tidy. There is a large garden in connection with this school, which I found was being well cared for. The garden stuff is well advanced and gives promise of yielding a good crop of roots and vegetables. These are used during the winter months in connection with a midday lunch supplied to the children. Mrs. E.V.Bird has been appointed Teacher and Field Matron. Her husband is the Anglican Missionary for the reserve and surrounding district. I was under the impression that Mr. Bird was the Teacher, and his wife the Field Matron, but I find this is not in accordance with their appointment, and Mrs. Bird will certainly have her hands full in performing the duties of a Teacher and a Field Matron on this large reserve, and there may be times when one branch of her duties will not receive the attention it should. The Agent was under the impression that Mr. Bird was the Teacher, but this is not stated in his letter of appointment.

Dear Mr. Scott:-

I am enclosing herewith a report on the various schools in the Duck Lake Agency, which were visited and inspected by Mr. Murison during the month of July.

I would draw your attention to what the Inspector says regarding Mr. & Mrs. Bird. I would judge from the Inspector's report that Mr. Bird is not teaching, nor is he taking any active part on the reserve, other than the work of a Missionary, and I do not know whether he is in the employ of the Department in any capacity or not. I hardly think he could be drawing a salary for acting as a Missionary on the reserve. My reason for making these remarks is that the Inspector states that the work of teaching and attending to the duties of Field Matron falls on Mrs. Bird, and from this I would gather that Mr. Bird is not doing any Departmental work at all.

With regard to the South Day School, it might be advisable to install a small pipeless furnace in the Teacher's residence, as the house appears to be very small. I could have this installed at a small cost; I cannot give you the exact figure, but it would be around $200.00. If you will give me the necessary authority I will have the Agent proceed with the work. I would also recommend that I be authorized to have a furnace installed in the school, as you will note what the Inspector says regarding the unsatisfactory heating arrangements.

You will note that Mr. Waite and his wife are doing good work on the John Smiths Reserve, the former as Teacher, and the latter as Field Matron. The soft water tank in their residence should be replaced without delay, and a small sidewalk should be built at the school. The cost of these items will be kept down if the authority is given to provide them.

Yours very truly,

Sir:-

I have your letter of the 17th. instant, No. 109-4-1, with reference to Inspector Murison's remarks regarding the services of Mr. and Mrs. Bird at the James Smith's School.

The Inspector in his report points out that, as Mrs. Bird has the full responsibility of the teaching, as well as the work of field matron, he is of the opinion that she is overworked, and that one branch of the work may suffer as a consequence. According to the records Mrs. Bird is not the teacher of this school; Mr. Bird is the teacher, and he, apparently, is devoting his whole time to missionary work amongst the Indians and also in the surrounding district, and it was for this reason the Inspector thought it necessary to bring the matter before the Department.

Sir:

I have your 305-11 of the 23rd instant, with reference to the services of Mr. and Mrs. Bird at the James Smith Indian Day School. When these workers were appointed, it was clearly pointed out to His Lordship the Bishop of Saskatchewan that Mrs. Bird was to supervise the classroom activity of her husband. The pupils of the school will benefit by having Mrs. Bird in the classroom as much as possible; but it is understood that when a woman's services are needed in connection with the field duties, Mr. Bird will carry on the classroom activity.

If, at any time, you or the inspectors find that either the field work or the teaching is suffering from lack of attention, I should be grateful if you would let me know.

Memorandum:

MR. PRATT.

Pursuant to your telephone inquiry, I have to state that on September 1, 1927, Mr. E. V. Bird was appointed teacher of the Fort a la Corne North Indian Day School at a salary of $800 for the academic year. Mrs. Bird was appointed field matron at a salary of $480 per annum. She possesses better teacher's qualifications than her husband and she directs his classroom activity. The field duties are divided between them. This arrangement was made to allow Mrs. Bird considerable time in the classroom.

I may say that this arrangement is similar to that made in 1920, when Mr. and Mrs. Bird were appointed as teacher and field matron, respectively, at the Red Pheasant Indian Day School. Their services were very satisfactory up to the time of their resignation after three years on our staff. In 1923, Mr. Bird was appointed principal of the MacKay Indian Residential School at The Pas. He filled this position with only indifferent success, and last year, when he and his wife offered themselves for day school activity again, the Department was glad to approve of their appointment to Fort a la Corne.

Sir:-

Replying to your letter No. 109-4-1 dated August 28th last, with reference to the services of Mr. and Mrs. Bird at the James Smith Indian Day School, I note that when these workers were appointed it was pointed out to His Lordship, the Bishop of Saskatchewan, that Mrs. Bird was to supervise the classroom activity of her husband. This evidently was not passed on by His Lordship to Mr. and Mrs. Bird as the Inspector has pointed out that Mrs. Bird is performing the whole duties of a teacher and that of Field Matron as well, while Mr. Bird is devoting his whole time to missionary work, mostly outside of the reserve, and drawing a salary from the Government as a teacher.

In the last paragraph of your letter you state,-

> "If, at any time, you or the inspectors find that either the field work or the teaching is suffering from lack of attention, I should be grateful if you would let me know."

This is exactly what I have done. The Inspector, in his report, points out that Mrs. Bird has the full responsibility of the teaching, and it is his opinion that one branch of the work must suffer. Therefore these people should be put right as regards their appointment as evidently Mr. Bird has not been correctly informed regarding his position.

Right Reverend Sir:

I wish to refer to the activity of the Rev. and Mrs. Bird at the Fort a la Corne North Indian Day School. It is reported that Mr. Bird is devoting his whole time to missionary work, mostly outside of the reserve; and this Department fears that Mrs. Bird will not be able to do full justice to the classroom and to the field matron's position, unless she is given material assistance by her husband. You will remember that, while Mr. Bird was appointed teacher, it was understood his wife, who is well qualified, would take charge of the classroom activity and that she and her husband would divide the field work. When she is occupied with field matron's duties, Mr. Bird should be in the classroom; but it is understood that his activity there will be supervised by his wife. I should be grateful if Your Lordship would inform these workers definitely concerning the Department's intention and wishes.

Mrs Bird 700
Jas Bird 480

As will be seen this letter addressed to me on July 14th last was received here on the 25th idem but was mislaid and not again seen until a few days ago, hence the reason for the delay in forwarding same which I very much regret.

Mrs Bird is a capable teacher and I understand the Inspector of Provincial Schools who examines her work has reported on same very favourably.

If Mrs Bird devoted her whole time to teaching I would be plesed to recommend an increase of salary, but holding as she does the dual position of teacher at the North end school and Field Matron for the whole reserve (North and South ends) I find that she has too much to do.

Rev Mr Bird helps her as much as he can and is a willing worker, but having to substitute for her in both positions is not in my opinion in the best interests of the work.

I consider there is sufficient and plenty of work for a Field Matron on the reserve without having to teach school and it seems to me that the Rev.Mr.Bird is capable of taking full charge of the class room and leave Mrs Bird's time entirely to her field Matrons work.

FORT A LA CORNE NORTH DAY SCHOOL.

The work here is carried on by Mrs. Bird who, I understand, is qualified as a teacher. Mrs. Bird is also paid as Field Matron, which work cannot help but conflict with her duties as teacher, with the result, as I pointed out to Mrs. Bird, that some of the work suffers. There is no reason why Mr. Bird could not carry on the classroom work and allow Mrs. Bird to be free in order to do the Field Matron's work, and as this is a large reserve, I believe her time could be entirely taken up and we would perhaps see better results.

The roll calls for 21 pupils, 12 girls and 9 boys. The grades are as follows:-

FORT A LA CORNE NORTH DAY SCHOOL (CONT'D.)

The children are improving, but progress is slow. Mrs. Bird puts plenty of vim in her work and one would almost expect better results. However, the children are somewhat irregular in attendance and this no doubt retards progress.

The children were fairly well clothed, but were not tidy; in fact, I took occasion to point out that many of the children had not even combed their hair. I further noticed that the children sat down to the noon-day meal without washing, although they are provided with wash basins and towels. I had Mrs. Bird send them out to wash. She explained that the children always washed, but had just taken advantage on account of visitors.

The seats are of the old double type. Mrs. Bird remarked that as she had been unable to secure new seats through the Agent and Inspectors, she had written direct, and I understand new seats are being provided. These should be securely put together and fastened to slats on arrival, as otherwise, they will be knocked about and broken.

The outside windows were on, but the screens were still lying about outside. Mrs. Bird said they had been left out in order that they might be painted. This was no doubt true, but undoubtedly they had been neglected, and I found two or three broken.

The school and residence have both been painted this year, and the work is well done.

I was not altogether impressed with the work and conditions about the school, but we can hardly

expect a woman to act as teacher and Field Matron and find both positions satisfactorily filled. Mrs. Bird is a good worker and capable of filling either position, but not both, and it would appear that the only satisfactory arrangement would be for Mr. Bird to assume the duties of teacher and leave Mrs. Bird free to prepare the noon-day meal and attend to the Field Matron duties on the reserve. I would not wish to convey that the classroom work is greatly suffering, but I do believe the field work is, and I cannot see where the Department are receiving value for the salary paid as Field Matron, which is $480.00 per year. I was informed by a number of the Indian women that Mrs. Bird had not been in their homes for several months.

Dear Mr. Scott:-

I am enclosing herewith a report on the various schools in the Duck Lake Agency, which were inspected by Mr. Hamilton during the month of November.

I hardly think the Department should be called upon to supply new single seats at the Fort a la Corne Day School when we have perfectly good double desks. Is it the policy of the Department to abandon the double seats in these junior schools and replace them with single seats? You will note that the Inspector was not impressed with the conditions existing at this school. He refers to Mrs. Bird acting as Field Matron as well as Teacher. This, of course, is an impossible situation, and I brought it to the attention of the Department before. It seems to me unfair to the teacher and the Indians to allow this situation to exist. Mr. Bird is employed as teacher and he should carry out his duties, and in the capacity of Field Matron Mrs. Bird will find plenty of work to occupy all her time.

EXTRACT 107-4-1

The children at the Moose Woods School are not doing very well. They are only in the three lower grades and this school has been open for years.

The report on the Duck Lake Boarding School shows that everything is in good shape. We have always had a good report on this school.

Right Reverend Sir:

I wish to refer to the services of the Reverend and Mrs. Bird at the Fort a la Corne North Indian Day School. A recent report indicates that Mrs. Bird is not giving sufficient time to the duties of field matron. Will Your Lordship please give instructions that Mr. Bird is to take practically all of the classroom duties, thus releasing Mrs. Bird's time and energy for field work. The Department Inspector reports in part as follows: "The only satisfactory arrangement would be for Mr. Bird to assume the duties of teacher and leave Mrs. Bird free to prepare the noonday meal and attend to the field matron duties on the reserve. I do not wish to convey that the classroom work is greatly suffering, but I do believe the field work is, and I cannot see where the Department is receiving value for the salary paid to the field matron. I was informed by a number of the Indian women that Mrs. Bird had not been in their homes for several months."

My dear Sir:

Your letter of December 20th reached me yesterday, and in reply may I say that I have sent your letter on to Mr. Bird at Fort a la Corne and have asked for his comments on the recommendation made.

I may say that the Rev. Mr. Bird came in to attend a meeting of the Executive Committee of the Diocese the other day, and made a very full statement, the result of which left the impression on most of our minds that there would be no real solution in that reserve until Mrs. Beveridge from Fort a la Corne is moved to some other reserve.

There is no very great objection to Mrs. Beveridge herself, she is a good teacher in her school. The trouble seems to lie with her husband, who in conjunction with a Roman Catholic Agent can make lots of trouble for the Clergyman. I think the real trouble lies between the Agent who is a K.C. and the Clergyman who is a K.K. and if that is the real source of the trouble then we shall certainly stand up for the Clergyman as against a K.C. Agent.

I have, however, asked Archdeacon Paul to go fully into the matter on the ground, and to give me a full report as to exactly where the trouble really lies. I am sure I can get a trustworthy report from him.

Believe me to be,
Youre very faithfully,

JAMES SMITH'S NORTH INDIAN DAY SCHOOL.

On the [illegible] I visited this school, May 16th, the teacher, Mr. Bird, had gone to Prince Albert with three Indian children to meet the Principal of the Onion Lake Indian Boarding School. Mrs. Bird accompanied him, consequently the classroom was closed. My impressions were that in cases of necessity where Mr. Bird could not be in the classroom, his place was to have been filled by Mrs. Bird. Apparently such is not the case. The yards were neat, and the buildings presented a good appearance.

Dear Sir,

A few days ago our Indian Agent Mr C. P. Schmidt asked if he could use the School for paying Treaty in. I refused on the grounds, that as I had spent a lot of time in beautifying the School grounds, and using a lawn mower & keeping the grass like a lawn, that if the whole Reserve came on the grounds, with their dogs, & horses, and children, they would leave everything in a mess, & also the people would be spitting all over the place.

I might add there is a Treaty Hall on the Treaty grounds, & also a Farm Instructor's Office, & pointed out that if there had been no other place to pay in, it would have been a different matter.

Again the seats in the School are not made to stand the weight of adults.

Would you kindly let me know

if I am justified in refusing, & thus protecting the School Property, for if I had not any say in the matter, I feel the Agent would not have made the request - but made a demand.

I would appreciate your advice in the matter, the Agent has said nothing more in regard to the matter, but there may be a possibility of him forcing my hand, unless I have ~~so~~ advice in the matter.

Dear Mr. Scott:-

Your letter of November 19th in reply to my request for further information gave me no indication of the conditions which had lead you to make the request regarding Mr. Bird. As you know there has been Smallpox Quarantine on the Reserve which lifted only on January 9th. I find that Mr. Bird was a pupil teacher in England for two years and has taught in Indian schools for nearly 18 years and that the Inspectors report regarding Mr. Birds' work in the school was satisfactory. In addition Mrs. Bird has her First Class Saskatchewan Teachers Certificate. During the Smallpox trouble I am told that Mr. and Mrs. Bird were indefatigable in their attentions and that the matter was carefully handled.

For my part I appreciate all that your department is doing for the Indians and for some years I have known of your keen personal interest in the welfare of the Indians. I wish to do everything I can which will advance the work.

May I ask that you would look over the matter again. It is a very serious thing to me because I do not know what is the short coming of the teacher regarding whom you make your request.

OFFICE OF
INDIAN AGENT
Duck Lake, Sask.
April 14th 1932

Sir:-

I have the honour to acknowledge receipt of your #II-I dated the 16th ultimo which was received here on the 21st idem, informing me that funds would not be available for payment of salaries of the Field Matron's in this Agency during the Fiscal Year 1932-3 and to inform Mrs.E.V.Bird and Mrs.G.J.Waite that they should not remain on duty after March 31st in the expectation that their positions will be restored in the next fiscal year.

On the day I received your letter March 21st, I immediately wrote Mrs Bird and Mrs Waite giving the full text of the Departmental letter and ending with the following paragraph "Please let me know at your earliest convenience your intention with respect to the last paragraph of the above letter re carrying on your duties."

I am now in receipt off a communication from Mrs Bird which reads:-

Dear Sir:- With reference to yours re the Indian Departments inability to continue the position of the Field Matrons. I beg to state that I shall not continue the duties after April 1st. I would like to know if the "help" provided for attending to the childrens meals and cleaning of the childrens dining room will be continued? The dining room is scrubbed twice a week. I presume as a months notice was given to Field Matron with regard to cessation of duties, that a months salary is given.

Dear Sir:- Re yours of Mar 21st #7887-27
As long as I have to live on an Indian Reserve I will do what I can for the Indians on that Reserve,but to carry on the duties of Field Matron as I have done for over five years,that is,to give them at least two thirds of my time,would be impossible without payment. I think before I commit myself your letter needs a little more explanation. If I promise to carry on,will all the work of the midday meal be my duty without assistance?if I do not promise to carry on,whose duty will it be to give out medicines?.During my time here as Field Matron I have paid for my house work and washing to be done,so as to be able to carry out the duties of the position as well as possible. I must now either do this work myself,or find other ways and means of raising money to pay for it, therefore I could not,as before stated give the Indians two thirds of my time. I am not refusing to carry on,I only wish to be plainly understood that if I carry on I should consider myself a free agent,not bound to write reports or ask permission to leave the reserve whenever I wished to do so. It is not likely that the Indian Dept would expect this,considering the position of Field Matron is dispensed with,and they have no further claim on my time. I have never received any complaints from you or any one else in the Dept so consider my work has been satisfactory,reports never adequately expalin all that is done for the Indians. I have trusted to results to show this,also to a letter I once read from the Dept that they did not wish a lot of detail. I think this matter i.e.that I no longer hold the position of Field Matron, should be plainly stated to the Chief so that he can notify the whole Band of the step the Department has taken.
Awaiting your reply.

Signed. E.Waite Field Matron.

I have not seen Mrs Waite since receiving her letter. Re giving out Medicines:- There is no Farming Instructor on this Reserve. The Medical Attendant Dr.A.Montreuil lives at Prince Albert 18 miles distant,his engagement calls for a monthly visit to the reserve,Indians call at his office quite frequently and he often times sends them back to the reserve with a note (prescription) for their medicines. Rev Mr Waite the Teacher of the Day School on the reserve is allowed $5.00 per month by the Department for issuing rations and clothing to the destitute and sick Indians. There are eight names on the destitute list at present. Note:- In the Auditor General's Report for the year 1928-9 Rev Mr Waite is referred to as "Dispenser",in 1929-30 as "Issuer"

As regards the writing of monthly reports and asking permission to leave the reserve,I presume these will not be required in future

Re the last paragraph of Mrs Waite's letter she refers therein to Chief Robert Bear of John Smith's Band who I have been told,had passed the remark that Mrs Waite was paid to attend to the Indians.

Re both Mrs Bird and Mrs Waite's query re "Help" for attending to the childrens meals and cleaning of the childrens dining room. The Field Matron on James Smith's and John Smith's reserves were allowed assistance to prepare and serve the warm midday meal to all pupils of the day school. Fifty cents was allowed for each day the school was open. This assistance was granted to allow more freedom of time to the Matrons to do their Field work or attend to cases which might come to [illegible] at their homes during the hours of the preparation of the midday

The Teachers of the other two day schools of this Agency [illegible]y; Mrs.E.M.Siddons at the Fort-a-la-Corne South Day School on [illegible] Smith'sReserve and Miss.H.J.Hare at Moose Woods Sioux Reserve, serve a warm midday meal to the pupils. They are not allowed

(allowed).

The assistance mentioned herein,not being Field Matrons,the older girls attending school assist with the work but are not paid.

At the three schools where there is a childrens dining room the scrubbing of the floors and the class room floors is done by Indian women who are paid by the Department.

The point may be raised that Mrs Siddons and Miss Hare are the Teachers and are therefore on duty every school day while in the case of Mrs Bird and Mrs Waite they are the Teachers wives and not being Field Matrons are free Agents. While not directly stated,the question who is to prepare the midday meal, seems to be asked. If paid assistance is granted these two schools, will not other Teachers ask for same,also. I consider all should be treated alike. I have had no complaints from the schools where paid assistance is not given. I stfongly recommend that we continue serving the warm midday meal at all schools of this Agency.

When on James Smith's Reserve last week Rev Mr E.V.Bird the Teacher,asked me why the difference in the teachers salaries, $800 at the North End School and $950 at the South End School. I replied I understood the Department engaged the teachers recommended by the Church authorities but did not know who fixed the amount of the salary. He then added I thought it might be higher at the South end because there was no assistance given the teacher for preparing the midday meal.

Ottawa, April 20, 1932.

Sir:

I have your letter of the 14th instant, in regard to dispensing with the services of the field matrons in the Duck Lake Agency as at March 31st, last, and requesting to be advised as to the arrangements that should be made for continuing the preparing and serving of the midday lunch to the pupils at the James Smith and John Smith Indian Day Schools.

In reply I have to say that the Department desires that the serving of the midday lunch to the pupils be carried out and will continue payments to the Indian women at the rate of 50 cents per day for the actual number of days they perform this service. It is considered that these Indian women should be able, with any assistance the wives of the teachers desire to give, together with the help of the older girls, to prepare and serve the meal without difficulty. The Department can allow no payment to the wives of the teachers for this service. You will be good enough to inform the parties interested accordingly.

You should continue to forward certified vouchers, in duplicate, for the amount due the Indian women in the preparing of the meal and also for any expenses in scrubbing and cleaning.

You will be written in a separate communication regarding the other matters referred to in your letter.

Memorandum -

Concerning the Services of the Rev. E. V. Bird,
At present Teacher of the James Smith Indian Day School.

Rev. Mr. Bird was first employed by the Department at the Red Pheasant Indian Day School. He served there for 3 years, 1920-23, with considerable success. He applied for the principalship of the MacKay Indian Residential School and was given a fair trial there, somewhat against the advice of departmental officers. He was relieved of his duties in 1927, and Bishop Lloyd, when nominating him for the James Smith Indian Day School, stated that he had not been a success in the residential institution "as expected" (this file) (The appointment, of course, had been made by the M. S. C. C.) The trouble which led to his removal from the MacKay School was in connection with corporal punishment. Both the Church and the Department investigated, and the Church, on its own initiative, relieved him of his post. (128-1-1).

From 1927, Mr. and Mrs. Bird were at the James Smith Indian Day School (Fort a la Corne North). In October, 1930, the Church notified the Department that Mrs. Burbridge, teacher of the south end of the reserve, was leaving. A month later, Mrs. Burbridge put up a fight against her retirement and complained of the activities of the Rev. Mr. Bird. (109-9-1). Mr. Bird retaliated in January, 1931, by interesting the Honourable Mr. Weir in his behalf. Further, Mrs. Bird wrote the Superintendent General, complaing of Indian Agent Schmidt (D. M. 's Private File 329) and she wrote the Department, protesting about the procedure in calling the medical officer to the reserve (9-109). In February, the Chief of the Band and the President of the Canadian Legion at Kinistino protested concerning Mrs. Burbridge's dismissal and complained about Mr. Bird. In March, Archdeacon Paul investigated conditions and found the reserve rather divided in its allegiance between the two workers (109-9-1). Mrs. Burbridge left in April, 1931.

In October, 1931, the Superintendent General asked the Department to remove Mr. Bird from the James Smith Indian Day School and arrangements have been made for him to leave in June, 1932. Bishop Hallam has had an interview with the Superintendent General and it was agreed that he would be transferred to the Sturgeon Lake Indian Day School.

Dear Sirs:

I understand that there is an opening for a teacher for the Indian School, Forte A La Corne. I submit my application for your approval.

I have my Grade Eleven Diploma and nine subjects of Grade Twelve. I attended the Moose Jaw Normal School, and received my Second Class Certificate. I have no experience.

I am a Protestant. I will be twenty-one this year. I am experienced in cooking and would be able to prepare hot dinners for the children.

For references I recommend Mr. G. A. Brown, Principal of the Moose Jaw Normal School, and Mr. W. R Beatty, Principal of the Swift Current Collegiate, Swift Current, Saskatchewan.

I visited an Indian School at Forte A La Corne, and I am acquaint

Madam:

I have your letter of the 23rd instant, applying for the position as teacher at the Fort a la Corne North Indian Day School for the coming school year, and stating the qualifications and experience which you possess.

In reply I have to say that the Department looks to His Lordship the Bishop of Saskatchewan, under whose auspices the school is conducted, for the nomination of a teacher for this school. I would suggest that you forward your application, with full particulars as to qualifications, etc., to Right Rev. W. T. Hallam, D.D., Bishop of Saskatchewan, Bishopsthorpe, Prince Albert, Sask. I may add that His Lordship was requested to nominate a teacher for this school in time to begin duties at the beginning of the coming school year, on or about September 1st, next.

My dear Mr. MacKenzie:-

Referring to your letter of July 13th re James Smith Indian Day School, some weeks ago I forwarded my nomination of Mrs. Amy McFarlane as teacher for this school to the late Mr. Russell Ferrier, Superintendant of Indian Education, with references from the physician and the chairman at Onion Lake Day School where she has been teaching for a year and a half. Mrs. McFarlane is a widow who has a grown-up daughter living with her, who has been a great help to her. Mrs. McFarlane has IInd Class Professional Certificate of Manitoba and has an excellent record as a teacher. I recommend her with confidence. A missionary is to be appointed to the Reserve Church so Mrs. McFarlane will be dependent on your salary which I hope will be generous.

Rev. E. V. Bird who was formerly teacher at this school prefers to seek some other work than that of teaching if he can possibly find it, so in due time I shall submit another nomination for the Sturgeon Lake Indian Day School.

I was grieved to read of the sudden passing of Mr. Ferrier. He will be much missed in the affairs of the schools and I am sure you will miss him in the office.

Right Rev. Sir:

I have Your Lordship's letter of the 1st instant, regarding the nomination of Mrs. Amy MacFarlane as teacher of the James Smith Indian Day School which you forwarded the late Mr. Ferrier, Superintendent of Indian Education.

In reply I have to say that we have been unable to find your letter among Mr. Ferrier's papers. However, in December, 1930, Archdeacon Paul nominated Mrs. MacFarlane as teacher of the Fort a la Corne South School, and enclosed a communication from the Principal of the Provincial Normal School in Winnipeg stating her qualifications. These are satisfactory, and the Department will approve of Mrs. MacFarlane as teacher of the James Smith School, to begin duties when the school reopens after the present summer holidays, on September 1st, next. The salary allowed her will be at the rate of $90 per teaching month, less 10 percent for the current fiscal year. This is the same salary as was allowed the teacher at this school previous to the appointment of the Rev. Mr. Bird. It is noted that a missionary is to be appointed to this Reserve, and that Mrs. MacFarlane will, therefore, be able to devote her entire services to the school activity.

I shall be pleased if Your Lordship will inform Mrs. MacFarlane of her appointment and arrange with her to take up duties on the date above mentioned. Mr. Agent Schmidt, Duck Lake, is being informed of her appointment and requested to give her every assistance he can in her work and in encouraging a regular attendance of the Indian children. It is hoped that she will meet with every success.

With reference to a teacher for the Sturgeon Lake Indian Day School, it is noted that you will submit a nomination in due time.

Your Lordship's kindly reference to the late Mr. Ferrier is appreciated.

Fort-a-la-Corne North Day School 109-4-1

This school is situated at the North end of the [illegible] Smith's Reserve. I visited it in the forenoon of March 10th. The weather was cold and a strong wind was blowing. I arrived at the school at 9.30 a.m. and found it warm and comfortable. There were 9 boys and 5 girls present out of an enrollment of 17. The ages of the children ranged from six to thirteen years. The different classes were examined in reading and they spoke in an audible voice and I considered the reading good. The children in the primary class were questioned regarding daily life and appeared quite bright. They answered questions without hesitation. The average attendance for the week of my visit was 14 +.

The children's hands and faces were clean and their clothing, although not new, was clean and I considered they were warmly clad.

The teacher, Mrs. McFarlane, I would judge, is well qualified to teach Indian children. Her manner is kindly and I am of the opinion that she is really interested in the children and sympathetic towards them. I may say that I had previously come in contact with Mrs. McFarlane at Onion Lake where she taught a white school, which the children of Departmental employees attended. She was highly spoken of there and her departure from the school to take up Indian work was a matter of deep regret in that community.

Mrs. McFarlane informs me that she is making preparation to plant a large garden and hopes to grow sufficient roots and vegetables to enable her to supplement the warm drink which has been allowed by the Department.

I found the school clean, but it is in need of redecoration. The cross light spoken of by Inspector Piercy, I am of the opinion, can be eliminated to a large extent, if not altogether, by providing dark blinds for the windows in the end of the classroom. I found the school clean and tidy. It is heated by a furnace. The radiation provided in connection with this furnace is different from any I have seen. The teacher - informs me that -

informs me that she had difficulty at first in operating it and wrote to the Manufacturers, asking for instructions and since receiving full instructions from them she has had no difficulty in keeping the school warm. At the time of Inspector Piercy's visit she said she was having difficulty and on really cold windy days the school was not comfortable, but that condition has now been overcome.

I was very pleased indeed with conditions as I found them at this school. I would however be very reluctant to have anything I have said construed as a criticism of Inspector Piercy's report and will give him credit for reporting conditions as he found them, but I would say that conditions today I feel would not justify such severe criticism as he made. A very great change must have taken place in as much as I found things quite satisfactory. Here, as at other Reserves where day schools are in operation, the attendance is effected at times by cold weather, sickness, and in a few instances by the indifference of parents. The Indians have been well warned that a punctual and regular attendance is essential if the school is to be kept in operation for their benefit.

EDUCATION SCHOOLS

On John Smith's and James Smith's Reserves a number of the Indians expressed the desire to send their children to the residential schools at Onion Lake, Gordons and File Hills. I enquired why they did not continue sending them to the day schools on the reserve, in most cases the reply was. "We are poor (hardup) and cannot clothe our children properly, during the winter months" some said they had a hard time providing sufficient food for their families.

Dear Sir;-

In reference to our discussion pertaining to the Day Schools on the James Smith's Reserve near Fort a la Corne, I beg to report as follows;-

The teachers of these two schools, namely Mrs Amy McFarlane and Mrs E.M.Siddons are both getting on in years, and are not suited for this work.

I agree with you that we should employ married couples who are Social Service workers as teachers in these schools.

Mr. Jones the Farming Instructor on this Reserve has informed me that a great deal of his time is taken up in being called upon by the present teachers as they have no man to do odd repair jobs. He states that he can hardly refuse all the requests as they are in many instances unfitted for work of this nature. He has a large Reserve to supervise, and he or no other Farming Instructor should have to be called upon to act as handy man or chore boy to the teachers of Day Schools.

I strongly recommend that a change be made here as soon as possible.

ALSO TO DATE OF THIS LETTER

Sir:-

I am enclosing herewith copy of a letter received from Mr. S. H. Simpson, Agent at Duck Lake, with reference to the Day School Teachers on the James Smith's Reserve.

I fully agree with Mr. Simpson that the services of these teachers be dispensed with at the end of June next.

My recommendations in connection with this reserve are that the North Day School be closed for the present; that a married, male, teacher be appointed for the South School capable of doing social service work; and that a van be operated to bring the children to school from the North. The Farming Instructor is situated at the North end of the Reserve and with a good male teacher at the South end, the Reserve would be well supervised. It is a large Reserve, as you know. At a later date, the question might be gone into of establishing a manual training department in the North School.

Venerable Sir,-

Dr. Thos. Robertson, Inspector of Indian Agencies for the Province of Saskatchewan, forwarded a letter from the Indian Agent at Duck Lake with reference to the James Smith's and Fort-a-la-Corne South Indian Day Schools.

As you are aware, Mrs. Amy McFarlane is the present teacher at James Smith's School, while Mrs. E. M. Siddons is in charge of the Fort-a-la-Corne South School.

Our Agent and Inspector point out that both these ladies are advancing in years and, as a result, are not capable of handling their schools in the manner which the Department has a right to expect. I feel you will agree with me that, when there are so many qualified teachers available, we should, in the interests of our wards, secure the best possible teaching services. This is especially true at the present time when we are endeavouring to bring our course of study more in conformity with the actual needs of the children.

The Department would, therefore, appreciate your advising Mrs. McFarlane and Mrs. Siddons that their services will not be required after the end of the current academic year, namely, June 30th, next.

For the

For the Fort-a-la-Corne South School, we would like to secure a married man but a female teacher will be satisfactory for the James Smith's School. Both teachers should be fully qualified and should understand that, in addition to teaching the academic subjects, the Department expects that some vocational training be given both boys and girls, as well as a reasonable amount of community service for the older Indians. Our idea in the latter regard is to bring the older Indians into closer relationship with the school activity.

In nominating teachers for the two schools mentioned, you should select two or three for each school and have them interview Indian Agent Simpson, who is fully conversant with local conditions on each reserve and is in a good position to decide which teacher nominated by you is best qualified for the respective schools.

Dear Sir,-

The Department is in receipt of your letter of the 7th instant, enclosing copy of a communication received from Indian Agent Simpson with reference to the teachers at the James Smith's and Fort-a-la-Corne South Indian Day Schools.

Venerable Archdeacon Paul is being written and requested to nominate a married man for the Fort-a-la-Corne South School and a female teacher for the James Smith's School. It is felt inadvisable to close the James Smith's School this year. Our experience in driving pupils a considerable distance has shown that this becomes an expensive procedure and that the results are by no means satisfactory.

OFFICE OF
INDIAN AGENT

2478-15-100M.

Duck Lake, Sask.
June 14th., 1937.

Dear Sir:-

I beg to acknowledge receipt of your letter dated the 11th., instance, enclosing Mrs McFarlane's request to be retained as teacher of the Fort a la Corne North School, for another year.

While at this Reserve last week I interviewed Mrs McFarlane, she advised that she had written to you and also to Mr. Hoey, Superintendent of Welfare and Training, Ottawa. She also stated that her son-in-law had lost his position as teacher in the Leask Agency.

The Venerable Archdeacon Paul called to interview me last Thursday in connection with the teachers on this Reserve. He has apparently gone to considerable trouble to find suitable employees to fill the occurring vacancies there, and advised that to date he had only been successful in finding one. I requested him to let the matter stand for the time being in so far as the North School was concerned.

I have no fault to find in Mrs McFarlane's school work. However I do find that she is not suitable for the class of work required on this Reserve.

In view of the unfortunate circumstances pertaining to this case, and the fact that Mrs McFarlane in my opinion has given her best while in the Service, I recommend that her request be given favourable consideration.

If the Department see fit to grant this, I would ask that it be distinctly understood that her daughter and son-in-law are not to live on the Reserve with her.

Mrs McFarlane's letter is herewith returned.

Yours very truly.

Re: Mrs. McFarlane

Dear Dr. Robertson:

I desire to acknowledge receipt of your letter of the 16th instant and also letter received by you from Indian Agent S. H. Simpson, attached thereto.

I may state, for your information, that on June 15th I sent forward a letter to Mrs. McFarlane, in which I stated:

> "I am in receipt of your letter of the 6th instant, with reference to your dismissal as teacher of the James Smith's Indian Day School. I regret that it is not possible to make any change in the decision that has already been reached."

You will remember that a notice of dismissal was sent to these teachers through Archdeacon Paul, in response to a request for a change of teachers on this reserve, recommended by Mr. Simpson in his letter to you of May 4th. I cannot see any valid reason why the decision already reached by the Department should be modified at this date. This attitude may seem harsh, but we must keep in mind that we are primarily responsible for the welfare of the Indian population and for the betterment of conditions on the reserve. The Indian Agent, who is familiar with local conditions, stated very definitely that these teachers are no longer rendering the service that should be rendered on the reserve and that a change is desirable. No difficulty

should be experienced in obtaining fully qualified and capable teachers, in view of the hundreds of teachers that are out of employment at this time. If, however, it is found impossible to secure a capable teacher for the North School, you might consider the advisability of allowing either Mrs. McFarlane or Mrs. Siddons to take charge of the school, temporarily, until a more capable teacher is secured. Any recommendation you have to make in this regard will be acceptable to the Depart-ment.

Dear Sir,

May I take the liberty of drawing to your attention, a very unfair and unfortunate situation as regards teachers in your Indian schools in Saskatchewan I am writing on behalf of myself and several others.

With your Dept. trying to improve the standard of teaching in Indian schools, and insisting that teachers possess a Prov. Certificate, several teachers like myself have left the Provincial service to work under your Dept. But in so doing we are deprived of years of effort in preparing for self-support in our old age and that we will not be on relief or old age pensioners, in that we find that we are not able to continue under the Provincial Teachers' superannuation, and as we are classed as Temporary employees under your department, do not come under the Civil Service Act of the Dominion.

I take my own case as a typical example, I have a Sask. First Class Perm. Cert - and am working for my Superior First - have years of service credited towards the number required for superannuation under the Sask Act - since 1924 and have contributed, again without a break, since 1930 to the Provincial Fund. Yet because I have moved a few miles to an Indian School, I must withdraw from the Act, and lose credit of 14 years of teaching service.

We do feel that to:
Proper Sask. Certs.

1. We must possess
2. Teach the Sask. Curriculum
3. Be reported upon by Saskatchewan School Inspectors, etc,

in fairness, if a teacher already under the Sask. Superannuation Act enters your Dept. in service, it should be possible for him to continue under the Provincial Superannuation Scheme.

Could it not be arranged for the treasury department to withhold 4% of our salary and forward to Regina? Either allowing us to contribute to the Provincial Scheme, or the Civil Service scheme, will prevent an exodus of qualified teachers from Indian schools, back into the Provincial schools, when

Either the Provincial & Dominion superannuation Scheme, will promote satisfaction and make for more permanency amongst the qualified teachers who are now entering Indian School work.

Ottawa, October 19, 1938.

Dear Sir:

Your letter of October 8, addressed to the Honourable T. A. Crerar, Minister of this Department, has been passed on to me for consideration and reply.

I may state that the desirability of establishing a superannuation fund, to which Indian day school teachers would contribute and from which they would be eligible for allowances, has been reviewed by departmental officials on a number of occasions in recent years. The obstacles, however, standing in the way of the establishment of such a fund are, in my judgment, for the time being at least, almost insurmountable.

I was responsible, a few years ago, for the establishment of a superannuation fund for teachers in the province of Manitoba, and I entered this Department two years ago, hopeful that a worthwhile fund could be established here.

May I point out that approximately 50% of Indian pupils are enrolled at residential schools, operated by certain churches, in cooperation with the Department. The principals and teachers responsible for instruction in these institutions are employed, not by the Government, but by the churches. A large majority of Indian day schools are also operated by the Government, in close cooperation with the churches. The records here disclose that 50% of the Indian population in Canada belong to the Roman Catholic Church. This means that a great many of our Indian day schools, particularly in eastern Canada, are in charge of

teachers -

teachers who are members of religious Communities or religious Teaching Orders. These religious Orders, I understand, have made provision for the care and welfare of their members in the declining years of their lives, with the result that these Sisters would not be at all interested in a superannuation fund to which they would be compelled to contribute.

You may be interested to learn that the average period of time spent by our teachers in Indian day schools is a little less than five years. This means that a great many young unmarried women seek and secure positions as Indian day school teachers with the object of getting married in the course of a few years. These girls would hesitate to contribute to a fund such as the Civil Service Superannuation Fund, if they were informed that no contributions would be returned until they had spent at least ten years in the service of the Government.

I am personally of the opinion that, in order to qualify for superannuation, Indian day and residential school teachers would have to become permanent Civil Servants as defined by the Civil Service Act. In view of all the circumstances, however, the chance of our Indian day and residential school teachers becoming permanent Civil Servants, appointed after qualifying by competitive examination, is very remote indeed.

There is a widespread feeling that Indian day school teachers are, somehow or other, discriminated against by the Government, in that the teachers do not qualify for superannuation. May I state that there are thousands of individuals in the Service of the Government, none of whom qualify under the Superannuation Act. I have in mind temporary Civil Servants employed for years either at Ottawa or in the outside service - post masters throughout the Dominion, temporary light-house keepers and a number of others. These claim - and I think rightly so - that their case should be given consideration before any

attempt -

attempt is made to review the claims of, say, residential school teachers, who are not even employed by the Government. My personal sympathies, of course, are all with the teachers, but I think you will readily appreciate the difficulties confronting the officials when the matter is referred to them for consideration.

I may state, however, that the salaries paid throughout the Dominion to Indian day school teachers in recent years, when free housing accommodation is taken into account, have been almost double the salaries paid to public school teachers. I am not suggesting that the salaries paid are too high, but I do think this fact should be kept in mind, in fairness to the Dominion Government, when a superannuation scheme, or schemes, come up for consideration.

It is my hope that you may have an opportunity of discussing this matter with Dr. Robertson, Inspector of Indian Agencies, province of Saskatchewan. Dr. Robertson is reasonably familiar with the attempts we have made to solve this problem and would, I feel sure, be glad of an opportunity to discuss the matter with you.

Dear Sir:

Mr. W. A. Richford, Teacher at the North Indian Day School, James Smith's Reserve, Duck Lake Agency, has approached me with regard to an increase in salary, at least to equal that being paid at the South School.

I might say that Mr. Richford holds a First Class Permanent teacher's certificate. He has been teaching at the North School since September 1st, 1938. During this time the enrollment has increased from 14 to 23, with 24 pupils frequently in regular attendance. He is active in manual training work among the pupils, also has carried this work to the younger men of the reserve, who have formed a young men's club which has become very active under his supervision.

Mrs. Richford has also been very active in supervising sewing, knitting, health, cleanliness, etc. She conducts at least two meetings a month, attended by the women of the reserve, and instructs them along these lines.

This school is located 24 miles from the nearest town and has twice as many pupils attending as the South school, which is 12 miles from Kinistino.

Mr. and Mrs. Richford are, I think, the type of teachers we require on our reserves, and I would recommend, if funds are available, that this request be granted.

Yours truly,

Thos. Robertson,

Dear Sir,

I am in receipt of a recent circular from our Indian Agent, advising that Indian Day Schools will not reopen until October 1st 1940, and that salaries will henceforth be paid upon a nine months basis.

In addition to the unexpected news that it will be necessary to keep ~~one's~~ oneself and family for one third of a year (June 30 till Nov 1st) without income, one irks at the thought of spending three months, July, August, September, laid off in enforced idleness during this time of national emergency.

I would be only too willing to offer my services for even a fairly small remuneration in even a humble capacity

This is to acknowledge your letter of August 20 regarding your acceptance of my nomination of Miss Ida Vandall for the teaching position on the James Smith Indian Reserve in succession to Miss Merrett. I am advising Miss Vandall accordingly.

I hereby wish to nominate for the vacant position as teacher in the day school on the Shoal Lake Reserve the Reverend Smith Atimoyoo. Mr. Atimoyoo has been teaching the last two summers at Pelican Narrows and I feel he will be an admirable person to succeed Mr. Schunaman at Shoal Lake. I returned from the north country yesterday where I interviewed Mr. Atimoyoo. He expressed his willingness to accept the position should you agree with my nomination. I have every confidence that he will make a good teacher and be a good influence amongst the Indians there.

At the time of my visit to this institution there were 13 children in attendance and there were 23 children on the register. It was explained to me by the teacher that the school attendance was small because the children were away from the reservation with their parents. There were also some children away from school with skin trouble and these were to be seen by the [redacted].

Mr. McLeod, the Indian Agent, accompanied me, and I brought to his attention that he should see to it that the attendance at the school improves as soon as the Indians return to the reserve, which I know he will do.

The classes taught at this school are from 1 to 7 and in Grade 7 there are just two boys.

The school had just been renovated and seemed to be in fair shape. The teacher's house needed repairs but the material was there and the work will be gone on with immediately to fix up the interior of the school house.

The teacher, as you know, is an Indian girl from the Sandy Lake Reserve in the Carlton Agency who is married to one of the Indians from the James Smith Reserve, namely John Robert McLeod. He is at present in the Army but was at home on leave when I was there. As far as I could make out from talking to the Indian Agent, etc. Mrs. McLeod is now getting along fairly well. Mr. McLeod, the Agent, and Cannon Ahenakew who is stationed on the James Smith Reserve, had a round up with the teachers and since then I understand that they are attending to their work better and things are fairly satisfactory.

In passing I might mention that after the war I think the proper thing to do with the school and teacher's residence is to give the material to some of the Indians and build a new school and teacher's residence because these buildings have been there for a great number of years and always need a lot of

repairing as something is always.....

December 13, 1944.

Dear Bishop Martin:

I have your letter of the 9th instant, with reference to Mrs. McLeod giving up duties at the James Smith Day School at the end of the current month. Her resignation is accepted and the Indian Agent will be informed accordingly.

I note your suggestion that Mrs. Ahenakew be engaged on a temporary basis and, if you are unable to secure a better qualified teacher, we approve of her temporary appointment, but it should be understood that if at any time within the next few months the services of a qualified teacher become available she will be prepared to relinquish the school without objection. In any case I feel that you will agree that she should not be retained after June 30, 1945. We have been allowing the preceding teacher $85 a teaching month, but I feel that $75 a teaching month, plus bonus, should be sufficient for Mrs. Ahenakew. There will be no deduction for income tax, as she is an Indian working on a reserve.

Yours very truly,
